Transform your restaurant menu boards with Wallboard.

Onboarding and integration with Toast.

Revolutionise your restaurant with Wallboard's real-time digital signage, which, after the initial onboarding process, integrates with your Toast POS system to keep menus automatically updated.

- Integrate rich media
- Simplifies real-time menu updates
- Increases sales and customer satisfaction
- Saves you valuable time and resources

Why Wallboard?

Elevate your boards! Wallboard makes it super simple to craft interactive, engaging displays that not only captivate your customers but also streamline your operations.

- **Keep Your Customers in the Loop:** With our easy-to-use menuboard widget, updating and displaying your menu across your business is a breeze. Your customers will always be in the know about your latest offerings.
- **Never Miss a Sale:** Our system smartly updates your menu in real-time to hide sold-out items and highlight what's available, ensuring every sales opportunity is captured.
- **Make Money with Ads:** Transform your menuboards into money-makers by running ads. You can even track how well they're doing with our built-in proof-of-play reports from our Campaign Engine.
- **Streamline Multi-location Management:** Running multiple spots? No sweat. Our advanced workflows and user permissions make managing franchises a walk in the park, giving local teams more power.
- **Tailor Menus for Any Time of Day:** Switch up your offerings for breakfast, lunch, or dinner with just a few drags and drops. It's all about showing the right menu at the right time.
- **Interactivity:** Our checkout widget lets your customers tap through your touchscreen menus, making their ordering process smooth and fun.
