

SLATWALL PANEL MOUNTING INSTRUCTIONS

NOTE: Must have four people to assemble this unit.

EXPANSION SCREW
(x13)

#6x158 PHILLIPS SCREW
(x13)

SLATWALL (x1)

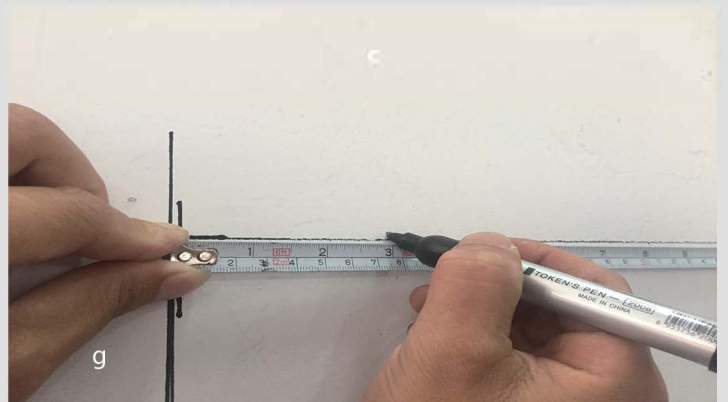

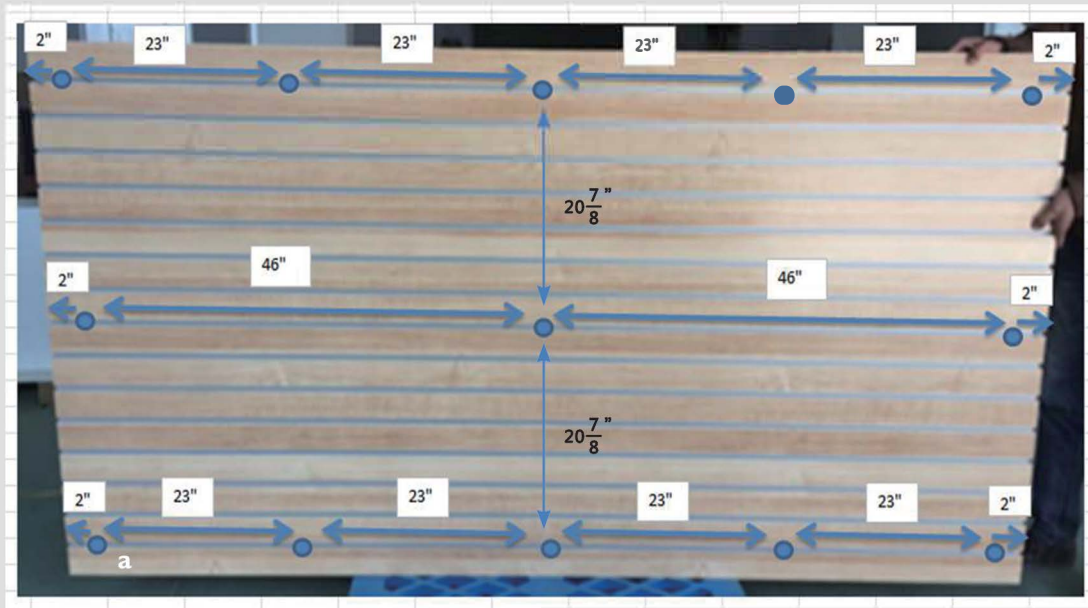

TOOLS NEEDED

Step 1

I. Mark the top of the panel using a level (Figures B & C)

II. Mark the 13 holes using the distances shown in Figure A:

Step 2

- I. Use drill and drill bit to make holes in the marked areas from step 1 (Figure A)
- II. Insert the expansion screw into the holes (Figure B)
- III. Have at least 2 people hold the slatwall panel while another person screws in the #6x158 phillips screws through the panel and into the wall (Figure C)
