

Unpacking the LED Digital Counter

Setup Time:
Approximately 20 minutes

3 people required when lifting and moving unit!

What's included:

- LED Digital Counter
- Pull-straps (2)
- Power Cord
- Keys (2)
- Flight Case

Caution!

- Never lift the LED Counter by its countertop.
- Apply even, balanced pressure on pull-straps when lifting LED Counter.
- Do not exert excess pressure on LED panels.

1

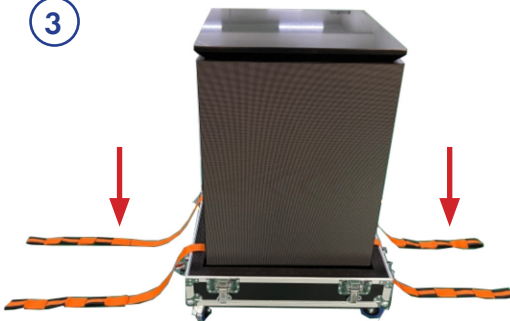

First, lock wheels to prevent movement during unpacking. Unclasp all 8 butterfly clasps.

2

Have 2 people lift flight case top straight up. Set aside.

3

Have 2 people of similar strength stand on either side of the unit and wrap the pull-straps around their arms. Have the 3rd person stand close to the unit to guide and help balance.

4

Using the pull-straps, lift the unit out of the flight case, applying equal upward force. The 3rd person guides the unit from the bottom, with one hand lightly on the side to maintain balance.

5

Slide pull-straps from underneath unit and place back into flight case for pack-up and return.

Returning the LED Digital Counter

Return Checklist - (Read this BEFORE disassembly)

Please complete the following steps to properly return the unit.

Photograph condition of the unit.

1. Photograph the following aspects of the unit on your mobile phone:

- Each of the 3 Screens while unit is ON
- Back of unit
- Top of unit
- All accessories in original plastic bag

Scan to open email.

2. Scan the QR code to send an email directly to our Rentals team at rentals@displays2go.com. Add the name of your company in the email subject line, attach the photos to the email, and send.

Disassemble and Repack Unit

1. Flip power switch to 'O' position, then unplug the power cord. Remove the power cord and all accessories.
2. Place bottom flight case beside the product. Lock wheels to prevent movement and during transportation.
3. Slide pullstraps evenly under unit. Have 2 people of similar strength stand on either side of the unit and wrap the pull-straps around their arms. Have the 3rd person stand close to the unit to guide and help balance.
4. **Follow all procedures and cautions shown on reverse page to repack unit!** Using the pull-straps, lift the unit into the flight case, applying equal upward force. The 3rd person guides the unit from the bottom, with one hand lightly on the side to maintain balance.
5. Fold pull-straps and place to the side of the unit. Pack all accessories in designated spots. Add flight case top to unit and secure all 8 butterfly clasps.
6. The LED Digital Counter is ready to be shipped for return!
