## SAFETY INFORMATION

- Fits most flat panel TVs 26" - 60" screens
- Load capacity: 110 pounds (50 kg)
- VESA compliance: 200 x 200 mm, 200 x 400 mm, 300 x 300 mm, 400 x 400 mm

### Assemble Standing Poles

1. Screw foot (E) to bottom vertical pole (B) and tighten with hex wrench (J).
2. Connect top and bottom vertical poles via keyhole. Twist 180 degrees or until you feel the connection lock.
3. Repeat on other standing pole.

### Insert Fabric Banner

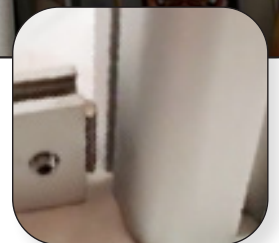

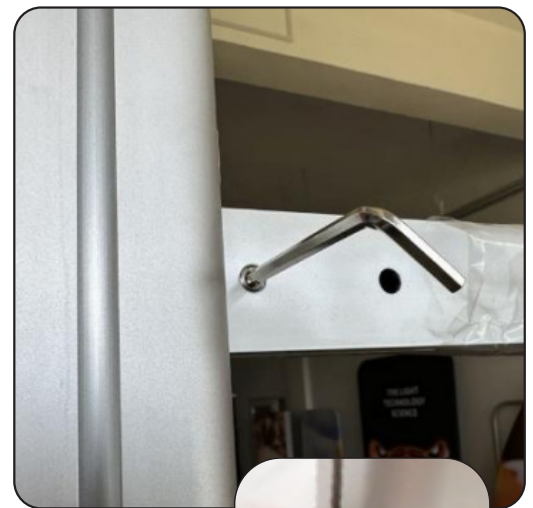

1. Insert plastic seals of fabric banner (F) into the front-facing channels of the standing poles.
2. Evenly pull banner through channels to bottom of the unit.

**NOTE:** It is recommended to install the fabric banner before the horizontal bars for easier assembly.

### Attach Horizontal Bars

1. Install both horizontal bars to the top of the unit, leaving space between to attach the TV mount later in the assembly. Insert metal tabs into the channel of the vertical pole, then use the hex wrench to expand locking mechanism.
2. Repeat on other side, making sure bars are level using magnetic leveller.
3. Add stabilizer bar (D) to bottom of unit.

### Attach TV Mount

1. Screw TV mount (G) to black holes of horizontal bars.
2. Follow enclosed TV mount instructions to attach mounting bracket to your screen.
3. Lift and carefully attach screen to TV mount. Check that TV is securely installed before releasing.

**Assembly is complete.**
