Floor-Standing Unit Assembly [CHRFLRCG]

1. Attach foam furniture pads to the metal base.
2. Attach the pole to the base with the cable management hole facing the back.
3. Attach the mounting plate to the pole.
4. Feed the power cable of the charging station through the pole and out the cable management hole.
5. Attach charging station to the pole using screws and washers.
6. Connect to power.

Wall-Mounted Unit Assembly [CHRGELWLCP]

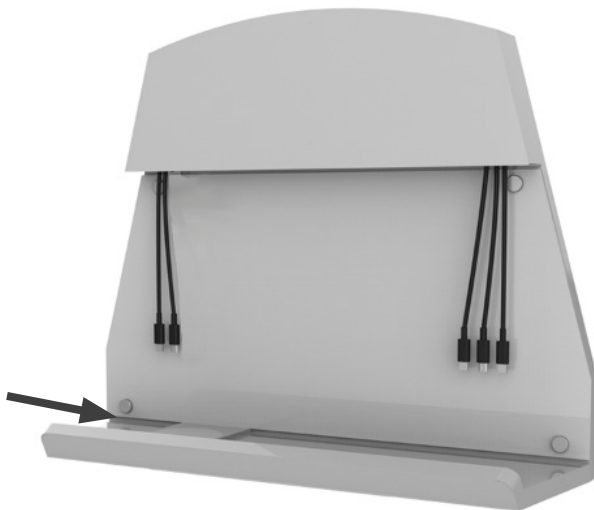

1. Remove the 4 metallic sign standoffs attaching the acrylic cover to the charging station.
2. Attach the charging station to the wall through the inner 4 screw holes using screws and concrete anchors.
3. Replace the acrylic cover.
4. Connect to power.

Placing Custom Graphics

Graphic Insert

Unscrew sign standoffs and remove acrylic cover. Add the graphic insert, then replace acrylic.

Magnetic Graphic

Place onto top of charging station and adjust placement as necessary.
