## Counter Power DXL

SKU: CHRTDXL

### A. Description and Function:

Your Counter Power DXL can charge 7 devices simultaneously. It also provides one universal type power outlet and one USB port for charging any laptop computer and other devices.

### B. Intended Use:

This product is for indoor use only in a dry area. Do not position in any location near water. Positioning this product outside, or inside in a location near water may cause damage or injury to person or property. Please ensure you carefully read and abide by the 'Safety Instruction'.

### C. Safety Instructions:

#### WARNING!

We recommend a skilled electrician is used to assemble and disassemble the housing of the product to avoid risk of electric shock or damage the product.

- This product is not a toy and should not be used by children at any time. It contains small parts which can be swallowed and cause serious injury.
- Ensure the product is assembled and installed in a way that prevents a person tripping over the power cable or the unit falling from its location.
- Please ensure the packing materials are disposed of completely to prevent injury to children (such as box cut or swallowing insulation materials).

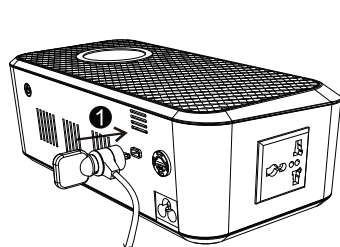

- Do not install in an area with high temperature, high humidity or areas where the charging station may come into contact with water.
- Do not install near air conditioner, or in area with excessive dust, smoke or vibration.
- Do not use the product, or any part, if they are damaged.
- All cables and adaptors should be connected and disconnected slowly and carefully.
- Ensure suitable packaging for transport of the product based on its 'Specifications'.

## D. Package Contents:

- ③ Change of Cable boxes.  
④ Restore the Bottom Panel Cover.

**Supports PD45W fast charging**  
while using Lightning C94 and Type-C cables

## F. Care, Maintenance, Storage and Transport:

### WARNING!

Please follow these instructions to avoid risk of electric shock and/or short circuit.

- The product is self-service, i.e. users do not require assistance to recharge their device.
- Always disconnect the power cord from the main power outlet first.
- Do not clean the product until the unit is powered off and unplugged from the main power outlet. Once unplugged, clean using a dry or slightly damp cloth. Avoid using cleaning products and do not allow liquid to enter the device.
- Do not install in a location where a person could potentially trip on the power cord or the product.
- During care, maintenance, storage and/or transport, avoid places that are wet, humid or have a high temperature.
- Carefully read and abide by the Safety Instructions for care, maintenance, storage and transport.
- We recommend using the original packaging material for transportation to protect the product from dust and humidity.
