USER GUIDE

A. Large Shelf x1

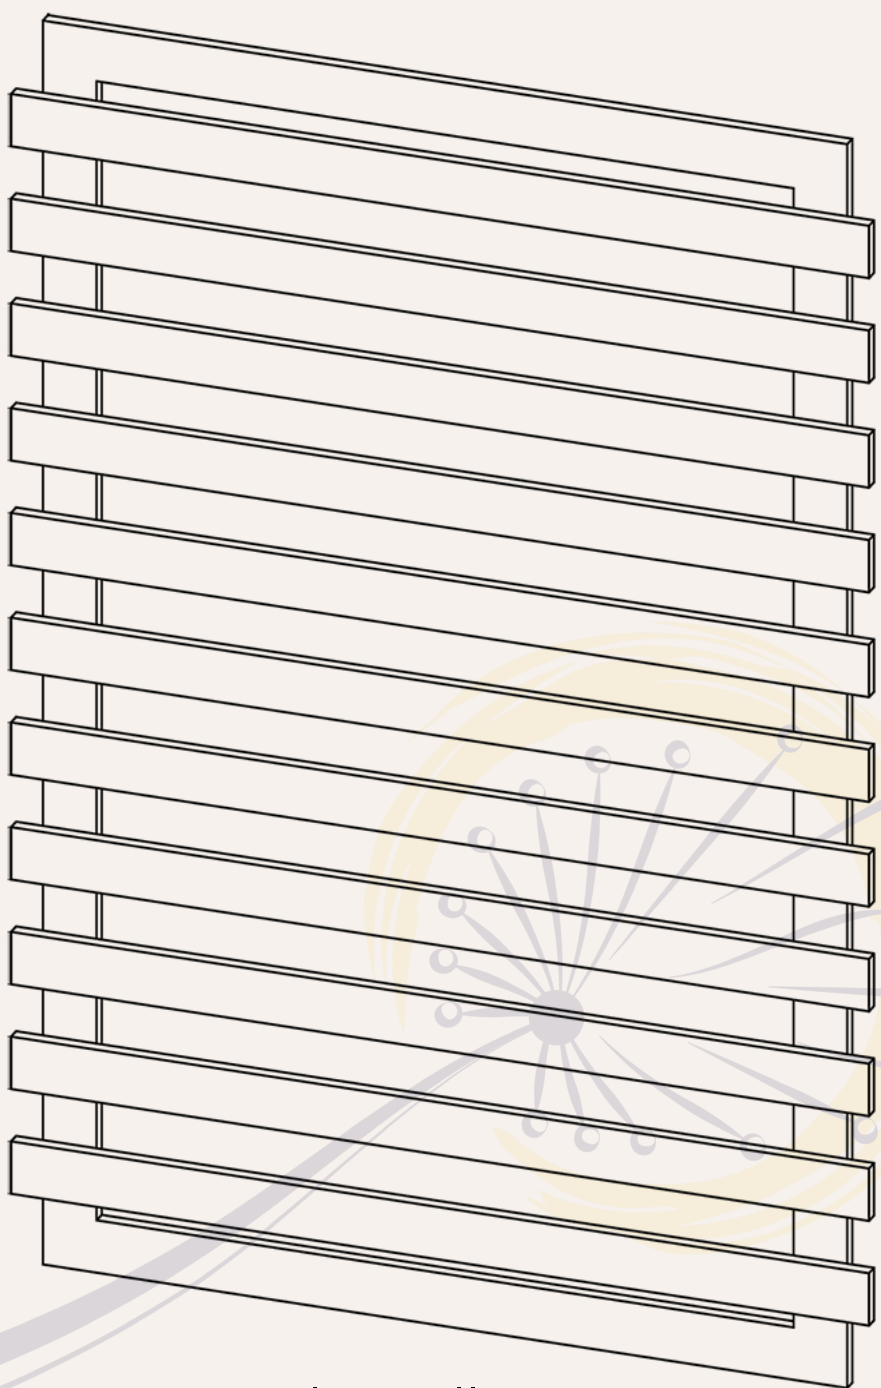

B. Medium Shelf X1

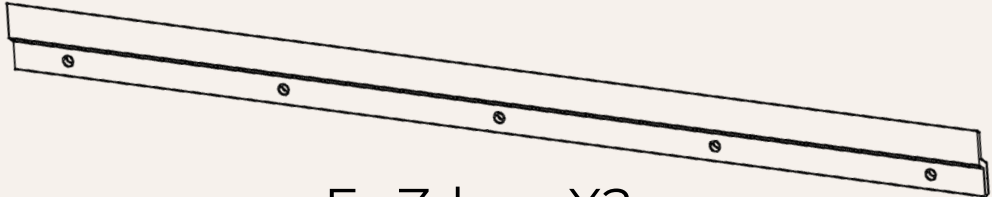

C. Small Shelf X1

E. Screw and Anchor Set X9

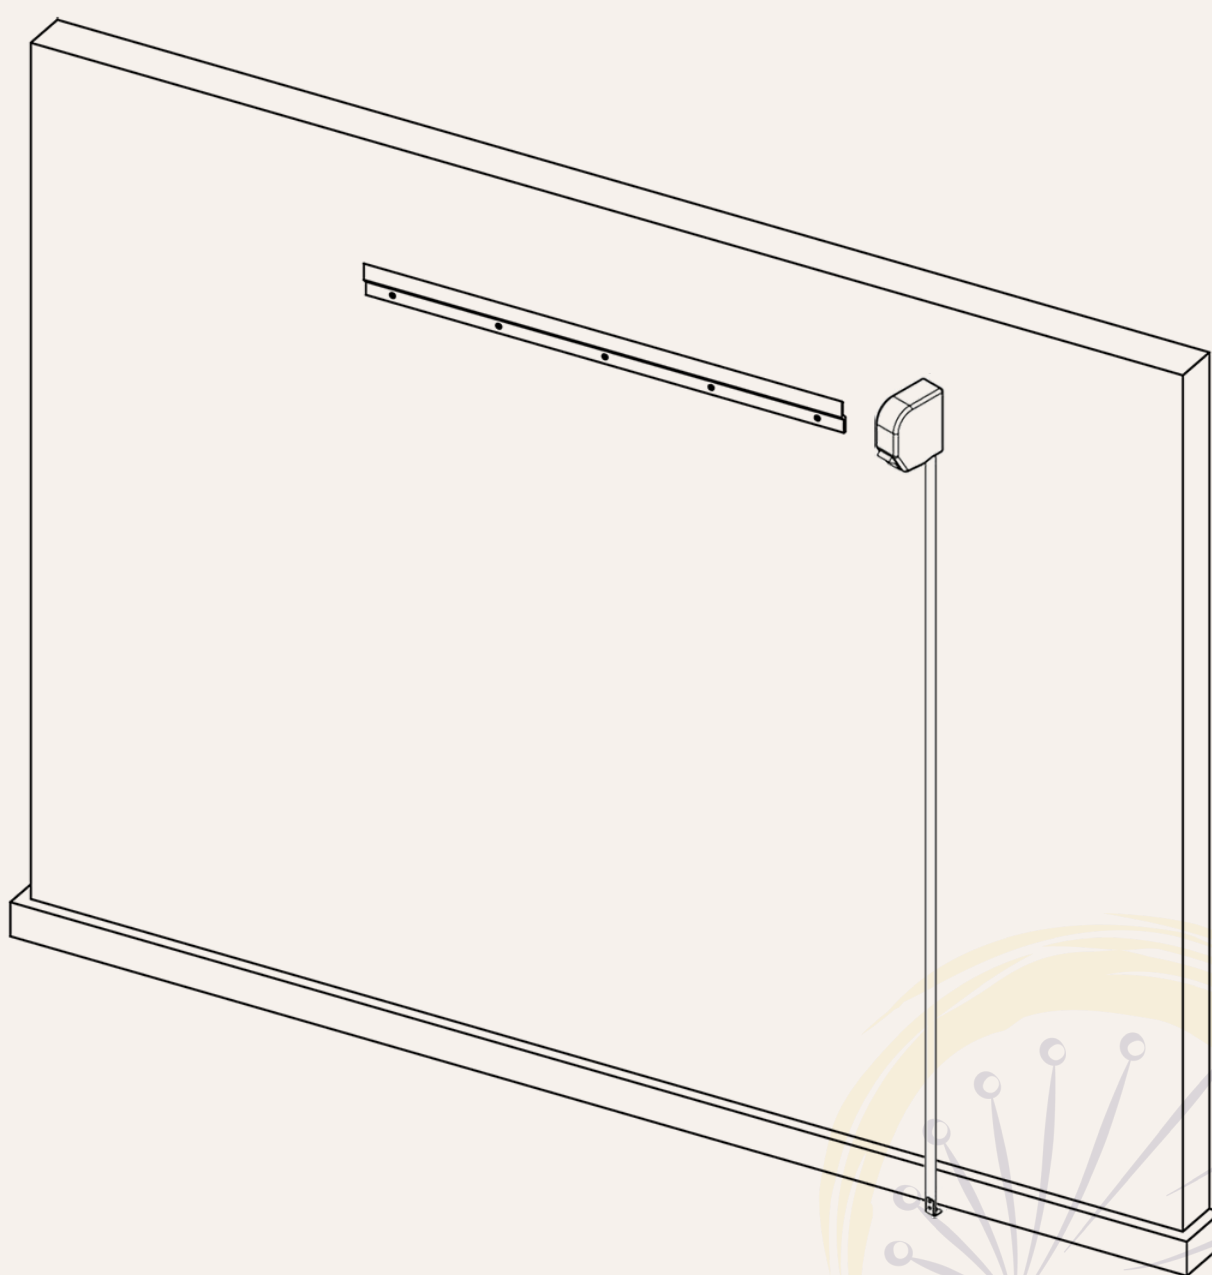

D. Slatwall X1

F. Z-bar X2

PARTS DIAGRAM

NOTE: Choose appropriate hardware for your wall type other than drywall.

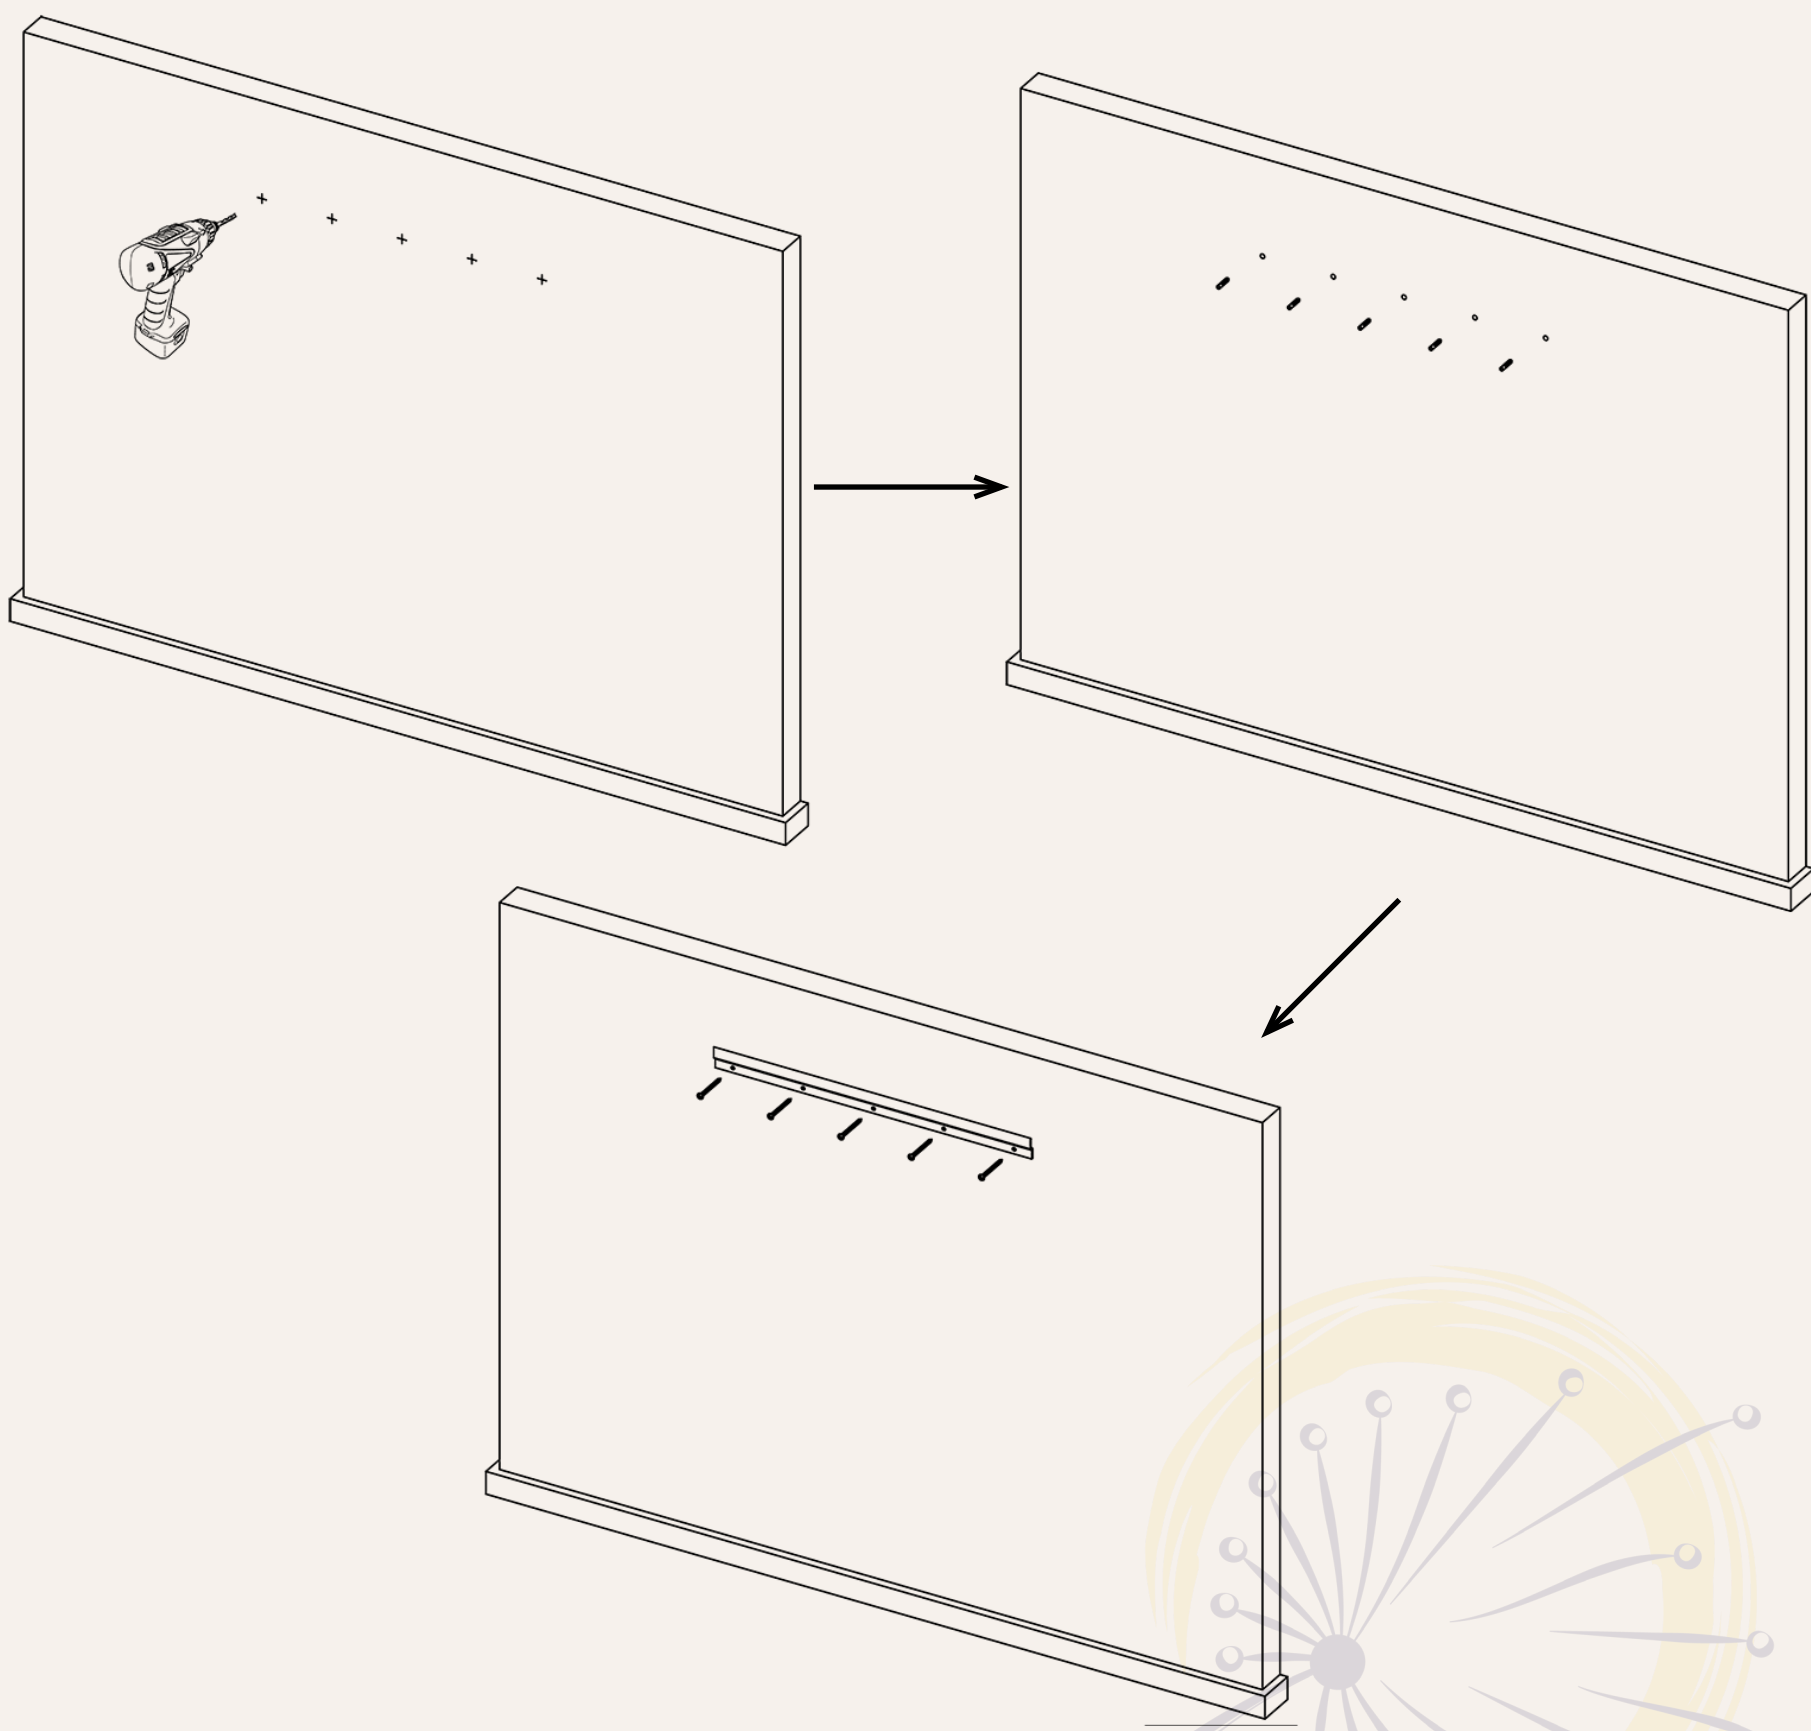

1. Using a level, measure and align bracket at the desired height for your unit on wall. Mark the center of each hole on the wall.

Be sure to account for the distance from the on-unit Z-bar to the top of the unit when measuring.

BEFORE drilling into wall, ensure that the units will align for proper hanging by testing fit of bars together.

ASSEMBLY INSTRUCTIONS

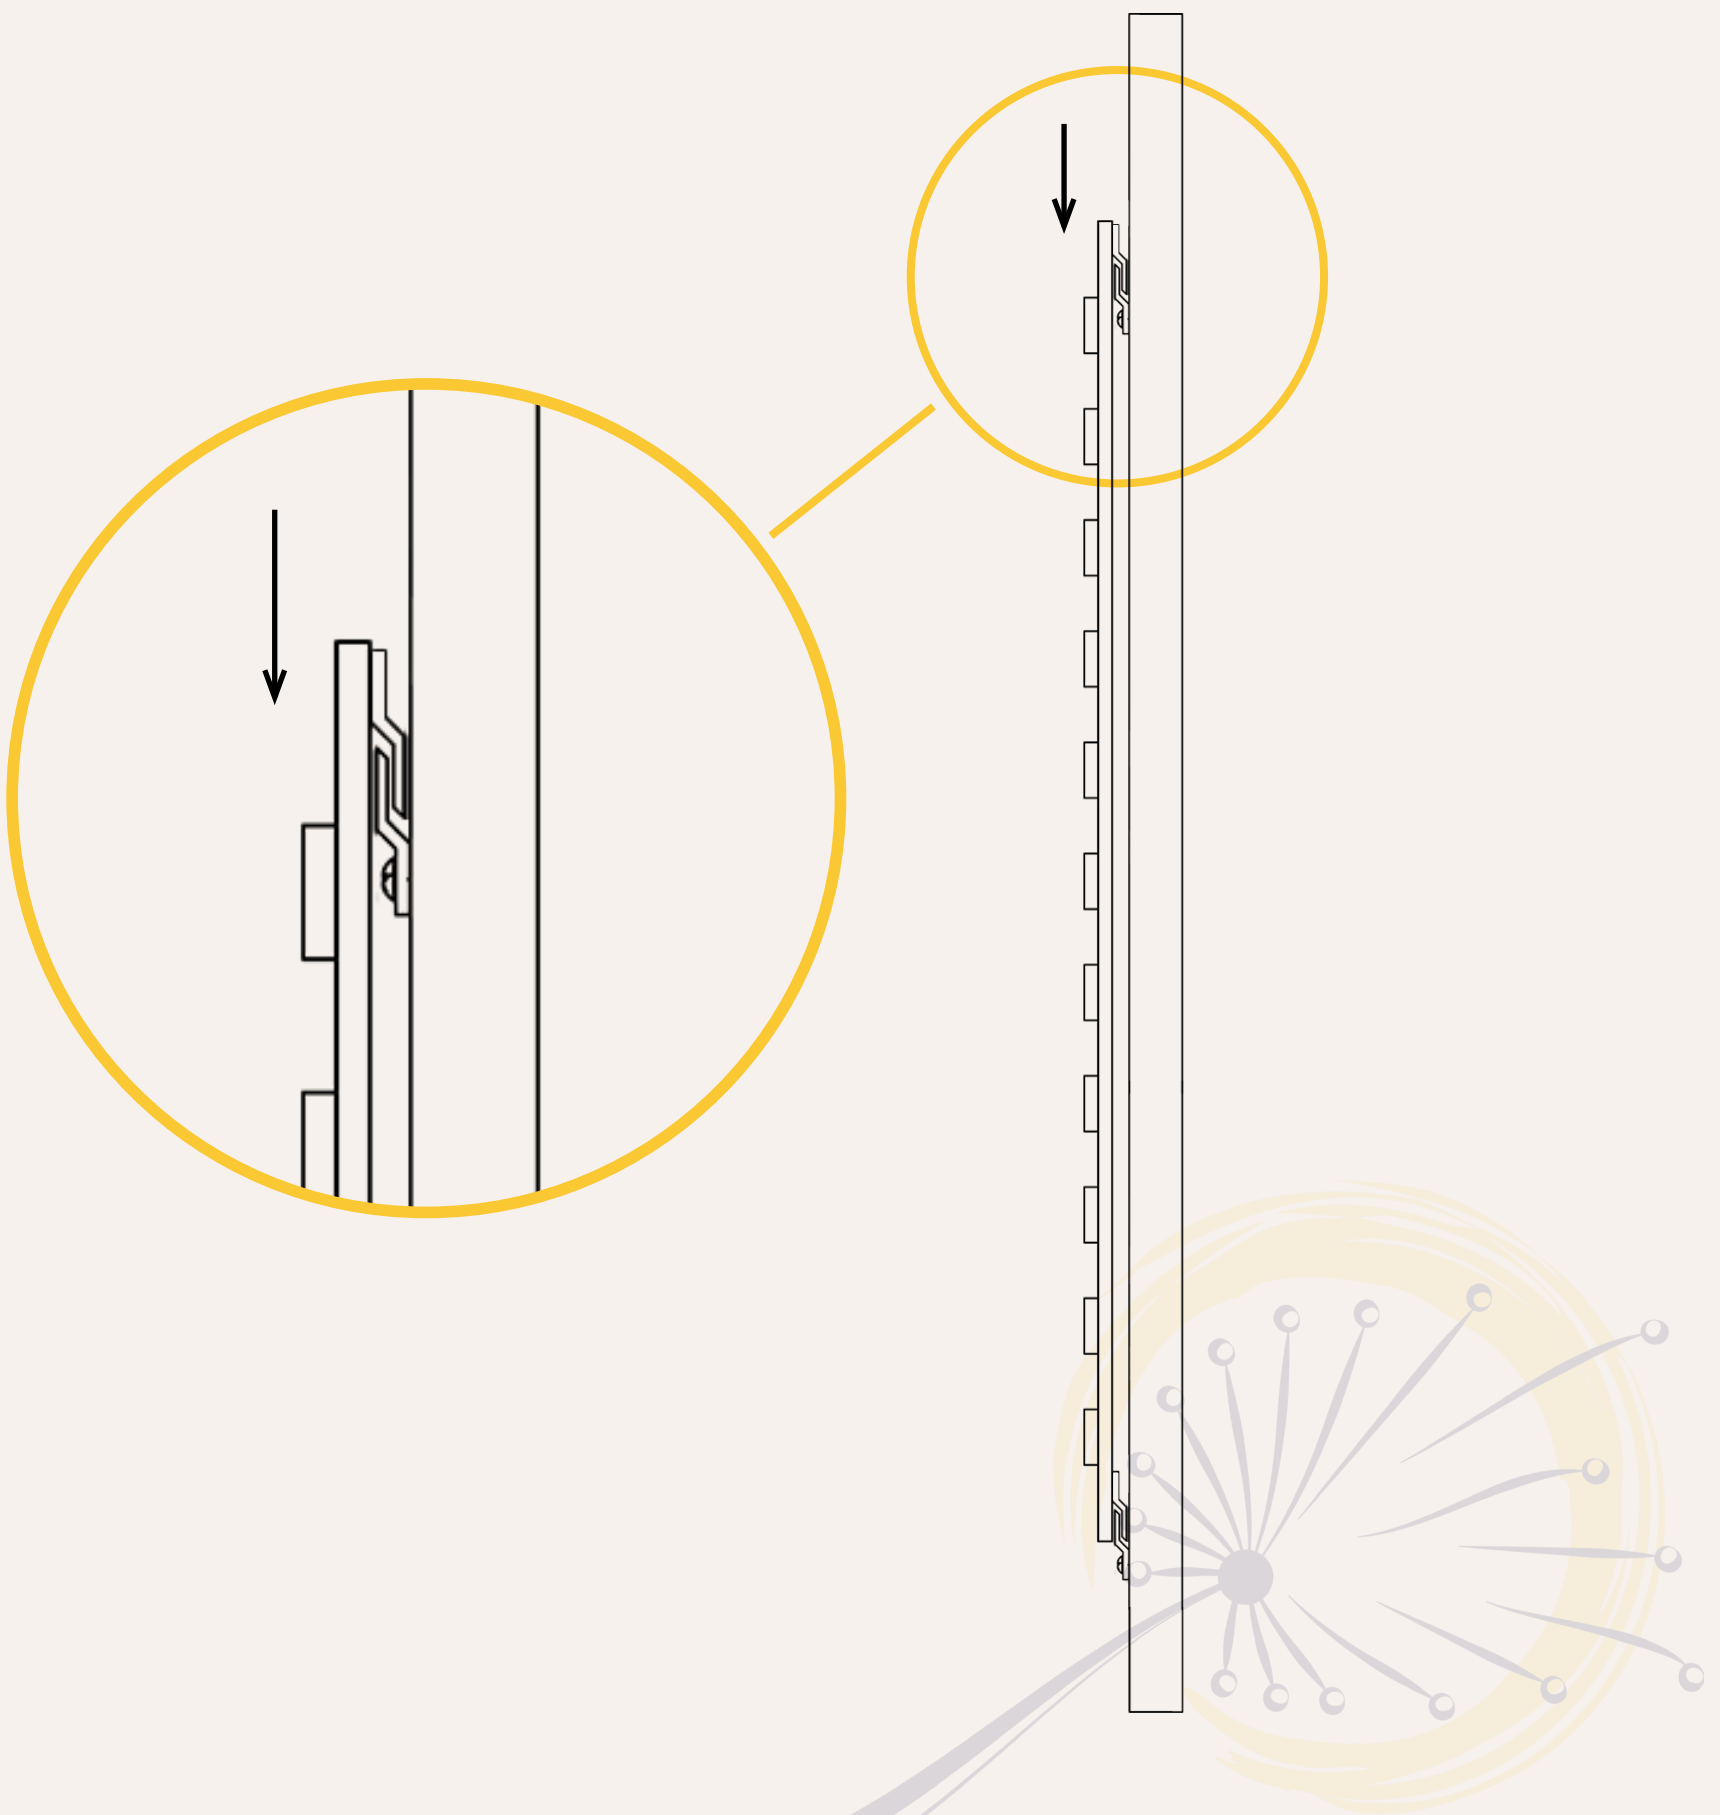

2. Remove Z-bar and drill holes at marked locations on the wall. Insert drywall anchor into drilled hole and use a rubber mullet to tap flush as needed. Replace Z-bar, insert and tighten screws through holes.

Repeat Step 1 & 2 to attach the bottom Z-bar.

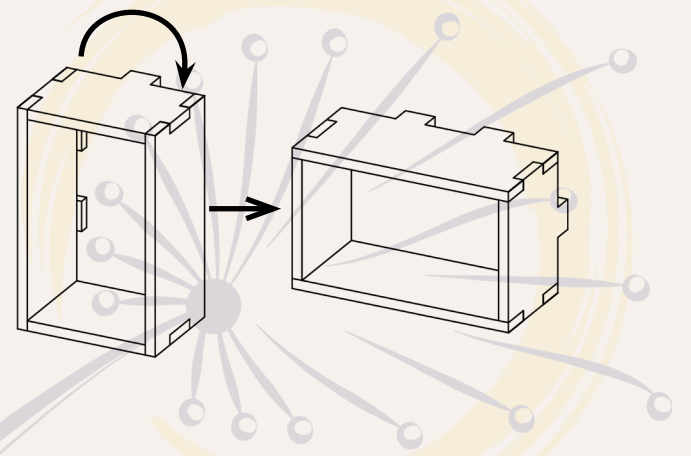

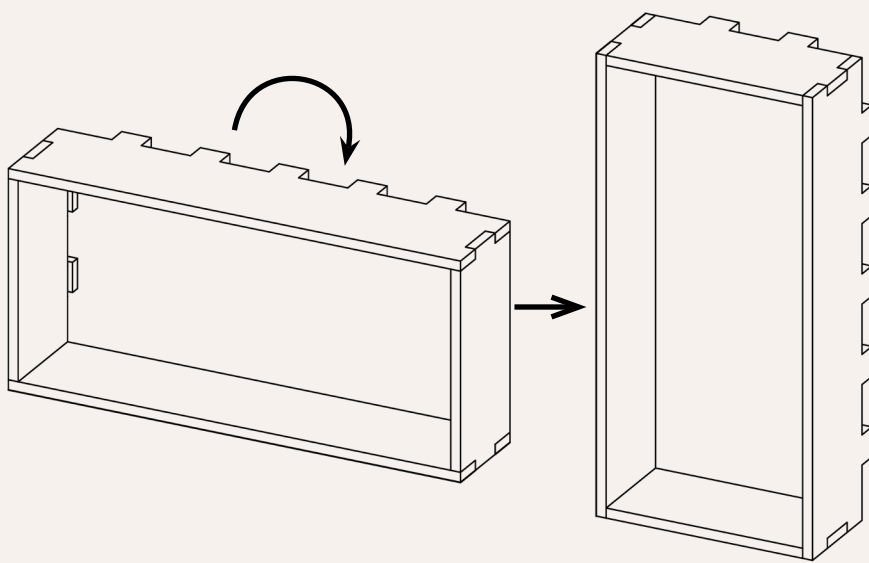

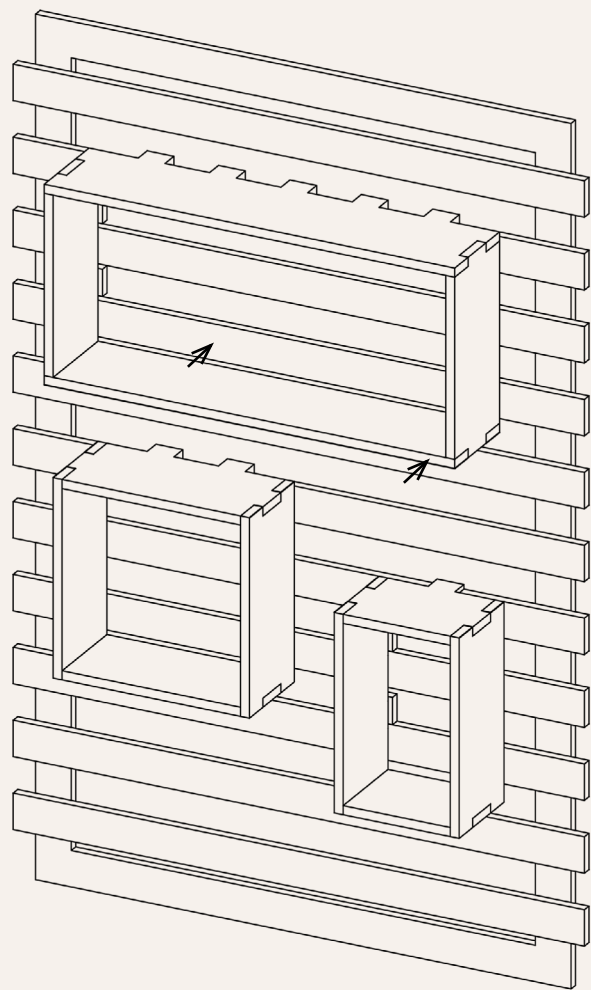

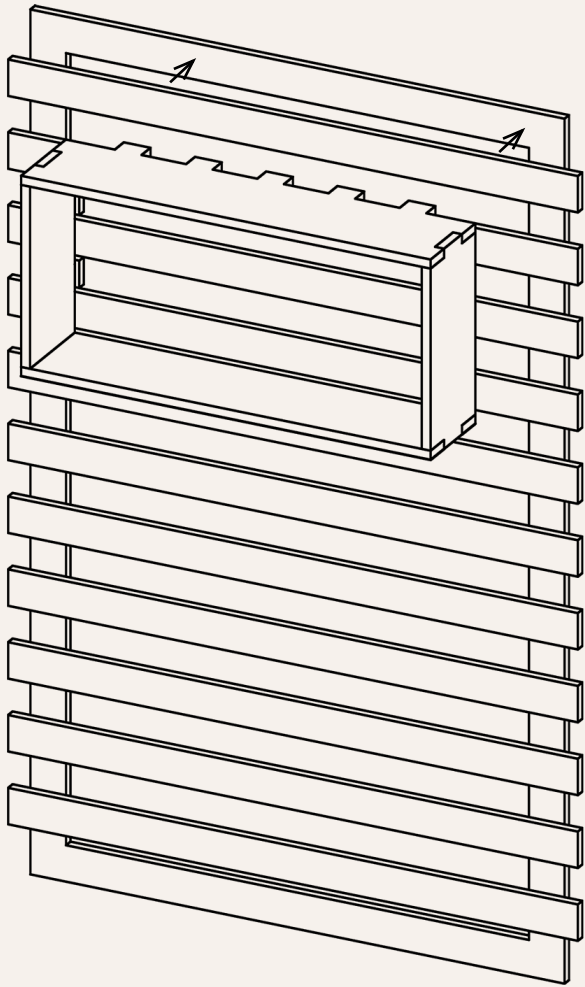

NOTE: All brackets MUST be securely affixed to the wall.

ASSEMBLY INSTRUCTIONS

3. Lift the slatwall and slide onto wall by slotting on-unit brackets onto the wall-mounted brackets.
Ensure both Z-bars on the unit locks properly and securely into the wall bracket.

ASSEMBLY INSTRUCTIONS

4. Attach one shelf to the desired location and make sure it's secured to the wall. Then attach other 2 shelves to the slatwall.

NOTE: The large shelf and the small shelf can be hung onto the slatwall in portrait or landscape. Choose the orientation that better fit your needs.

ASSEMBLY INSTRUCTIONS
