

GO AHEAD, GIVE IT A SPIN.

Why choose between portrait or landscape digital signage content when you can have both with the **55" Rotating Touch Screen Poster** from Displays2go.

Rotating the screen is easy with a built-in lever on the back of the poster, equipped with a sensor that automatically switches your **screen orientation** to portrait or landscape mode. The dynamic and intuitive touch screen **invites users to explore** promotions, directories, menus, and more.

Great for classrooms, retail stores, event spaces, and more, this adaptable rotating poster promotes **your message, your way**.

THE SCREEN THAT MOVES WITH YOU

Versatile, intuitive, and fun, this digital signage complements any business, educational institution, or trade show setting. Looking for a new way to grab the attention of students within a classroom setting? Swap between horizontal videos and vertical learning games with just a simple pull of a lever.

Portrait-to-Landscape Rotation

Quickly rotate between portrait and landscape orientations to fit your space and content needs, no tools or complicated setup required!

Simple Content Management

Download apps from the Google Play Store or create playlists using the pre-installed DiViEX app. Upload and manage your media through HDMI, USB, Wi-Fi, or Bluetooth.

Responsive Touch Screen

The IR touch interface supports up to 10 simultaneous touchpoints for a smooth and intuitive user experience.

Vivid Full HD Display

The 55" LCD screen delivers crisp, dynamic visuals with 1080p resolution and 500-nit brightness, ensuring sharp detail and vibrant color from every angle.
