Assembly

Each pole includes numbered stickers corresponding to the diagram below.

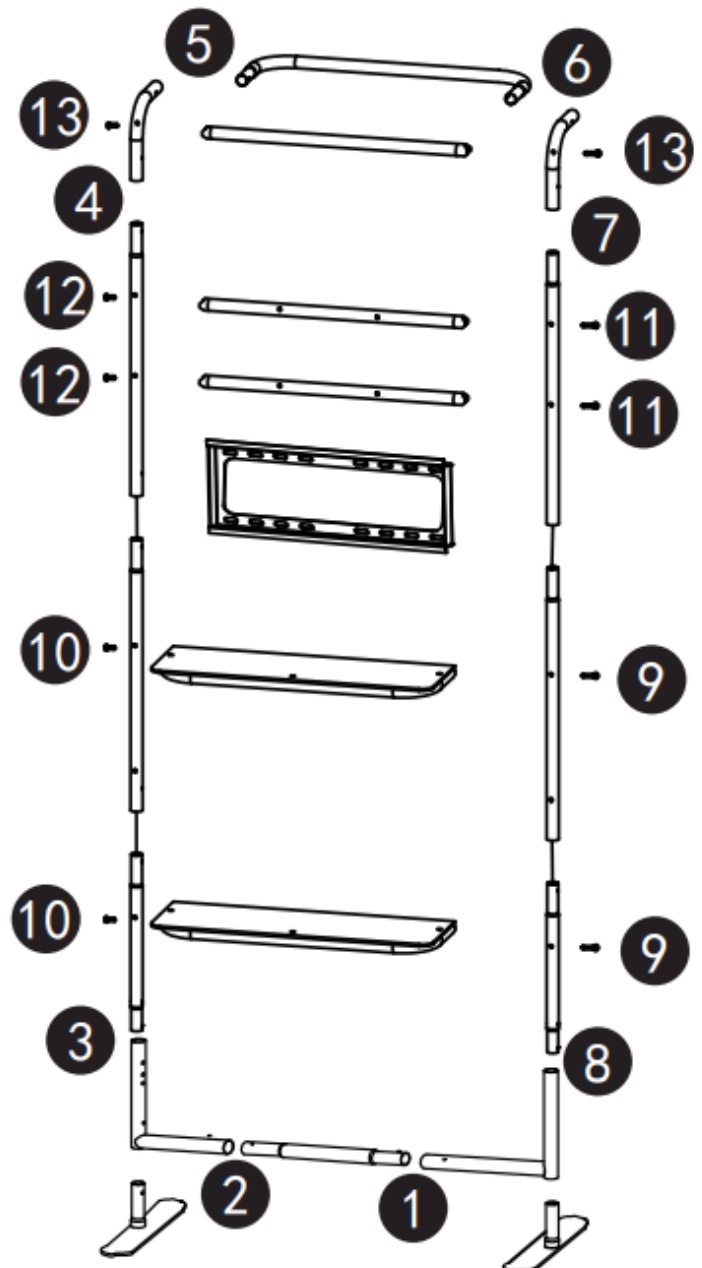

1. Connect the outer frame poles.
2. Connect inner pole and attach to frame.
3. Attach feet to frame.

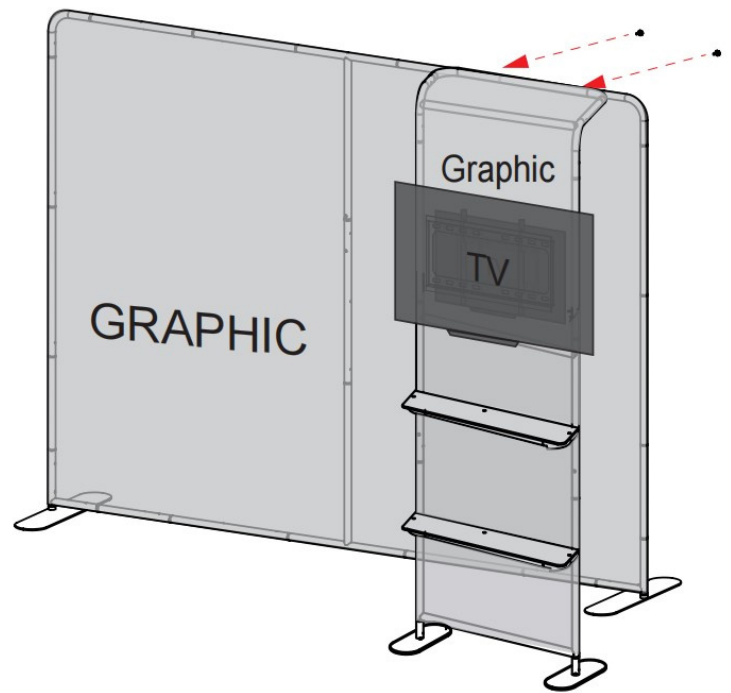

4. To attach graphic, first find the 2 holes in the fabric graphic where the L-frame attaches.
5. Slide fabric graphic over the frame to the bottom bar, pulling tight so the 2 holes align with the holes on the frame. Zipper closed over the bottom bar.

6. Assemble the L-frame by connecting the numbered poles.
7. In the L-frame fabric graphic, find the 2 holes for the monitor mount and the 2 holes for connection to the main frame.
8. Slide fabric graphic over the frame to the bottom bar, pulling tight so all holes align with the holes on the corresponding bars. Zipper closed over the bottom bar, pulling the graphic tightly.
9. Using screws and washers, attach TV bracket to frame over the fabric graphic.

10. Attach L-frame to straight frame with screws.
11. Add shelves, positioning the holes of the fabric graphic over the screw holes of the shelf.
12. Attach TV brackets to your monitors with spacers and screws (see instructions on mounting kit). Carefully hang monitors onto brackets.

Pop-up Counter Assembly

The hard travel case also converts to a counter.

1. Place the half of the case with the wheels on the ground.
2. Insert the 4 support poles into holes on lower case and attach horizontal support poles.
3. Lower top case onto poles.
4. Place the felt tabletop on top, with the lip facing up.
5. Slide the custom fabric graphic onto the counter.
