EX10POPLIT (10' Lightbox)

EX10POPRPL (10' Lightbox Replacement Graphic)

Version 1.0

## Safety & Care

Before beginning assembly, please take time to read through the instructions and understand each step thoroughly.

Displays2Go is not responsible for any personal injury or product damage due to mishandling, incorrect mounting, incorrect assembly or incorrect use of this product.

### Safe Product Handling

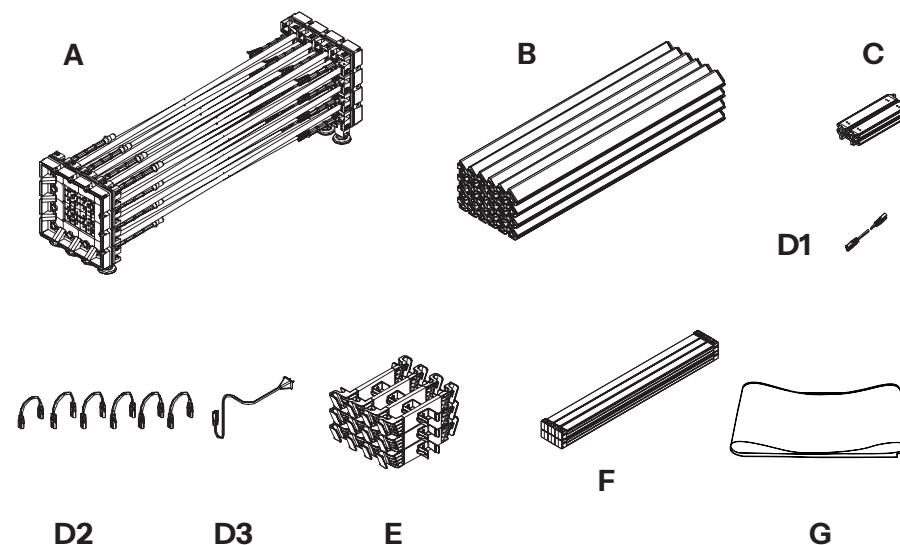

- Avoid placing the backwall power cord where it could become a trip hazard.

### SEG Fabric Care Instructions

Machine wash with cold water on a gentle cycle and use a mild detergent. Do not use bleach. Tumble dry on low. Fabric must be completely dry prior to storing.

A steamer may be used to reduce wrinkles and fold lines after the graphic is on the frame.

## Components

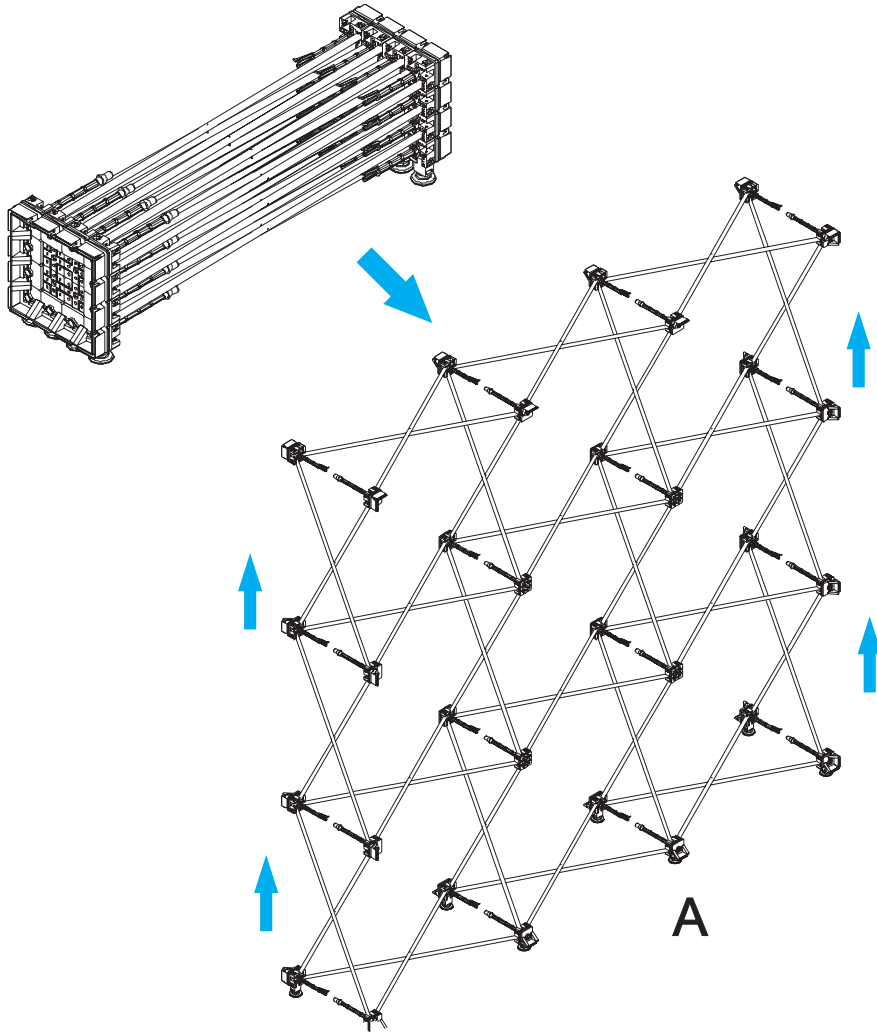

| Components |                               | Quantity |     |
|------------|-------------------------------|----------|-----|
| Label      | Name                          | 8'       | 10' |
| A          | Expanding Frame               | 1        | 1   |
| B          | Channel Bar                   | 24       | 28  |
| C          | Corner Channel Bar            | 4        | 4   |
| D1         | Double-End LED Cable 2.5m     | 1        | 1   |
| D2         | Double-End LED Cable 0.2m     | 4        | 6   |

| F          | LED Light Strip               | 6        | 8   |
| G          | Top Cloth                     | 1        | 1   |

**NOTE:** Illustrations are for example purposes and may vary from the actual product. 8' Backwall assembly shown.

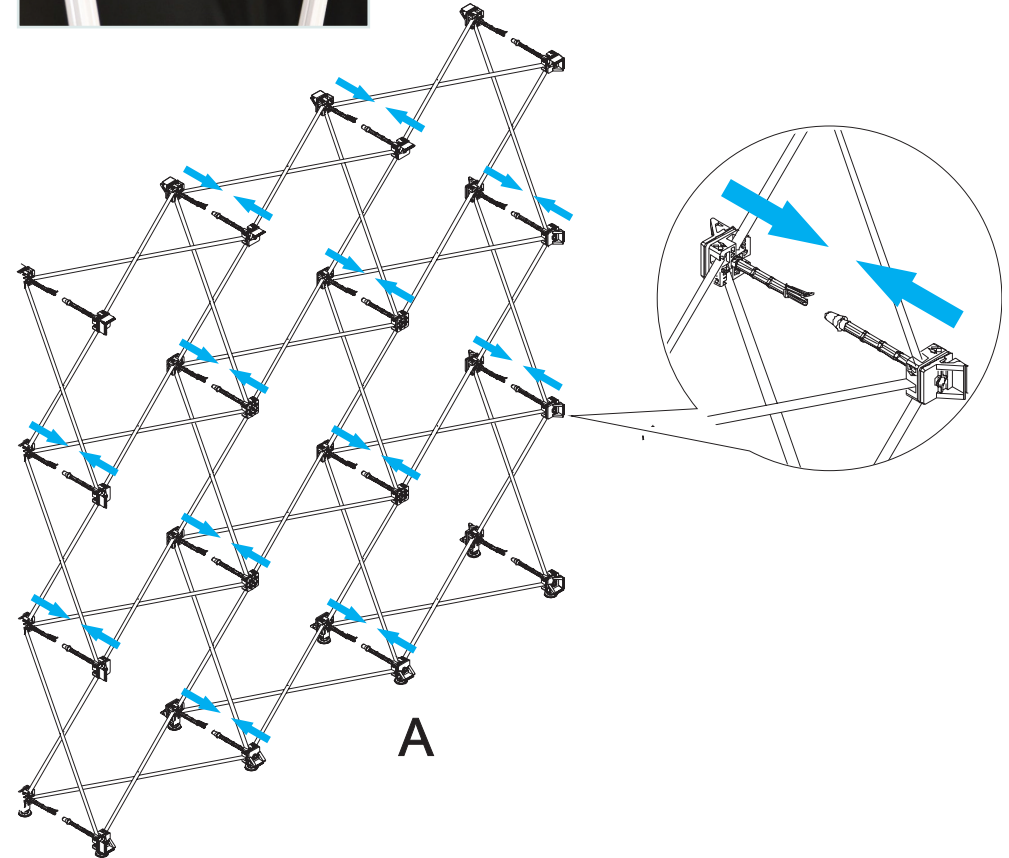

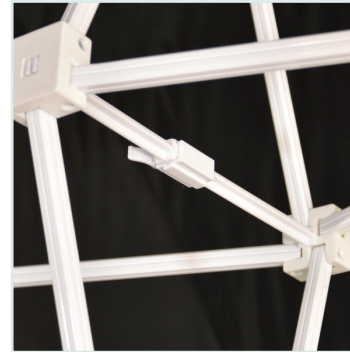

## Step 1

1. Set the frame on the ground and pull up to expand.

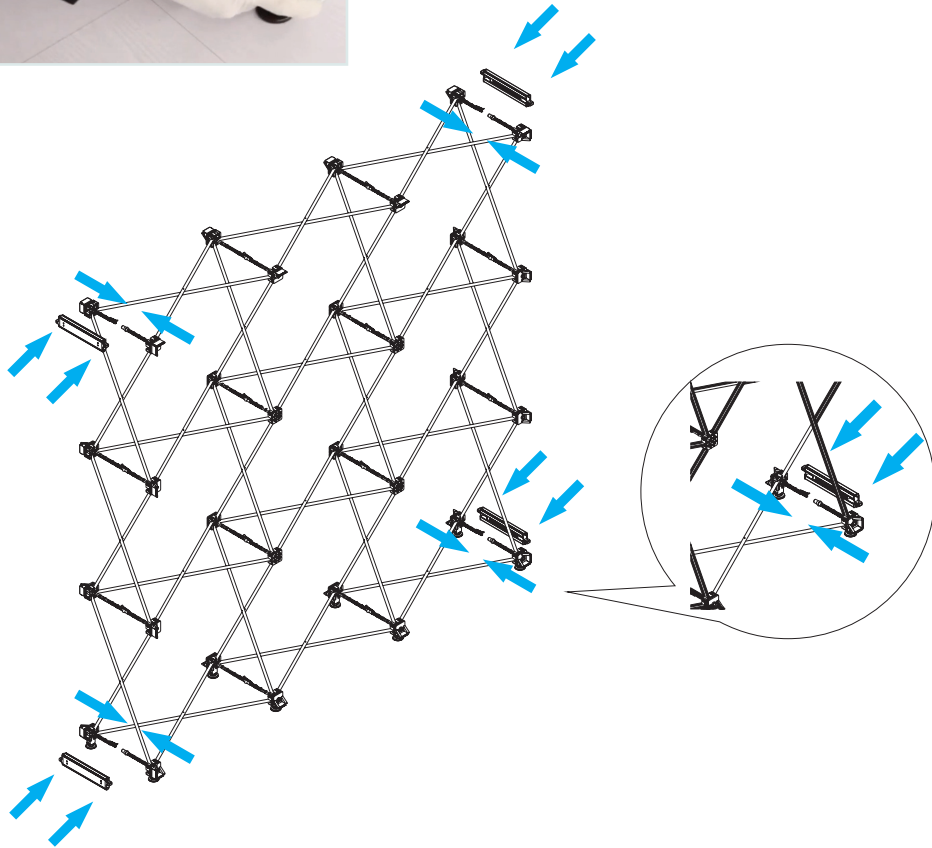

## Step 2

1. Connect all internal frame supports.

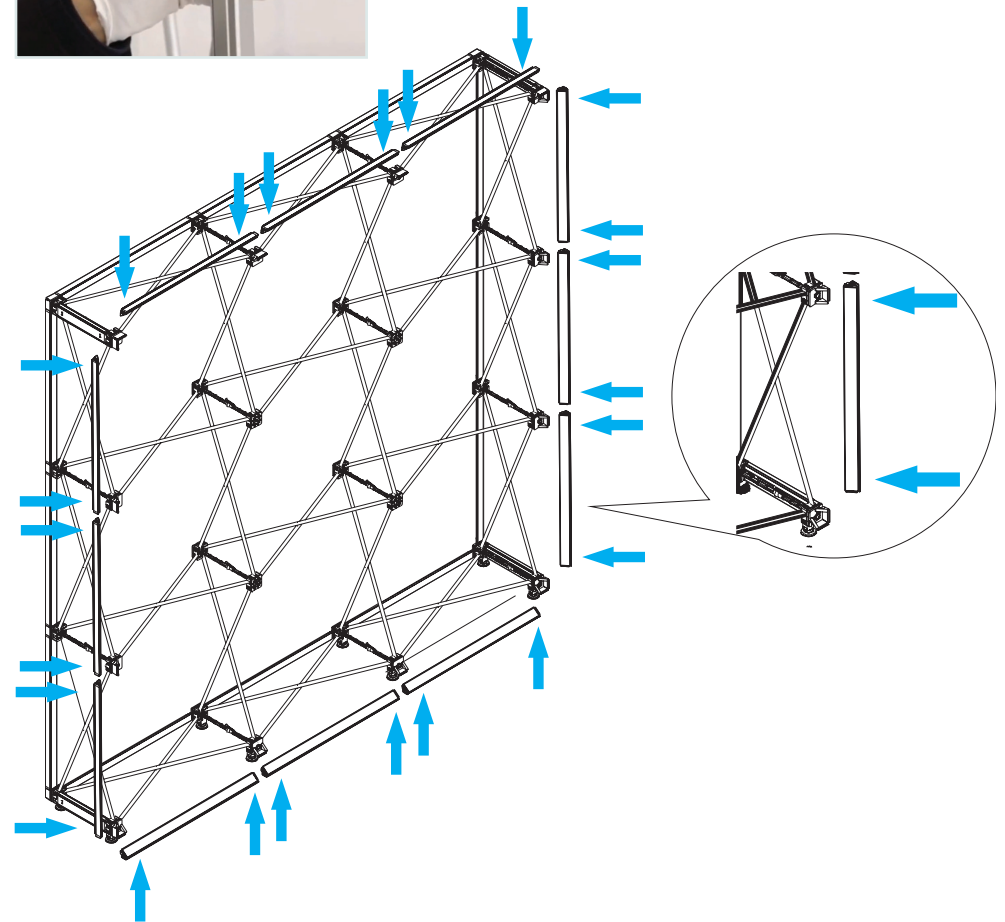

## Step 3

1. Connect the frame corner bars.

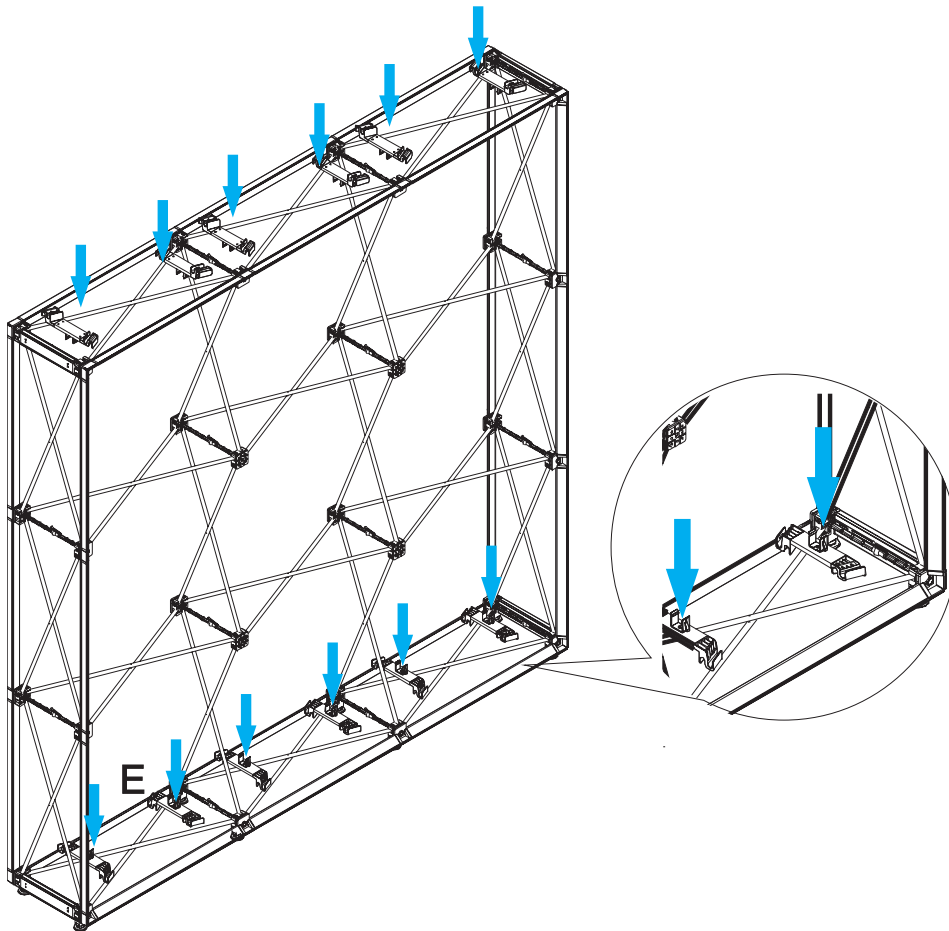

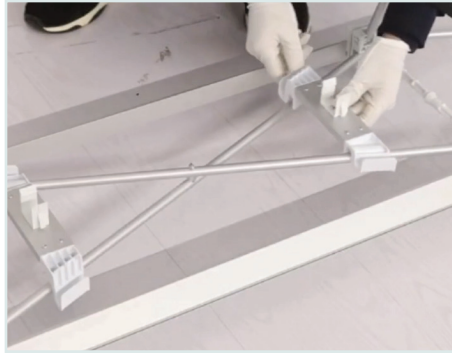

## Step 4

1. Connect all frame bars around the perimeter of the frame, pressing both ends of the bar in at the same time.

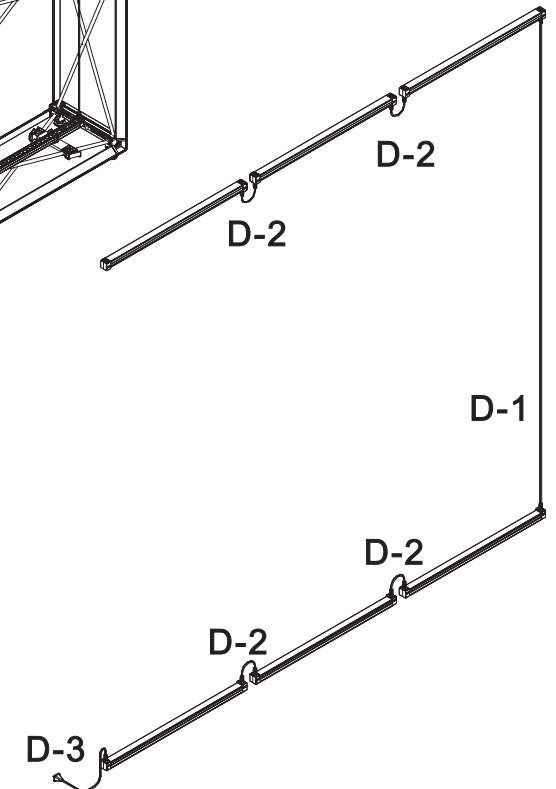

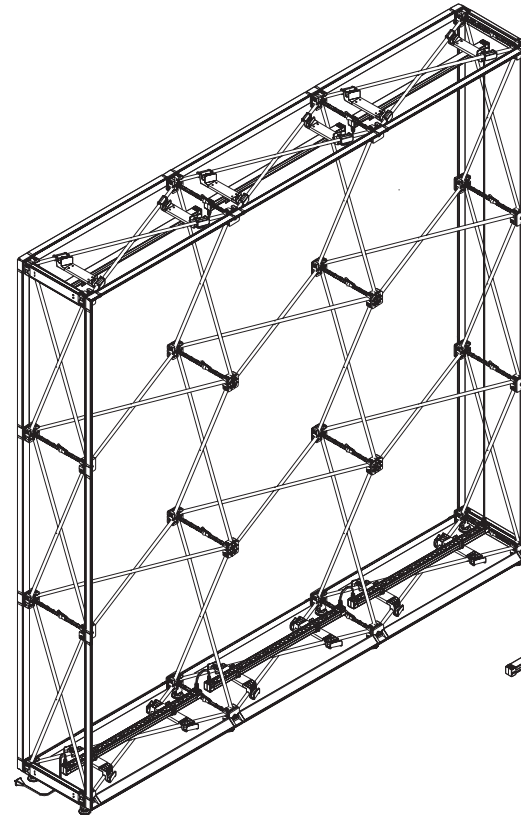

## Step 5

1. Clip the LED Light fasteners to the bottom and top of the frame.

## Step 6

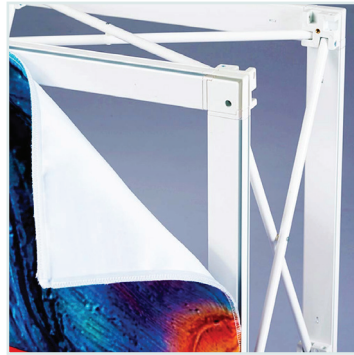

1. Insert the LED light strips into the fasteners.
2. Connect LED power cables to the light strips and the power cord.

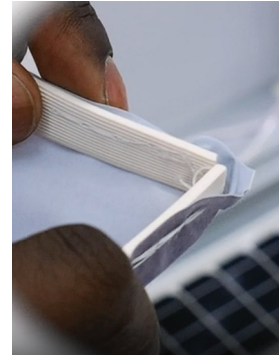

## Step 7

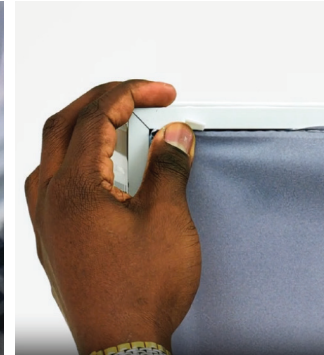

1. Install the SEG graphics.
2. Plug in the power cable to illuminate the backwall.

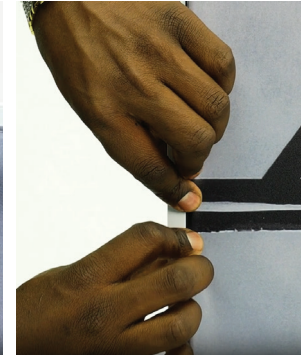

### How to Install an SEG Graphic

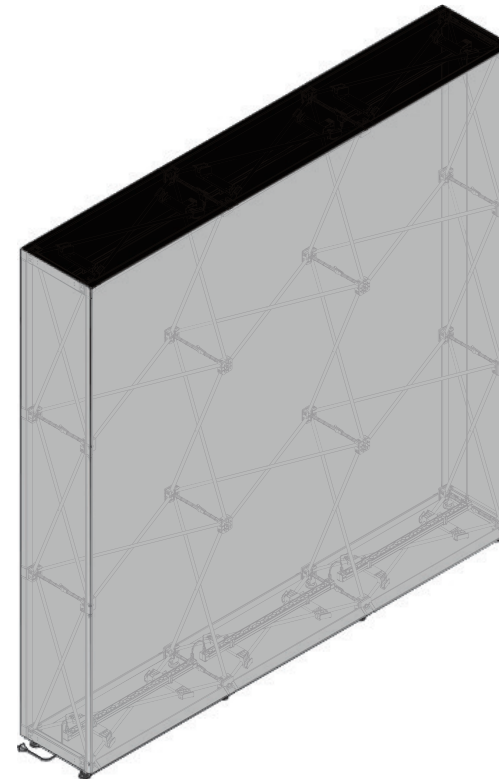

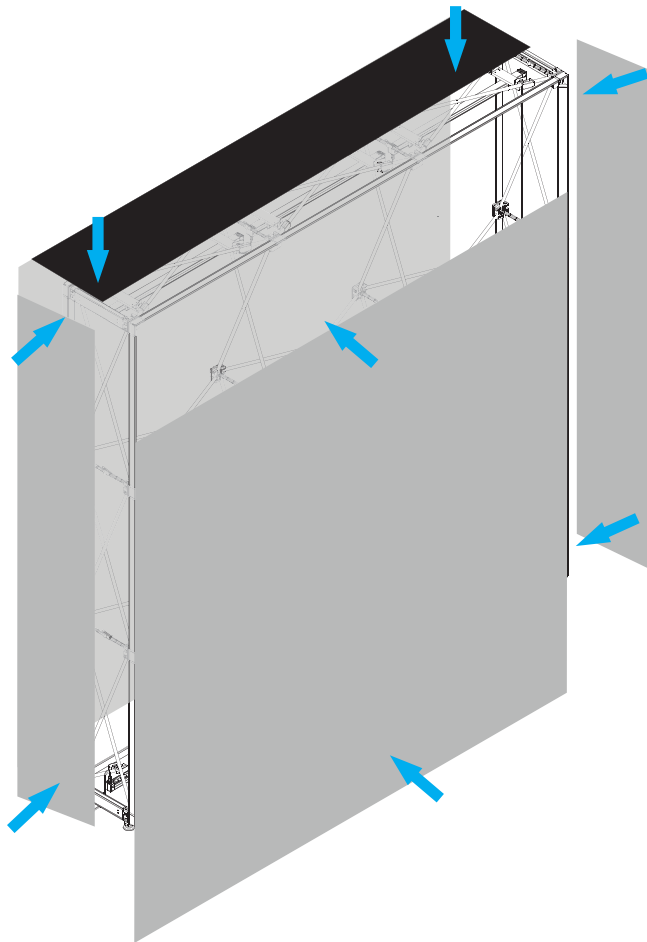

Bend the plastic tab to a 90° angle.

Insert into channel, starting at corners.

Press in the strip, moving towards the center.

  
Assembly is complete.
