

Step 1

Begin by removing the parts from the carry bag and placing them on a clean flat surface.

Assemble all the poles together.

Step 2

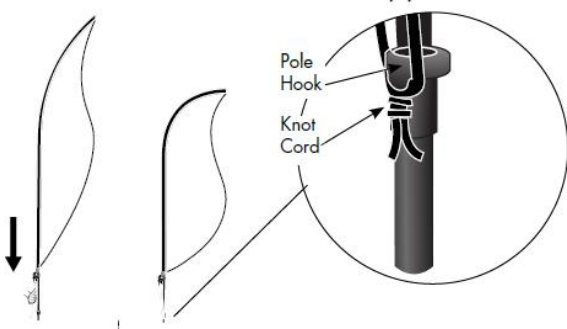

Carefully insert the top end of the assembled poles into the pole pocket of the Fabric Graphic. Push the Pole as far as it will go until it hits the end of the pole pocket.

DO NOT FORCEFULLY PUSH THE POLE OR IT COULD SNAP.

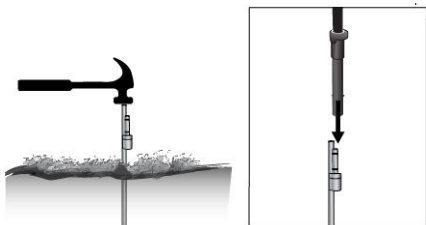

Step 3

Using the elastic Cord pull down the fabric graphic on the pole to create the shape. Knot the end of elastic cord and secure under the plastic Pole Hook located on the base of the Bottom Pole.

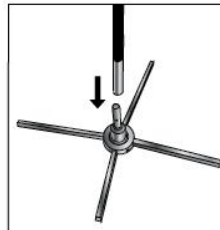

Optional Base Spike

Hammer Spike Base into the ground at desired location. DO NOT hammer the shorter post. Insert Bottom of Pole over stem on Spike Base.

Optional Base Scissors

Place Scissors Base at desired location by extending the legs outward. Insert the bottom of the pole over the scissor base stem.

Optional Water Bag

Place the water bag over the base BEFORE attaching the flag. Fill water bag with water for stability.
