# Digital Signage for Higher Education

Wallboard

Why choose Wallboard?

Running a college or university is no small feat, and keeping students, staff, and visitors informed can be a challenge. That's where Wallboard comes in! Wallboard's user-friendly digital signage platform makes it a breeze to create and manage engaging, data-driven content that connects your campus like never before.

- **Effortless Content Creation:** No tech degree? No problem! Our built-in Content Designer makes creating and updating content a breeze. With tons of features for formatting, animations, and more - plus the Quick Editor for super-fast tweak - you can keep your screens fresh with minimal effort.

- **The integrations you need:** Sync with Google Drive, Google Calendar, and social media platforms to keep content fresh and automatic without lifting a finger.

- **Collaborate with Ease:** Our advanced user permissions let everyone get involved—from faculty to students—making content creation a true team effort.

- **Quick Customization with Pre-Built Templates:** No time? No problem! Our ready-to-go templates make it simple to plug in your school's branding and messaging in minutes.

- **Stay Safe with Instant Alerts:** When emergencies happen, Wallboard has you covered. Our CAP protocol integration connects seamlessly with third-party alert systems to deliver critical notifications instantly.

- **No Coding Needed:** Build stunning, interactive content with our no-code tools—perfect for teams without technical expertise.
