1. Insert one Shelf (C) into the upper slot on one side flap of the Counter Body (A).  
Do the same for the other shelf at the lower slot.

2. Roll the shelves with the side up to the center, then interlock both shelves with the other side as shown. Push the flap down to secure the counter with shelves.

3. Move the assembled counter body to its upright position, with the inside cutouts at top. Fold up the small tabs on the Countertop (B). Flip it over and insert the tabs into the center of the counter body.

4. Align the cutouts inside on one side and insert one Tabs (D) into the cutouts to hold the countertop in place. Repeat for the other side to secure the countertop.

The assembly is finished.
