Collapsible Acrylic Podium (Black)

DISPLAYS2GO

SKU: KDUVLEBKC (Clear Front), KDUVLEBKF (Frosted Front)

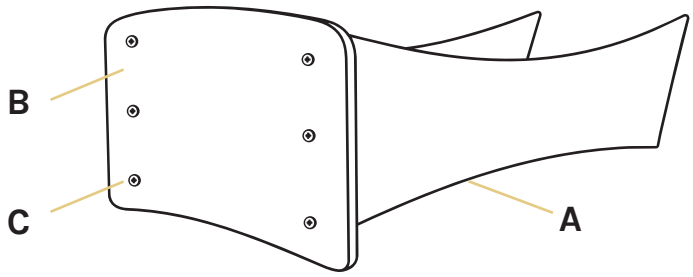

Version 2.0

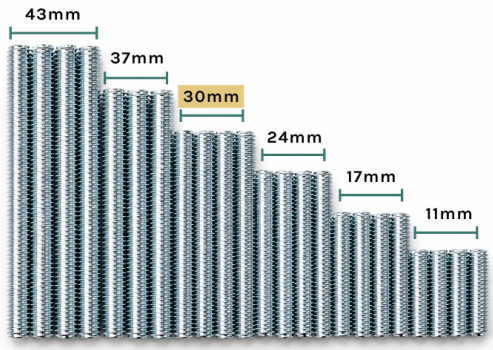

Components

A. ⅜" Side Panel (x2)
B. Base (x1)
C. 10-32 x 1" Screw (x6)
D. 30mm Threaded Rod (x8)
E. Cap (x16)
F. Bottom Bracket (x2)
G. ⅛" Side Panel (x2)
H. Front Panel (x1)
I. Podium Top (x1)
J. ⅛" Hex Wrench (x1)

1. Connect the ⅜" Side Panels (A) to the Base (B) using Screws (C) and Hex Wrench (J). The matte side of the panels should face out.

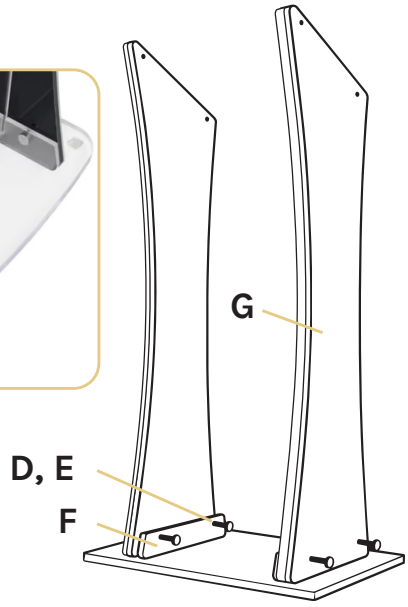

2. Open the two bags of threaded rods and identify eight 30mm Threaded Rods (D). The other threaded rods can be discarded.
3. Add Caps (E) to one end of the threaded rods.

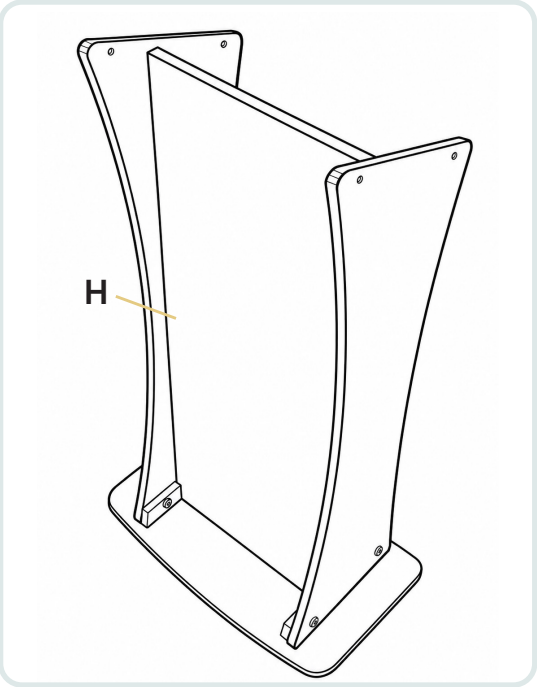

4. Place the Bottom Brackets (F) against the inside of the ⅜" side panels.
5. Place the ⅛" Side Panel (G) on the outside of the ⅜" side panels.
6. Connect the panels and brackets with capped rods. Place a Cap (E) on the other side of each rod to secure.

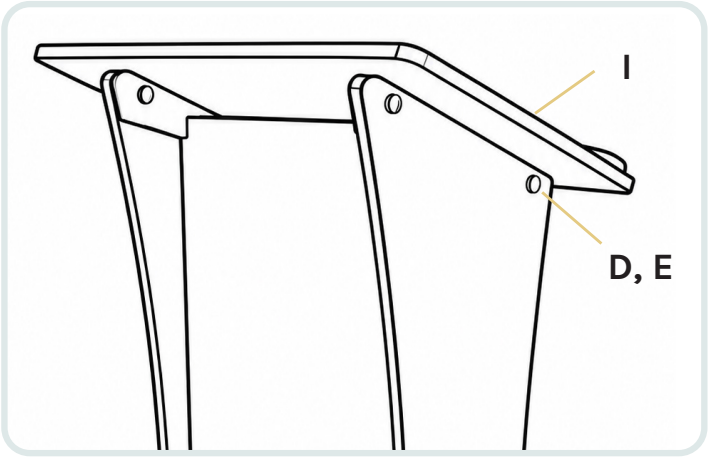

7. Insert the Front Panel (H) until flush with the groove on the bottom brackets.

- **NOTE:** A small gap and some movement of the front panel is typical.

8. Place the Podium Top (I), aligning the notches of the bracket with the front panel.
9. Insert capped rods through the sides and top. Place a cap on the other side of each rod to secure.

Assembly is complete.
