

# SuperSign Control

SuperSign Control is a basic control software. Up to 100 displays are controlled by one account with a single server. Essential factors such as power, volume, scheduling can be remotely adjusted, with firmware updates supported. (FREE)

# SuperSign Control+

SuperSign Control+ is a remote control and monitoring software solution optimized for LG's webOS signage. It focuses on large scale deployment. Similar to SuperSign CMS, multiple administrators can access the SuperSign Control+ server via the network to monitor the status of connected displays in real-time, control them, and adjust their setting values.
