⚠ Safety Information:

Please read all steps before beginning assembly. Displays2go is not responsible for any personal injury or product damage due to mishandling, incorrect mounting, incorrect assembly or incorrect use of this product.

⚠ Tools Needed:

Phillips Screwdriver

Rubber Mallet

1. Position the display case.

2. Unscrew the upper hinge.

3. Remove the door.

4. Remove other door.

5. Insert all shelf supports into holes at the desired heights.

6. Place suction pads onto all shelf supports.

7. Place the first shelf, starting from the bottom.

8. Place second shelf from the bottom.

9. Place shim onto the second assembled shelf.

10. Place the third shelf onto shim.

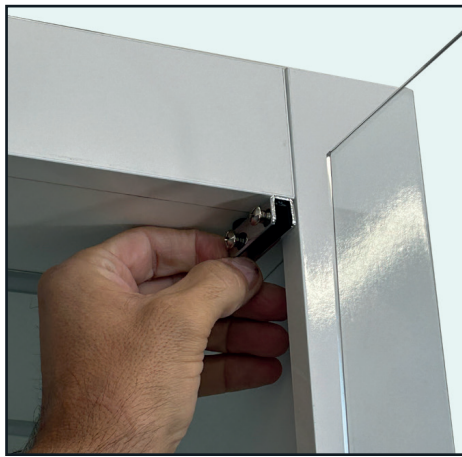

11. Place fourth shelf from the bottom.

12. Place top shelf.

13. Insert the hinge on the glass door into the lower hinge hole.

14. Attach the top hinge to display case and insert the glass door.

15. Tighten screws and adjust to achieve full closure.

16. Repeat for second door.

**Shelf installation
is complete.**
