Components

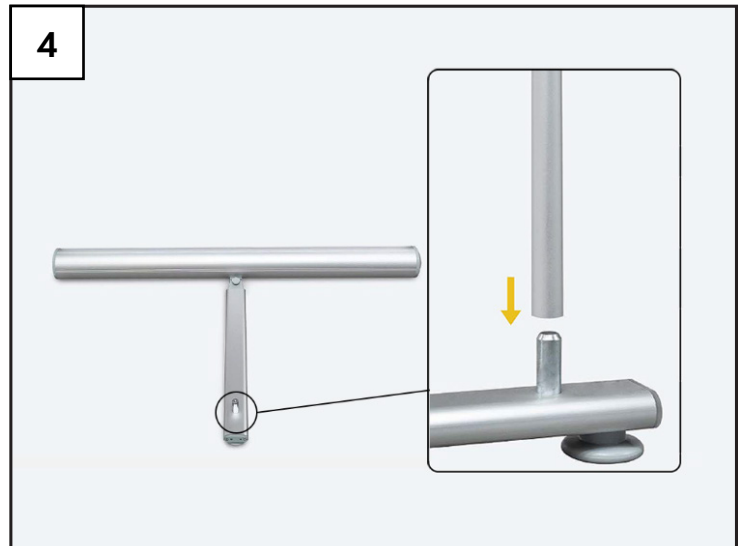

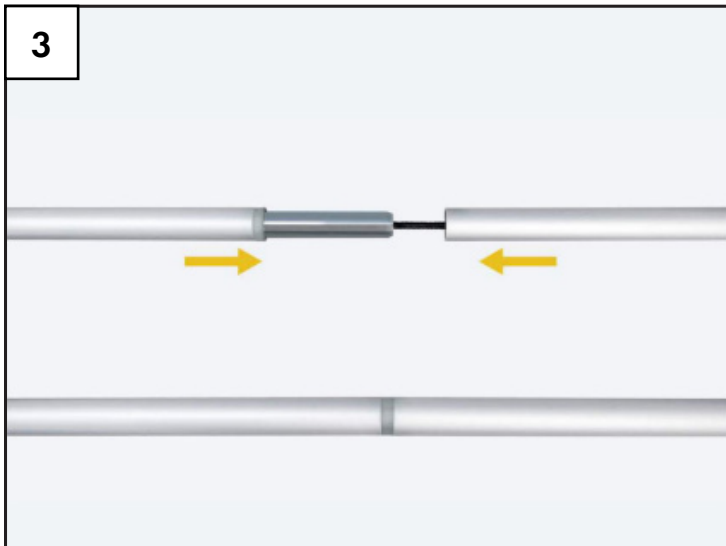

- A. Custom Graphic Banner (x1)
- B. Aluminum Base (x1)
- C. Collapsible Pole (x1)
- D. 3L Water Tank (x3)
- E. Fabric Travel Case (x1)

Assembly

1. Swivel the foot out out from the base.
2. Turn the knob to lock the foot position.

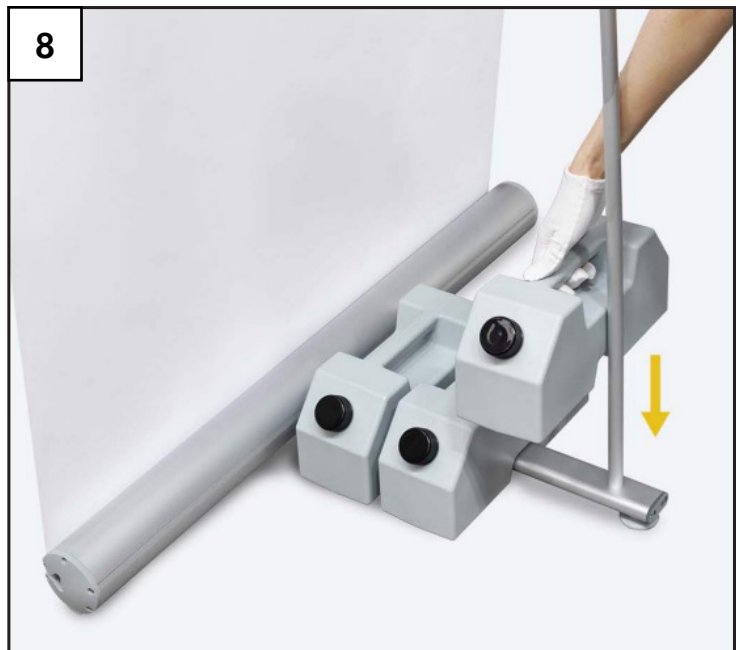

3. Connect the folding pole together.
4. Place the pole onto the base foot peg.

5. Slowly pull the banner up and out from the base.
6. Insert the top bar peg into the support pole.

7. Fill the water tanks with approximately 11 lbs (5kg) of sand or 3L of water, then close the lids.
8. Place all 3 tanks over the base foot to weigh down the banner stand.

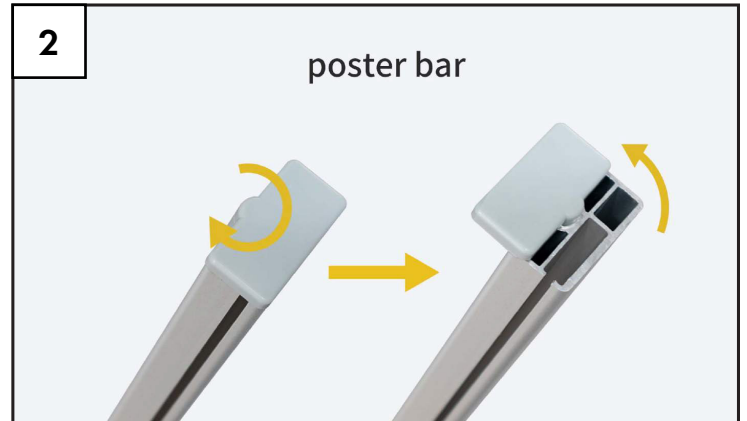

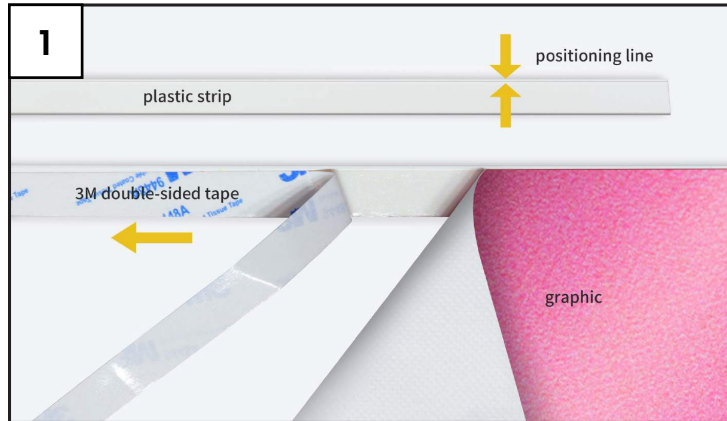

Assembly is complete.

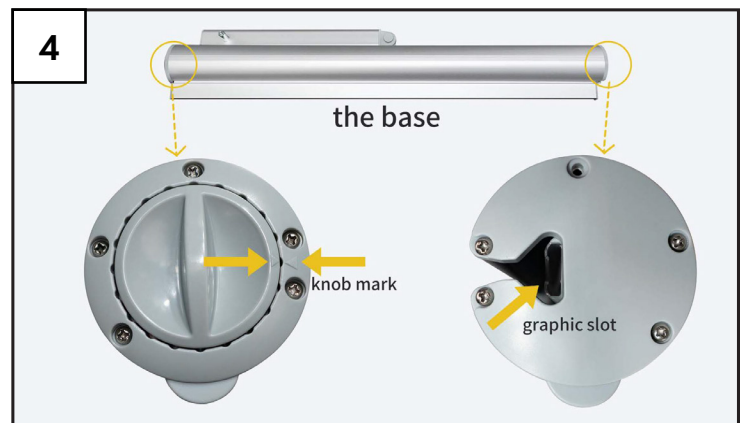

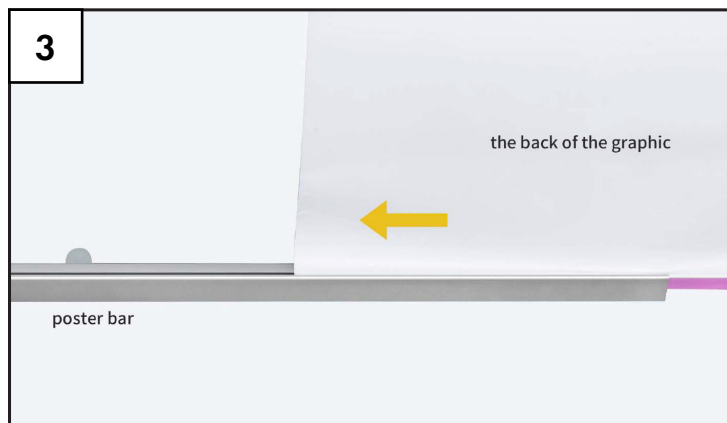

Replacing the Custom Banner

Included: Graphic Banner (1 piece), Plastic Strip (2 pieces), Double-Sided Tape (2 pieces)

1. Remove the backing from the double-sided tape and attach to a plastic strip, aligning with the positioning line. Next, place the banner facing upward and attach to the strip, ensuring the banner is STRAIGHT.
2. Twist open the caps of the top bar.

3. Make sure the top bar is right-side up, and insert the banner into the bar. Twist the caps closed.
4. Align the arrows on the base knob to open the graphic slot.

5. Repeat step 1 to attach the bottom of the banner to the second plastic strip, ensuring the banner is STRAIGHT. Then insert into the base.
6. Turn the knob to wind the banner into the base.
