NOTE: Wearing gloves is recommended to prevent degradation of product's appearance (smudging, scratches, etc.). Gloves are provided.

1. Assemble frame by matching numbered poles together. Snap poles together by pressing down on pin, then sliding pole into matching side, as pictured.

NOTE: Product sizes may vary depending on model ordered. Basic number-to-number assembly instructions are the same for all models.

2. Once frame is fully assembled, stake frame into the ground. Drive stake into ground, then slide frame poles in. Attach these pieces together using the eye bolts.

3. Once frame is fully assembled, attach banner to frame using provided bungees. Loop through grommet and attach, as pictured.
