Components

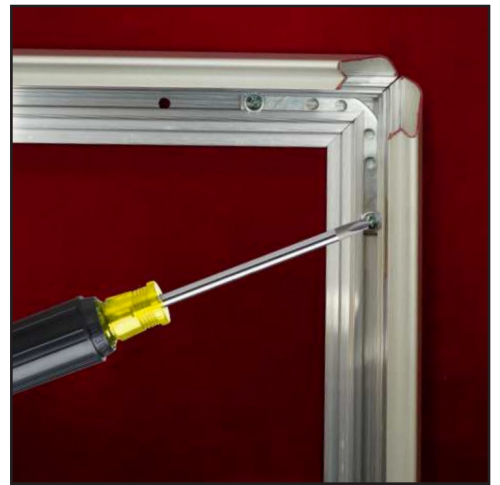

- A. Long Frame Piece (x2)
- B. Short frame Piece (x2)
- C. L-shape Bracket (x4)
- D. Back Panel (x1)
- E. Protective Lens (x1)
- F. Mounting Hardware Bag (x1)

Tools Required: Screwdriver

Assembly

❗ **NOTE:** Assemble the frame on a large flat surface. **2 people recommended for assembly.**

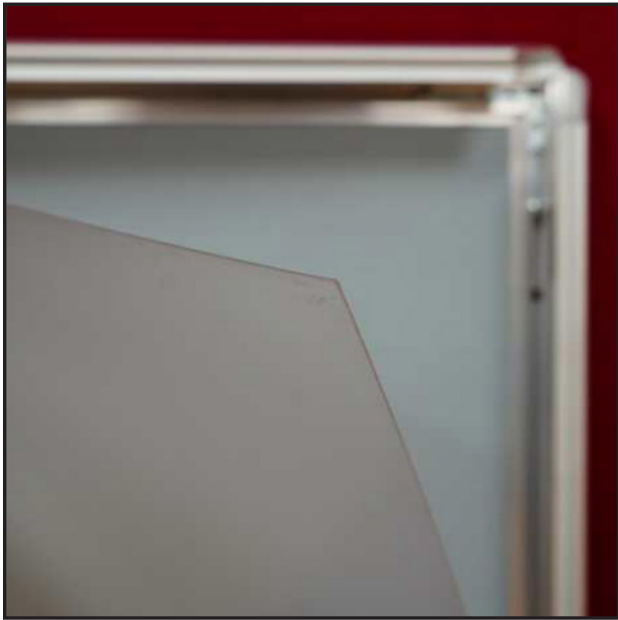

1. Snap open each frame piece by lightly pulling upward on the inner edge.
2. Insert an L-shape bracket to connect the short and long frame pieces at the corner.
3. While one person holds the pieces together, tighten the screws on both sides.

4. Once 3 sides of the frame are connected, insert the back panel into the inside channels.
5. Place your poster over the back panel.
6. While one person holds the frame in position, connect the last side of the frame.

7. Insert the protective lens into the channels.

8. Snap all sides of the frame closed.

9. Use the included mounting hardware to mount the frame to the wall in portrait or landscape orientation.

Assembly is complete.
