PARTS LIST

A. Stanchion Topper (2)

B. Retractable Banner Scroller (1)

C. Replacement Graphic
(Optional Accessory)

Assembly

1. Align the slot of the stanchion topper (A) with your stanchion's belt. Extend the stanchion belt a few inches, then slide the topper onto the stanchion. Repeat on the other stanchion.

2. Connect both sides of the scroller (B) to the stanchion toppers. Push to secure.

3. Applying even tension, pull to extend the banner down to the floor.

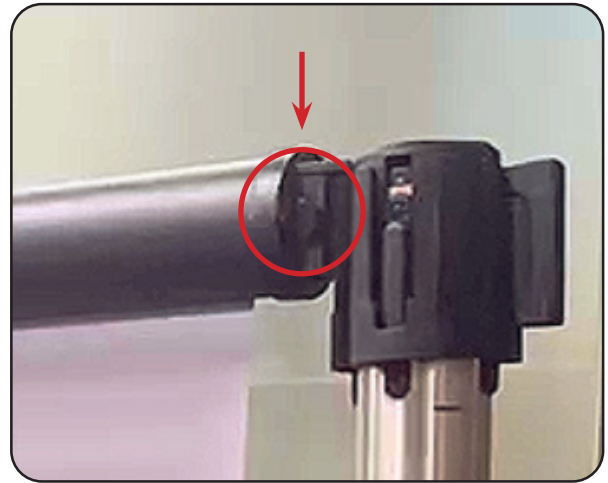

4. Connect the bottom bar to each stanchion.

Retracting The Banner

⚠ Warning! The banner will retract quickly. Firmly grip the bottom of the banner to avoid potential injury.

1. Press and hold down the button on the right side of the scroller.
2. Slightly tug the banner out to activate the retraction mechanism.
3. Allow the banner to slowly retract into the base while holding down the button. Keep a secure grip on the banner.
4. Once retracted, release button.

Installing a Replacement Banner

ⓘ Caution! When replacing the banner, do not let the fabric leader retract into the scroller! Product will be rendered unusable.

1. Firmly extend the retractable banner scroller (B) to expose the top connective fabric.
2. Connect the plastic seal along the top of the replacement graphic (C) into the sealer of the banner scroller. Firmly press along the entire sealer to secure.
3. Slide the plastic footer of the banner into the channel of the bottom bar.
