

# LET YOUR BRAND SHINE BRIGHT

Our new **Eco-Powered LED Lightboxes** outshine the electric competition.

With solar panels designed to capture maximum sunlight, these dazzling displays bring illuminated advertisements to places without direct electrical power, making them ideal for outdoor sporting events, retail spaces, and more! With rugged aluminum construction and Grade A silicon panels protected by tempered glass, this sustainable solution is built to last. Customize your own graphic banners using our online Designer Tool and have your designs UV-printed on high-quality, weather-resistant SEG fabric and shipped right to your door.

## HIGHLIGHTS

- Large solar panels hold a 10-hour charge
- Durable SEG Graphics feature your custom design
- Built-in timer allows you to set and forget it
- Designed to last - durable aluminum with IP65 rated dust protection
- Pole-mounted and freestanding models

**DISPLAYS2GO**
