Features

- 1. The Mighty Max Floor Charging Kiosk is made for charging up to 10 mobile devices simultaneously.
- 2. Features double-sided 21.5-inch Digital Screens for advertising with Advertising content management program.
- 3. The digital signage is embedded with Android 10 smart operating system and unique UI design, bringing you a more convenient operation and better visual experience.
- 4. Supports a USB mouse, realizing easy manipulation like a computer. Using a mouse for set up is recommended.
- 5. High-quality LCD screen as the display, no flicker, low radiation, greatly reducing eye fatigue, eye protection, high brightness, high contrast, and wide viewing angle; ultra-fast response time greatly reduces ghosting of fast-moving images.
- 6. Progressive image processing and industry-leading motion compensation technology improves the flickering and blurring in the edges of motion pictures.
- 7. Dynamic contrast technology can significantly improve the clarity and contrast of various screens.

Safety Warnings and Precautions

Thank you for purchasing the Digital Charging Station with Double Sided Screens from Displays2go. We have considered the factors to ensure personal safety in product design and have done rigorous testing at the factory. However, improper installation and use may result in electric shock and fire. In order to safely use, maximize performance of the unit and extend the life of the product, please read and follow all instructions carefully before using the product.

Keep the instructions for future reference.

We strongly recommend using a surge protector, or a power strip with internal circuit breaker to prevent damages to the digital signage.

Symbol Legends:

- ⚠ Warning: May cause personal injury or death
- \bigcirc The operation is prohibited
- ▲ Caution: May cause damage or property loss
- The operation must be executed

If any of the following occurs:

- Power outage or instable voltage.
- Abnormal sound or smell from the unit.
- AC power cord is damaged.
- Digital Signage is damaged due to drop, knock or impact.
- Any liquid or foreign matters fall into the enclosure.

Turn off the Digital Signage immediately, pull out the plug from the power outlet, and ask the authorized personnel for immediate maintenance.

○ If coal gas or other flammable gas leaks, do not pull out the plug of the LCD Digital Signage or other electrical appliances; instead, turn off the gas valve immediately, and open the doors and windows quickly.

- ● Do not use power supply other than AC 110V, 60Hz.
 - Cut off the power supply before connecting or disconnecting any cables.
 - Do not place the Digital Signage on/in an unstable position, or else it may be damaged or cause fire.
 - Do not place the Digital Signage in the positions such as:
 - 1. The environment subject to direct strong sunlight, moisture, extreme temperature or too much dust;
 - 2. The environment with flammable or explosive materials;
 - 3. The environment with flammable or corrosive gases;
 - Do not use damaged or inappropriate power outlets, and ensure that the plugs and outlets contact properly.
 - Do not let dust or metal deposits adhere to the plugs and outlets.
 - Do not damage the power cords:
 - 1. Do not modify the power cords;
 - 2. Do not place heavy objects on the power cords;
 - 3. Keep the power cords away from heat source;
 - 4. Do not pull the cord to remove the plug.
 - Do not connect too many plugs to one outlet in parallel, or else it may cause fire due to excessive power consumption.
 - Do not approach the Digital Signage with open flame (e.g. a lighted candle), or else it may cause electric shock or fire.
 - Do not put any sharp objects, metal or liquid into the vents or let them touch the signal terminals to avoid short circuit, product damage, and electric shock.

🛞 Do not touch the plugs with wet fingers, or else it will cause electric shock.

Do not use the Digital Signage in stormy weather, especially when there is lightning; instead, please disconnect the power and antenna plugs to avoid lightning strike.

O not disassemble the Digital Signage without permission, or else it may cause electric shock or fire. Please ask qualified technician for repair.

- This charging station is for indoor use only in a dry area. Do not position in any location near water. Positioning this product outside, or inside in a location near water may cause damage to property or injury to persons. Please read and abide by the 'Safety Warning' carefully.
- Ensure the charging station is assembled and installed in a way that prevents a person tripping over the power cable or the unit falling from its location.
- Please ensure the packing materials are disposed of completely to prevent injury to children.
- Do not install in an area with high temperature, high humidity, or areas where the charging station may come into contact with water.
- Do not install near air conditioners, or in areas with excessive dust, smoke, or vibration. The charging station should be installed on a horizontal, flat surface to ensure it does not fall.
- Do not modify or alter the product in any way.
- Do not use the product, or any parts, if they are damaged.
- All cables and adapters should be connected and disconnected slowly and carefully. Ensure suitable packaging for transport of the product based on its 'Specifications'.
- Do not lean on the charging station.
- Keep the small parts away from children to prevent them from swallowing.
- If the charging station won't be used for a long time, please turn it off and pull out the power plug.
- To adjust the position of the charging station, please disconnect all power cords and move slowly to prevent unit from tipping over.
- Do not scratch or knock the LCD with hard object, or twist and squeeze the LCD.
- Do not turn on the unit immediately when it is moved from a place with low temperature to high temperature, or else it will cause condensation and malfunction.
- Before cleaning the charging station, please pull out the power plug; wipe with soft cloth; do not use industrial chemicals; prevent foreign matters from entering the machine. Improper cleaning (such as cleaning solution, water) may damage the product, erase the printed information, and even cause damage of the components if fluid flows in, resulting in machine failure.
- The power of the charging station can be cut off by pulling out the plug.
- If the LCD screen ruptures and the liquid splashes on the skin, please rinse for 15 minutes with clean water immediately, and consult your doctor.
- Use the charging station properly: Use in proper lighting conditions; insufficient lighting or extended viewing may impair your eyesight.
- When the plug or coupler is used as disconnection device, it should be easy to operate the device.
- Insert the plug into the outlet properly, or else it may cause sparks and fire.
- The technical specifications printed herein and on the packaging are subject to change without prior notice. The manual may be slightly different from actual operation.

CAUTION: Disconnect the power plug before assembling or disassembling the unit!

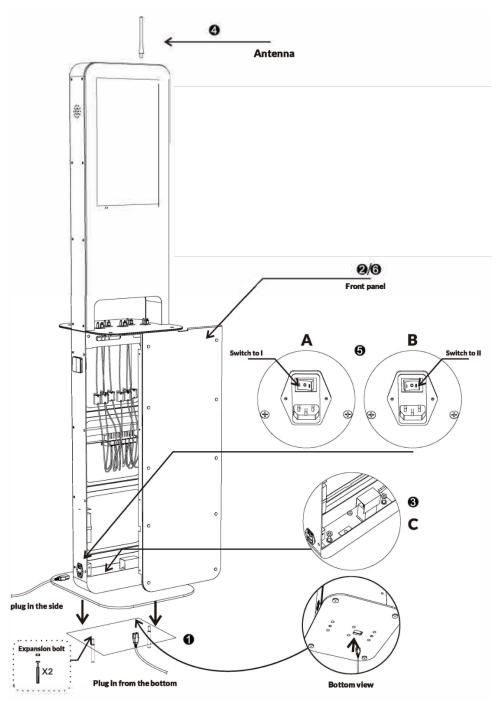

Assembly and Connection

Packing List

Accessory	Photo	Qty
Digital Charging Station		1
AC Power Cord		1
AC Power Cord Extension		1
Remote Control for LCD Screen		1
Antenna		1
Expansion Anchor (Concrete Floor ONLY)		2
User Manual		1

Installation Instructions

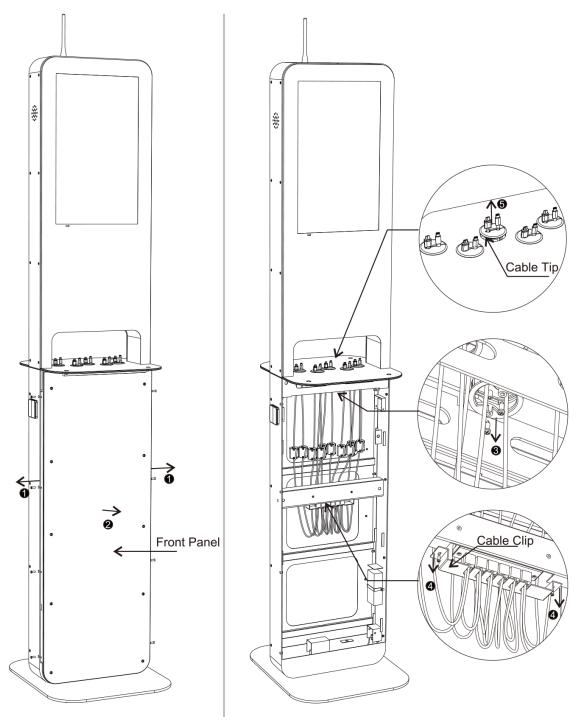

- **Step 1**: Drill holes for expansion bolts.
- **Step 2**: Remove front panel, insert expansion bolts.
- Step 3: Tighten the nuts on expansion blots with adjustable wrench (Detail C).
- **Step 4**: Attach antenna on the top of the unit.
- **Step 5**: AC power can be connected in two ways:
 - 5.1. On the side of the unit: please switch to I (Detail A).
 - 5.2. Underneath the unit: please switch to II (Detail B).
- **Step 6:** Replace the front panel with all the screws.

Charging Cable Replacement

WARNING: Disconnect the power supply before servicing.

- 1. Remove 10x screws from the front.
- 2. Take off the front panel.
- 3. Identify the cable to be replaced and unscrew the holding plate from the bottom.
- 4. Remove 2x screws on both sides of the cable clip.
- 5. Remove the old cable and install a new cable.
- 6. Secure the new cable with holding plate and hardware.

Install Graphics

- 1. Remove 10 screws from the front panel.
- 2. Take the front panel off.
- 3. Remove protective film attached to the front panel.
- 4. Place graphic behind the front panel.
- 5. Replace 10 screws to re-attach the front panel.
- 6. Replace steps 1-4 for the back panel.

Remote Control of the LCD Screen

Installing batteries for the remote control:

Remove the battery cover and insert two AAA batteries (not included). Ensure that the battery polarity matches the "+"/"-" marks in the battery compartment of the remote control.

Precautions for using the remote control:

- Aim the remote control at the receiver window. Do not place any object between the remote control and the receiver window to avoid interference with the normal operation.
- Keep the remote control away from violent vibration. To prevent heat damage, do not set or place the remote control in direct sunlight.
- The remote control may be invalid when the receiver window of the unit is in direct sunlight or strong lighting. In this case, please adjust the angle of the lighting or the unit or approach the receiver window to use it.
- The range of the remote control will be diminished if the battery voltage is insufficient; in this case, please replace with new batteries; if the remote control won't be used for a long time or the batteries are depleted, please take out the batteries to avoid corrosion due to battery leakage, which will damage the remote control.
- Do not use batteries of different types or mix new batteries with old ones. Always replace the batteries in pairs.
- Do not charge or disassemble, short circuit, heat or burn used batteries. Please dispose of depleted batteries in accordance with local environmental regulations. Do not expose the batteries in overheated environments such as sunlight and fire.

Sleep Mode Mouse Mode Directional Pad (Up/Down/Left/Right) Home Volume Control C C Menu Go Back Battery Compartment

Description of remote control buttons:

Description of Basic Operation

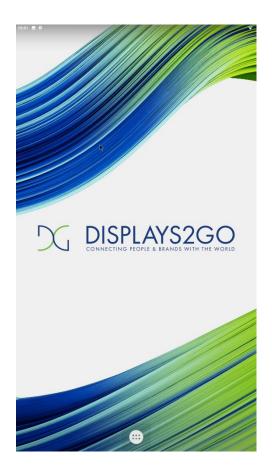

Power on/Standby

Insert the power plug into the outlet. In power on state, press the " U " button on the remote control, and the Digital Signage enters sleep mode.

Connect to Wi-Fi

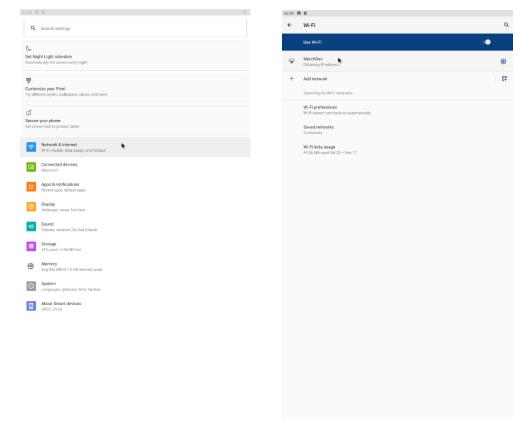

It's recommended to use directional pad button on remote control to navigate on screen contents.

- 1. Plug unit into electrical outlet.
- 2. Turn power button at the bottom side of unit to ON.
- 3. Once the Home screen pops up, select app drawer icon at the bottom (circle with six dots).
- 4. Select Settings.

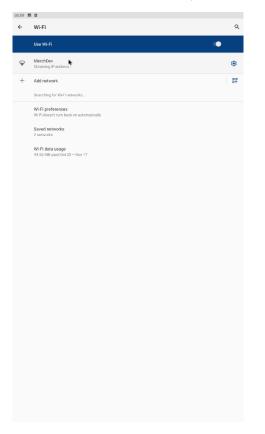

- 5. Select Network & Internet.
- 6. Select Wi-Fi.

7. Select "Add Network" and enter your Wi-Fi network and password.

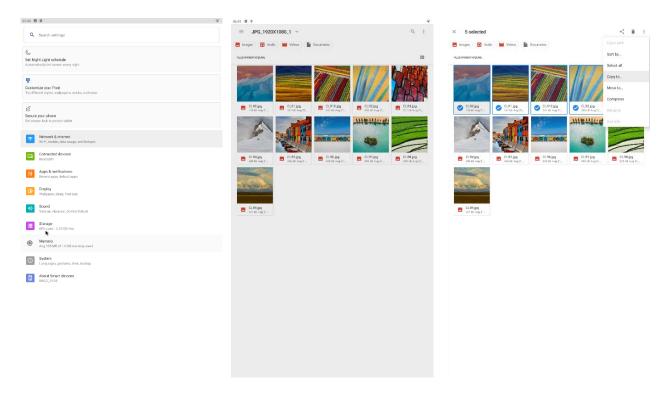

Upload Content:

NOTE: Use remote control for file transferring between USB device and internal storage.

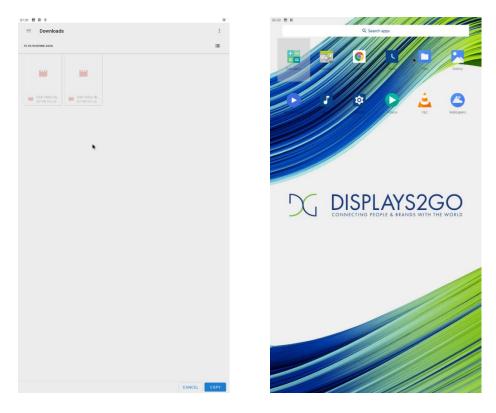

- 1. Insert your USB flash drive (not included) containing files into USB port under the digital screen.
- 2. Select app drawer icon. (circle with six dots logo), then select "Settings".

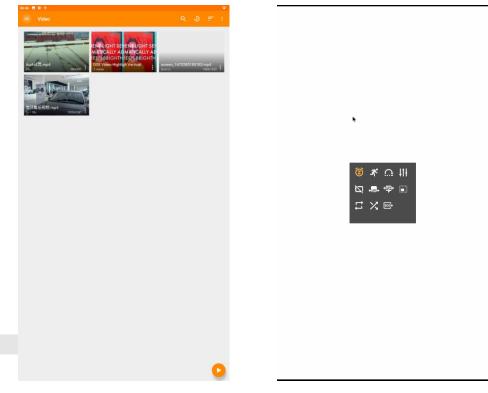

- 3. Select "Storage" then select your flash drive attached to the USB port.
- 4. Select file to upload.: Click icon in lower left corner of file to turn it into a blue checkmark.
- 5. Select "Copy to" from the "More Options" drop-down menu in the upper right corner.

- 7. Choose the desired destination to store your files and select "Copy" in the lower right corner.
- Push "Home" button (circle with a house logo) on the remote control and select app drawer icon. Select "VLC Player".

- 9. Select video and then select "Play" button (circle with a triangle pointing right) in bottom right corner of screen.
- 10. Push "Options" button (circle with three stacked lines) on remote control. Select "Loop" (double arrow icon) on the screen for continuous play.

Changing Wallpaper

We suggest using a mouse to change the wallpaper.

Connect a mouse with the digital panel through USB port, then follow the steps below:

- 1. Click "Setting".
- 2. At the setting menu, click "Display".
- 3. At the Display setting menu, click "Wallpaper", then choose a folder.
- 4. Then select an image you would like to set up as background.
- 5. Confirm the selection by clicking "Set wallpaper".

File Manager

- 1. Click the Main Apps button "
 in the Home screen to enter the "APPS" menu interface (Fig. 1);
- 2. Click the "Explorer" icon in the "APPS" menu interface (Fig. 2) and enter "Explorer" menu (Fig. 3);
- 3. Choose storage in the "Explorer" menu to read the files from different devices.

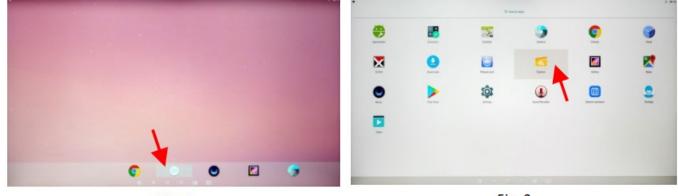

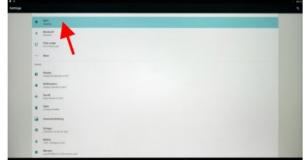

Fig. 3

Local Settings

- 1. Click the App Drawer icon "()" in the Home page to enter the "APPS" menu interface (Fig. 1);
- 2. Click the "Settings" icon (Fig. 1) and enter "Settings" menu (Fig. 2);
- 3. Click "Wi-Fi" and choose options then set up the WIFI connection (Fig. 3).

Cleaning and Maintenance

- 1. Avoid strong vibration or impact on the product.
- 2. Keep the product dry to avoid possible damage by moisture.
- 3. Don't place the product under direct sunlight which may shorten the service life of the screen.
- 4. Clean screen and product by using a glass cleaner.

5. If the product will not be used for a long time, pull out the power cord to prevent an internal short circuit or other potential dangers.

To protect the earth, if you do not need this product or its service life expires, please abide by your local Waste Electrical and Electronic Products Recycling and Disposal Regulations or send it to qualified local manufacture for recycling.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
