Description:

Free Standing Digital Display Shelf

Operating Instructions for Digital Signage

Note: Before using the product, please read the instructions carefully!

Do not attempt to disassemble this product. If the product does not work properly, please call our Customer Service Department at 1-844-221-3393.

Displays2go

Contents

Features

1. Embedded with Android 7.1 smart operating system and unique UI design, bringing you a more convenient operation and better visual experience.
2. Support USB mouse and keyboard, realizing easy manipulation like a computer. Using a mouse for set up is recommended.
3. Built-in Wi-Fi module, high capacity memory and high capacity cache, making it smoother to watch 1080P HD movies and play big games.
4. High-quality LCD screen as the display, no flicker, low radiation, greatly reducing eye fatigue, eye protection, high brightness, high contrast, and wide viewing angle; ultra-fast response time greatly reduces ghosting of fast moving images.
5. Progressive image processing and industry-leading motion compensation technology improve the flickering and blurring in the edges of motion picture.
6. Dynamic contrast technology can significantly improve the clarity and contrast of various screens.
7. Multi-channel USB interfaces, supporting HD media streaming.
8. Ultra-thin narrow bezel design.

Safety Warnings and Precautions

Thank you for purchasing the high-performance multi-functional LED backlight Digital Signage from Displays2go. We have considered the factors to ensure personal safety in product design and have tested rigorously at the factory. However, improper installation and use may result in electric shock and fire.
In order to safely use, maximize performance of the unit and extend the life of the product, please read and follow all instructions carefully before using the product.
Keep the instructions for future reference.

Symbol Legends:
⚠ **Warning: May cause personal injury or death**
🚫 **The operation is prohibited**
⚠ **Caution: May cause damage or property loss**
● **The operation must be executed**

If any of the following occurs:
- Power outage or instable voltage.
- Abnormal sound or smell from the unit.
- AC power cord is damaged.
- Digital Interactive Table is damaged due to drop, knock or impact.
- Any liquid or foreign matters fall into the enclosure.

Turn off the Digital Interactive Table immediately, pull out the plug from the power outlet, and ask the authorized personnel for maintenance timely.

🚫 **If coal gas or other flammable gas leaks, do not pull out the plug of the LCD Digital Signage or other electrical appliances; instead, turn off the gas valve immediately, and open the doors and windows quickly.**

⚠ WARNING

- Do not use power supply other than AC 110V, 50Hz.
- Cut off the power supply before connecting or disconnecting any cables.
- Do not place the Digital Signage on any instable positions, or else it may be damaged or cause fire.
- Do not place the Digital Signage in the positions such as:

  1.The environment subject to direct strong sunlight, moisture, extreme temperature or too much dust;

  2.The environment with flammable or explosive materials;

  3.The environment with flammable or corrosive gases;
- Do not use damaged or inappropriate power outlets, and ensure that the plugs and outlets contact properly.
- Do not let dust or metal deposits adhere to the plugs and outlets.
- Do not damage the power cords:

  1.Do not modify the power cords;

  2.Do not place heavy objects on the power cords;

  3.Keep the power cords away from heat source;

  4.Do not pull the cord to remove the plug.
- Do not connect too many plugs to one outlet in parallel, or else it may cause fire due to excessive power consumption.
- Do not approach the Digital Signage with open flame (e.g. a lighted candle), or else it may cause electric shock or fire.
- Do not put water filled container on the Digital Signage to avoid electric shock and fire due to water drops or splashing.
- Do not put any sharp objects, metal or liquid into the vents or let them touch the signal terminals to avoid short circuit, product damage, and electric shock.
- The openings in the enclosure are designed for ventilation and cooling, to ensure long time reliable running of components inside the enclosure and prevent overheating. Do not block the openings when place the unit.

Do not touch the plugs with wet fingers, or else it will cause electric shock.

Do not use the Digital Signage in stormy weather, especially when there is lightning; instead, please disconnect the power and antenna plugs to avoid lightning strike.

Do not disassemble the Digital Signage without permission, or else it may cause electric shock or fire. Please ask qualified technician for repair.
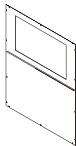

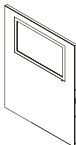

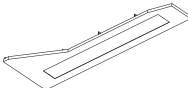

⚠ CAUTION
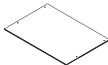

- Do not let children climb onto the Digital Signage.
- Keep the small parts away from children to prevent them from swallowing.
- If the Digital Signage won't be used for a long time, please turn it off and pull out the power plug.
- To adjust the position or angle of the Digital Signage, please disconnect all power cords and move slowly to avoid falling.
- Do not scratch or knock the LCD with hard object, or twist and squeeze the LCD.
- Do not turn on the unit immediately when it is moved from a place with low temperature to high temperature, or else it will cause condensation and malfunction.
- Before cleaning the Digital Signage, please pull out the power plug; wipe with soft cloth; do not use industrial chemicals; prevent foreign matters from entering the machine. Improper cleaning (such as cleaning solution, water) may damage the product, erase the printed information, and even cause damage of the components if fluid flows in, resulting in machine failure.
- If the unit displays the same screen for a long time or the moving picture has fixed text or icon, it will leave ghosting on the screen and won't disappear when the unit is turned off; it is normal and isn't covered by the warranty.
- The power of the Digital Signage can be cut off by pulling out the plug.
- If the LCD screen ruptures and the liquid splashes on the skin, please rinse for 15 minutes with clean water immediately, and consult your doctor.
- To carry the Digital Signage with hands, please grab the corners and hold the bottom; do not apply pressure on the panel.
- Use the Digital Signage properly: Use in proper lighting conditions; insufficient lighting or long time watching will impair your eyesight.
- When the plug or coupler is used as disconnection device, it should be easy to operate the device.
- Insert the plug into the outlet properly, or else it may cause sparks and fire.
- The technical specifications printed herein and on the packaging are subject to change without prior notice. The Manual may be slightly different from actual operation, and the latter is applicable.
Assembly

Note:

Contact D2G if you have questions about the operation, debugging and connection of the unit; if the unit doesn't work normally, please cut off the power immediately and consult the dealer. The unit is class-A product, which may cause radio interference in living environment. In this case, please take feasible measures, and use power plug as the disconnection device.

Parts List

| Parts	Picture	Qty
Back Cover		1
LCD Panel		1
Side Panel (Left & Right)		2
Glass Shelf		3
Glass Shelf (bottom)		1
Connecting Tube		2
Foot		4
Remote control		1
M6 x 12		6
M4 x 8		20
M3 x 10		8

		4
Wrench		1
User manual		1

Assembly

1 Lay the left panel on a soft and non-abrasive surface, and fix it with the LCD Panel using M6x12 screws included. Then fix the right panel with the LCD Panel.

2 PEOPLE REQUIRED FOR ASSEMBLY

2 Lay on a soft and non-abrasive surface, carefully lay the assembled frame as shown, and fix the Connecting Tubes using 8pcs M3x10 screws.
3 Add 4pcs feet on the tubes at the bottom.
4 Stand up the assembled unit and connect the wires on both sides.

5 Assemble the back panel using 20pcs M4x8 screws provided.

6 Secure the bottom glass shelf using 4pcs M6 screws without nuts, and secure the rest glass shelves at different levels using 12pcs M6 screw sets.

Remote Control

Installing batteries for the remote control:

Remove the battery cover and insert two AAA batteries (1.5V). Ensure that the battery polarity matches the "+"/"-" marks in the battery compartment of the remote control.

Precautions for using the remote control:

- Aim the remote control at the receiver window. Do not place any object between the remote control and the receiver window to avoid interference with the normal operation.
- Keep the remote control away from violent vibration. In addition, do not set or place the remote control in direct sunlight, or else the remote control may be deformed by heat.
- The remote control may be invalid when the receiver window of the unit is in direct sunlight or strong lighting; in this case, please adjust the angle of the lighting or the unit or approach the receiver window to use it.
- The distance of remote control will be shortened if the battery voltage is insufficient; in this case, please replace with new batteries; if the remote control won't be used for a long time or the batteries are run out, please take out the batteries to avoid corrosion due to battery leakage, which will damage the remote control.
- Do not use batteries of different types or mix new batteries with old ones. Always replace the batteries in pairs.
- Do not put the batteries in fire, or charge or disassemble them, or charge, short circuit, disassemble, heat or burn used batteries. Please dispose of waste batteries in accordance with local environmental regulations. Do not expose the batteries in overheated environments such as sunlight and fire.

Description of remote control buttons:

Power switch	OK	Play programs; confirm selection	
To show the Source menu		Display indication	
Mute		Home page	
Turn down the volume		Back	
Turn up the volume	MENU	To show the main menu	
To move the cursor up	SETUP	To set up OSD menu	
To move the cursor left	0-9	Input numbers	
To move the cursor right			
To move the cursor down			
Description of Basic Operation

Power on/Standby

Insert the power plug into the outlet. If the Digital Signage has the switch button "I", turn it on; if you press the switch button "O", the Digital Signage enters standby state.

In power on state, enter "System Assistant" and press the "⏻" button on the remote control, and the Digital Signage enters standby state.

Slide Show APP Introduction

How to upload media files:

Step 1: Open the Android launcher screen and click the explorer app
Step 2: Go to the USB storage menu click the USB storage button
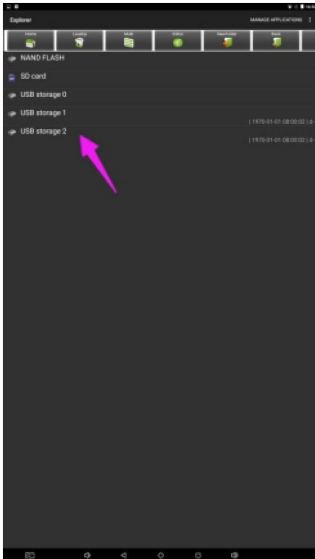

Step 3: At the USB storage menu select Multi and then highlight the media files which you want to copy to the media folder. Click the Editor button, the pop menu will show then click the Copy
Step 4: Click HOME button and go to the NAND FLASH menu.
Select MediaFolder and then open the Images Folder.
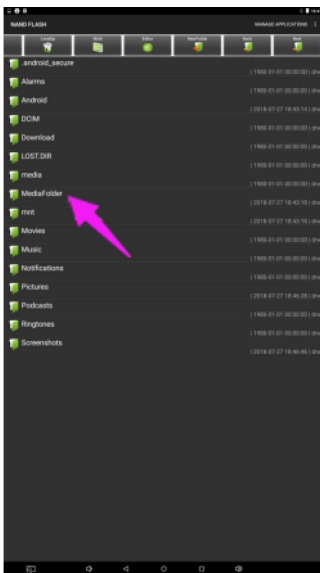

Step 5: At the images folder click the edit button at the top of the screen, the pop menu will show.
Then click the Paste command button. The files will be copied to the images folder.
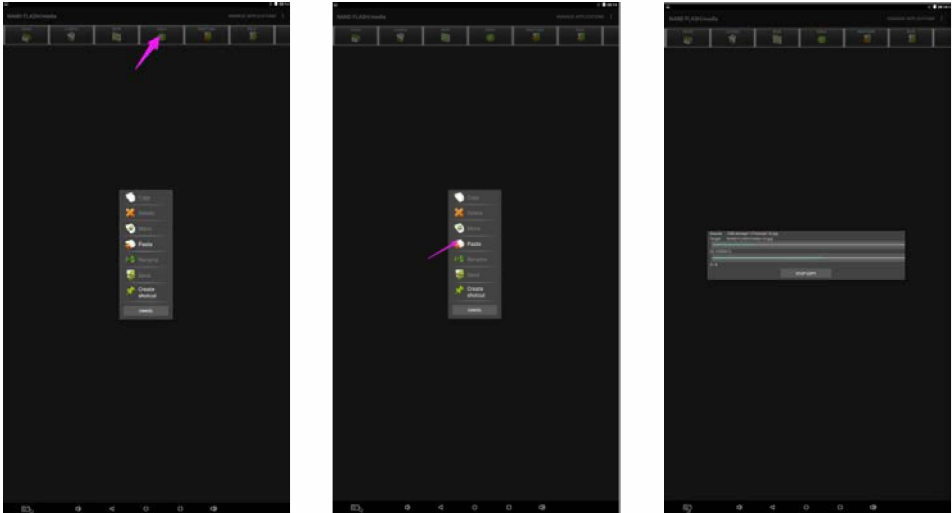

Step 6: Exit the Explorer app and go to the launcher screen. Run the Slide Show app to display the media files
Step 7: Select the time you would like each picture to be on the screen for by dragging the bar to the desired time. Select how you would like the images to display. Select the desired transition effect between pictures.
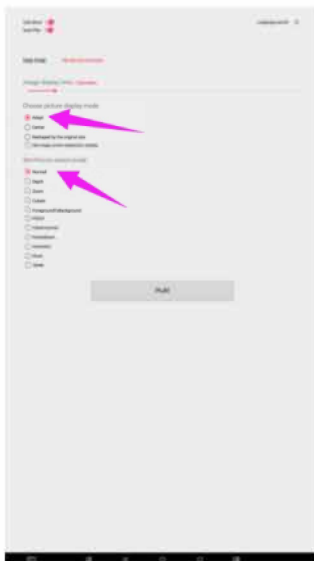

Step 8: Select Play and your slide show will begin playing

How to Delete the media files :

Step 1: Open the Android launcher screen and click the explorer app
Step 2: Click home button and go to the NAND FLASH menu you will see the MediaFolder open it
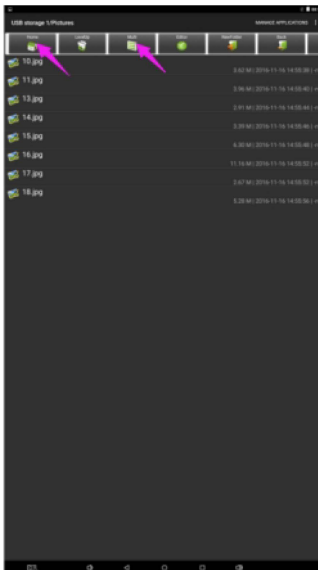

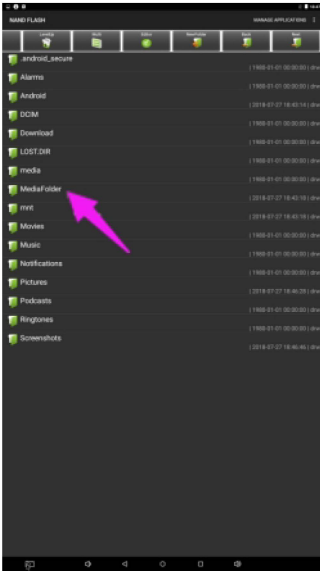

Step 3: At the Image or Video folder select the media files which you want to delete. Then click the edit button at the top of the screen, the pop menu will show. Then click the Delete command button and the files will be deleted.
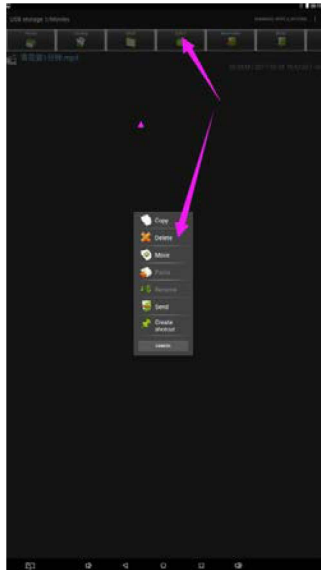

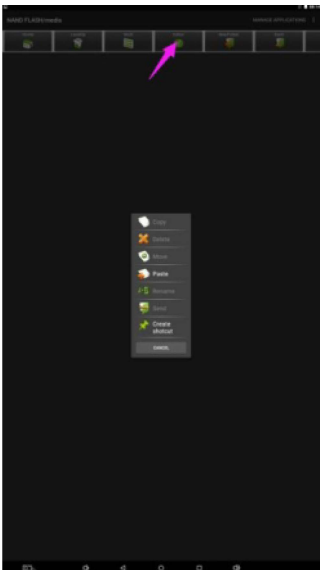

Factory Reset:

1. Step 1, get into Settings, then click "Backup & reset" (Fig. 1)

2. Step 2, click "Factory data reset" (Fig. 2)

3.Choose "Erase SD card", then click "RESET DEVICE" to get the unit to Factory Reset (Fig. 3)
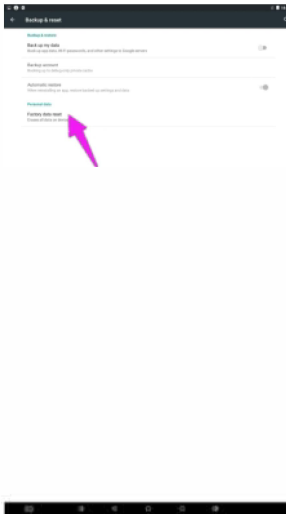

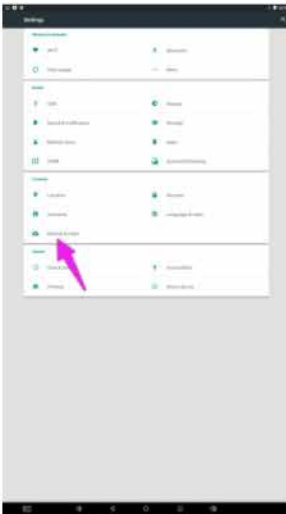

Screen Rotate:

1. Step 1: Click the Main Apps button "⊞" in the Home page to enter the "APPS" menu interface (Fig. 1)

2. Step 2: Click "System aide" into Fig. 2

3. Step 3: Choose the degree you would like to Rotate screen, then click "Confirm", after a moment, the screen will be rotated (Fig. 3)
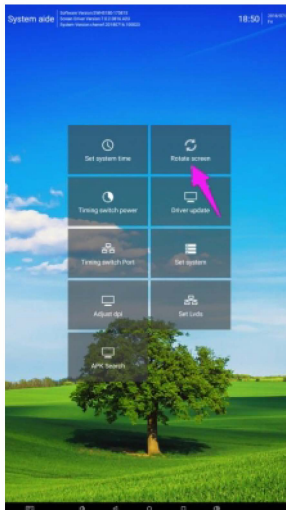

Choose System Language:

1. Step 1: Get into Settings, then click "Language & input" (Fig. 1)
2. Step 2: Click "Language", then you can choose the system language accordingly (Fig. 2)
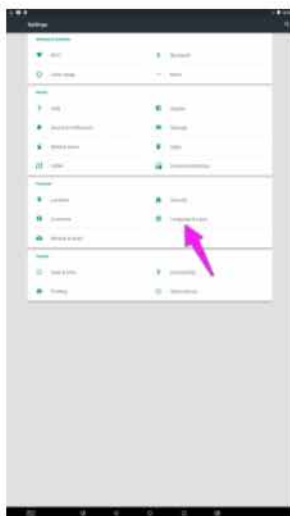

Technical Specifications

	Model	Parameters
Panel	LCD size	21.5

Troubleshooting the Digital Signs		
Issue	**Probable Cause**	**Solutions**
● No picture or sound	➤ Unit not plugged into wall outlet ➤ Power cord not properly connected to the terminal on the back of the unit. ➤ Unit not powered on ➤ Wall outlet not working	□ Check that the unit is plugged into wall outlet. □ Confirm that the power cord is connected to the terminal on the back of the unit. □ Turn the on/off toggle switch located on the back of the unit, lower center, to the "on" position. □ Unplug unit, wait 20 seconds, plug unit back into outlet and try again. □ Make sure that outlet is working by plugging in a different electrical device. ❖ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**
● No sound (but picture is working)	➤ Volume not adjusted on the remote control. ➤ Content/Video does not have sound. ➤ Content format is not compatible. ➤ Speakers do not work.	□ Adjust volume using the remote control □ Confirm content is one of the following compatible formats: AVI, MPEG4, WMV, MKV, flv, MP3, MP4, MOV. □ If unit is connected to Wi-Fi, go to YouTube and play video that has sound □ Unplug unit, wait 20 seconds, plug unit back into outlet and try again. □ Try playing the content on a different device (smart phone, computer or tablet) ❖ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**
● No picture (but sound is working)	➤ Content file damaged. ➤ Content format is not compatible. ➤ Screen damaged or defective.	□ Confirm content is one of the following compatible formats: AVI, MPEG4, WMV, MKV, flv, MP3, MP4, MOV. □ Try playing the content on a different device (smart phone, computer or tablet) □ Unplug unit, wait 20 seconds, plug unit back into outlet and try again. ❖ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**
● Remote control not working	➤ Batteries not inserted properly. ➤ Batteries are dead. ➤ Standing too close or too far from the unit.	□ Check that battery is inserted properly with positive and negative orientation. □ Insert new batteries. □ Stand within 1 foot of the front of the unit and point the remote directly at the sensor (green dot) ❖ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**

● No Wi-Fi signal	➢ Wi-Fi is not turned on in product settings.
	➢ Wi-Fi is not connected to a network
	➢ Low or no signal from the router
	➢ Antenna is missing or not pointed upward.
	➢ Damaged PC board
			□ Check that Wi-Fi is turned on in settings
			  o Click the settings icon from the Android home screen.
			  o Click "Wi-Fi".
			  o Click the on/off icon in the upper right hand corner to turn on Wi-Fi.
			  o "On" will appear on the upper left hand side.
			  o Then select your Wi-Fi network
			□ Confirm that the antenna is in place and pointed upward.
			□ Check that other devices are receiving the signal.
			  o **If other devices are not receiving the Wi-Fi signal, please contact your internet service provider.**
			□ Unplug or reset the router and wait for 20 seconds. Restart the router and check.
			❖ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**

● Parts missing or Damaged	➢ Parts missed during manufacturing. (No charge for replacements) ➢ Parts lost or damaged by the customer. (There is charge for replacements)		❖ **Contact a customer service representative.**
● Having problems with installing software or getting content to play	➢ Did you purchase the DisplayIt!Xpress software from Displays2go? ➢ Did the customer purchase or downloaded another 3ʳᵈ party software onto the product?		□ If you purchased DisplayIt!Xpress software from Displays2go or from Best Wave directly, please contact Best Wave at **support@bestwave. com or (480)368-8900 ext. 2** □ If you purchased or downloaded another 3ʳᵈ party software onto the product, please contact the 3ʳᵈ party software company's customer support for assistance.
● Cannot upload content	➢ Content format is not compatible. ➢ Content files are too large. ➢ Port being used is defective ➢ App being used to play content is defective. ➢ Android board is defective.		□ Confirm content is one of the following compatible formats: AVI, MPEG4, WMV, MKV, flv, MP3, MP4, MOV. □ Confirm file size is less than available space. ❖ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**

● Issues using pre-installed apps	➢ Mistake in storing content to NAND Flash (shown on pg. 11)
	➢ App is defective
	➢ Android board is defective.
		☐ SlideShow App steps Explorer > Select USB > Select Multi > highlight files > Editor > Select Copy > Home > NAND > MediaFolder > Images> Editor > Paste
		    o Open SlideShow app and select desired trasitions, slide time and looping > Play
		☐ MX Player steps > Follow same steps as SlideShow App > MediaFolder > Video > Editor > Paste.
		    o Open MX Player and select video to play.
		    o Loop video: While the video is playing, click on the video and there should be 3 dots in the top right corner. Click on the 3 dots > play > check desired Loop option
		☐ **If all of the above have been checked and the issue is not resolved, contact a customer service representative.**

Cleaning and Maintenance

1. Avoid strong vibration or impact on the product.

2. Keep the product dry to avoid possible damage by moisture.

3. Don't place the product under direct sunlight which may shor.

4. Clean screen and product by using a glass cleaner.

5. If the product will be not used for a long time, pull out the power circuit or other potential dangers.

Names and Contents of Toxic and Hazardous Substances or Elements in the Product
