Tools Required: Philips screwdriver (not included)	

Assembly

 2 people recommended for assembly.

1. Lie side panels A and B on the floor. Place shelves E and H at indicated positions. Orient shelves and side panels as shown below, with shelf channels facing the up and to the front, opposite from slots on panels.
2. Secure shelves with slotted screws. Hand-tighten, and do not tighten slotted screws fully until the end of the assembly.
3. Connect acrylic side panel B to shelves.

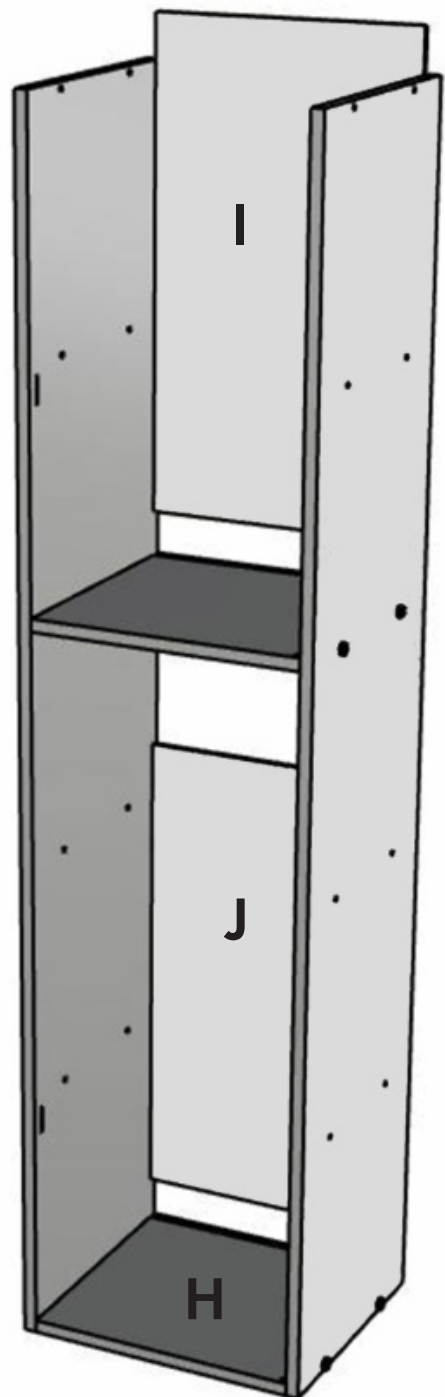

4. Lift the unit to standing position.
5. Slide glass panel I down into channel of shelf E.
6. Slide glass panel J down into channel of shelf H. Holding panel J, slide shelf F into position, then secure shelf F with slotted screws to keep panel J in place. Hand-tighten screws.

①

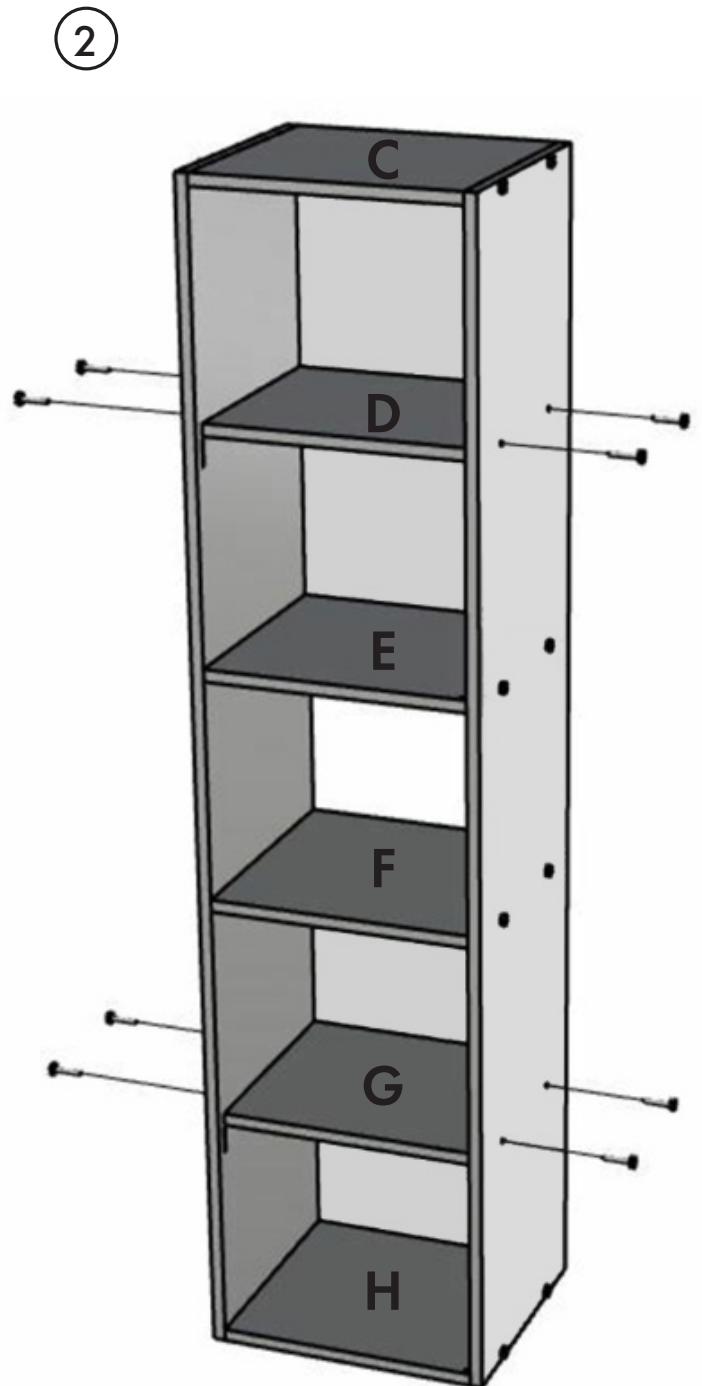

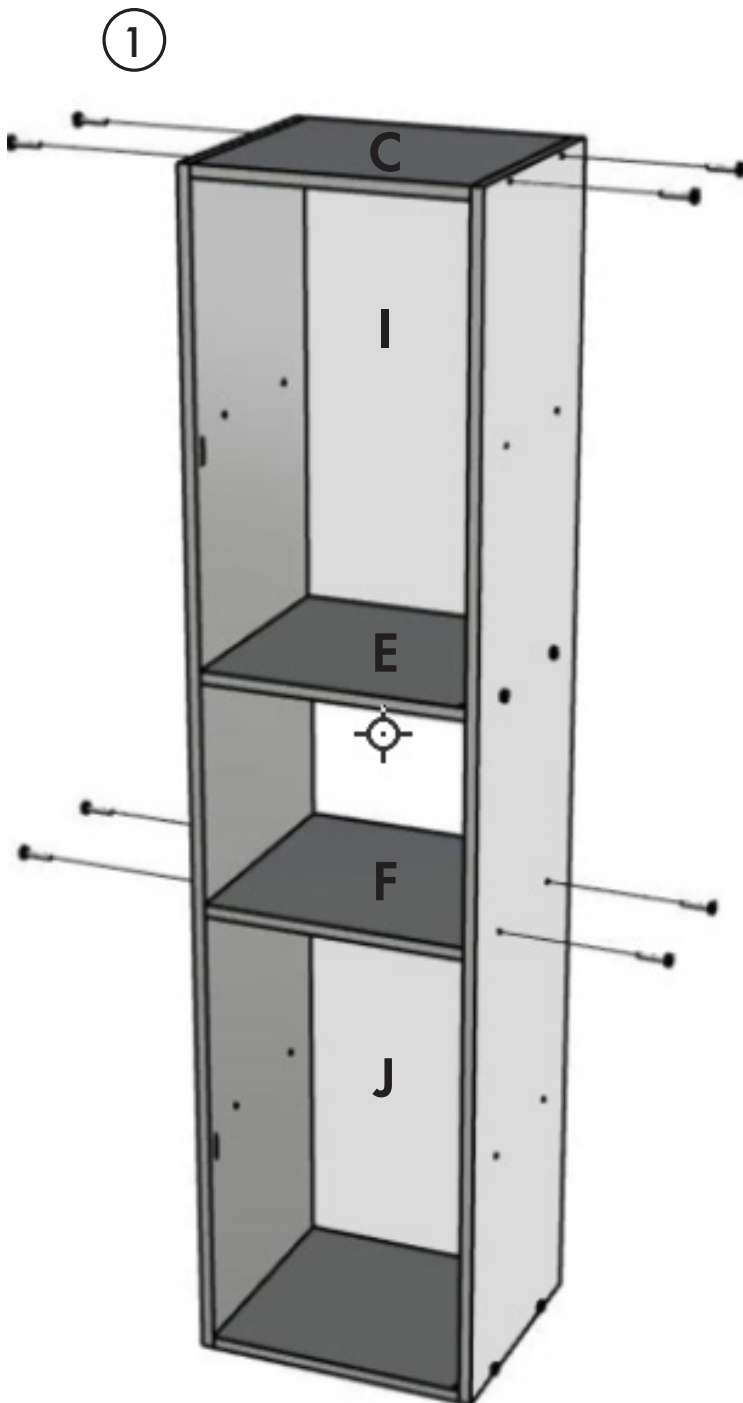

②

7. Attach shelf C with hole for door hinge facing down with slotted screws. Hand-tighten screws.

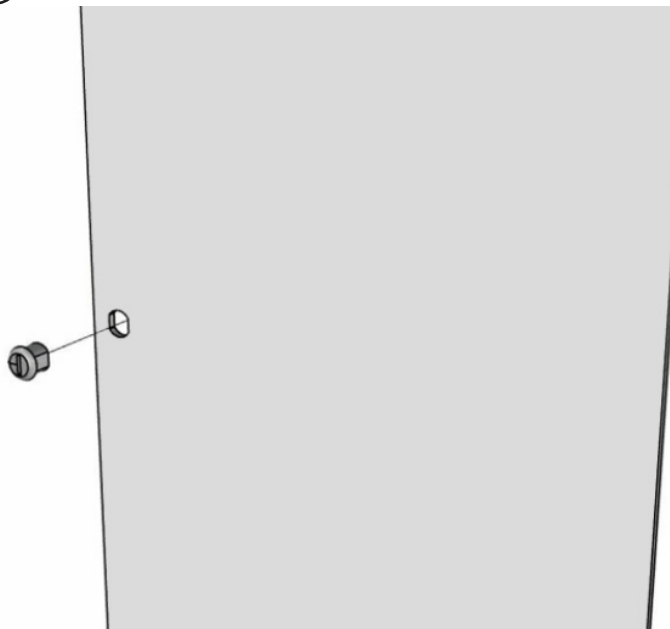

8. Attach the rest of the shelves using slotted screws. Hand-tighten screws.

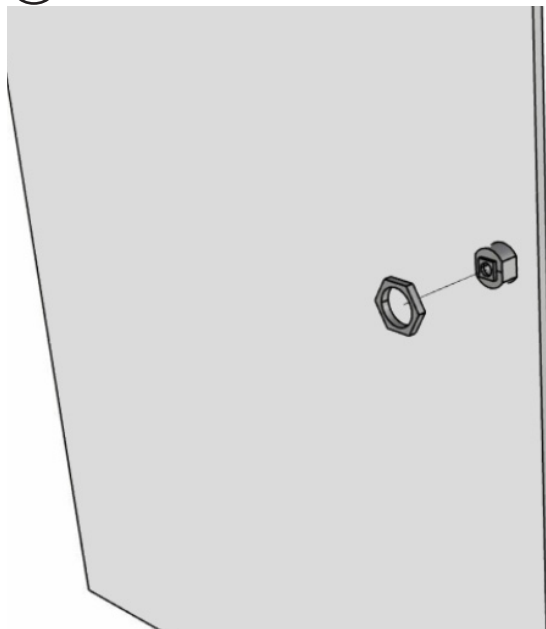

9. Assemble door lock components on acrylic doors (K, L). Add lock and secure with washer. Then attach locking tab. Secure all pieces with crosshead screw.

10. Repeat on other door.

④

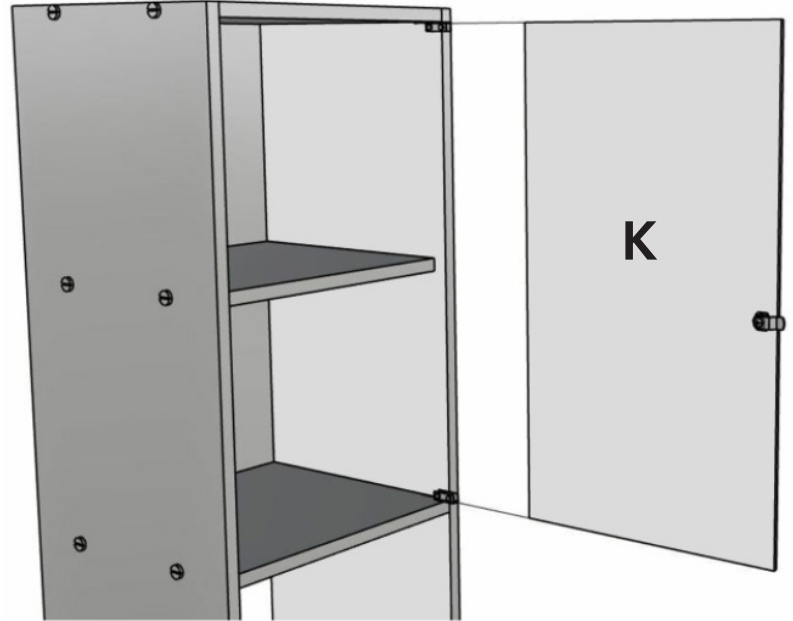

11. To attach acrylic doors, insert lower door hinge into hole on shelf. Place the upper hinge on the glass door and slide door into place. Push the door flush against the shelf to properly align the door. Screw each door hinge to secure door in place.
12. Repeat on other acrylic door.
13. Fully tighten all slotted screws. Use a coin or flat object to tighten carefully and avoid scratching the surfaces of the screws.
