Upgrade Your Digital Signage and Transform Your Customer Experience!

Your digital signage isn't just a screen—it's your brand's voice. Upgrading now means faster performance, stunning visuals, and smarter connectivity that keep your audience engaged and your operations running smoothly.

● **Faster, Smarter Performance**

Android 14 OS for Digital Signage: Built to stay ahead of the curve with enhanced app compatibility and smoother operation.

Upgraded CPU & GPU: Deliver eye-catching animations and rich, dynamic visuals effortlessly for a premium experience every time.

● **Upgraded Applications & Simplified Content Management**

DIVIEX 2.0: D2G's exclusive slide show app with new enhanced interface and editing features.

Google Chrome provides a safe and secure browsing environment, while **Google Playstore** provides access the latest and greatest apps.

Fully Kiosk Browser (Trial) allows the end user to lock down their browser ensuring the screen only shows approved content, creating a controlled, single-purpose environment, vital for public-facing displays or unattended kiosks.

TeamViewer & SplashTop: Pre-installed Remote Access Tools to manage and troubleshoot devices remotely, reducing downtime.

● **Stunning Visuals & Audio**

Screens 32" & Smaller: Full HD Resolution: Offering sharp, detailed, and life-like visuals.

Screens 43" & Larger: 4K Display Resolution: Providing improved detail, smoother curves, and sharper text for larger displays resulting in crisp, vibrant visuals that captivate your audience.

10W x2 Speakers: Clear, powerful sound for announcements and multimedia.

● **Superior Connectivity**

Bluetooth 5.2 & Wi-Fi 6: Faster, more stable connections for updates and device pairing.

Dual-Band Wi-Fi: Reliable performance even in high-traffic environments.

● **More Storage & Memory**

8GB RAM & 64GB Storage: Smooth multi-tasking and ample space for apps & media.

● **Enhanced Interactivity**

PCAP Touch Technology: Accurate, responsive touch for engaging customer experiences.
