How to apply:

- 1) Open the box and lay all panels flat on a clean surface.
- 2) Before attaching the hook and loop strips, find the matching length for each edge and make sure the vinyl panels are clean.
- 3) Peel off the protective backing paper on one side of the hook and loop strip and attach it by aligning with the matching edge. Repeat the step to attach all the hook and loop strips.
- 4) Find the corresponding side where each panel will be attached to. Peel off the backing paper on all 4 edges, and carefully align the panel with the extrusion frame, then press all the edges down firmly.
