

BFLAG Pole Assembly

Please Read Instructions Before Assembly!

Please Note: This is NOT a telescoping pole. Damage may occur if assembly instructions are not followed.

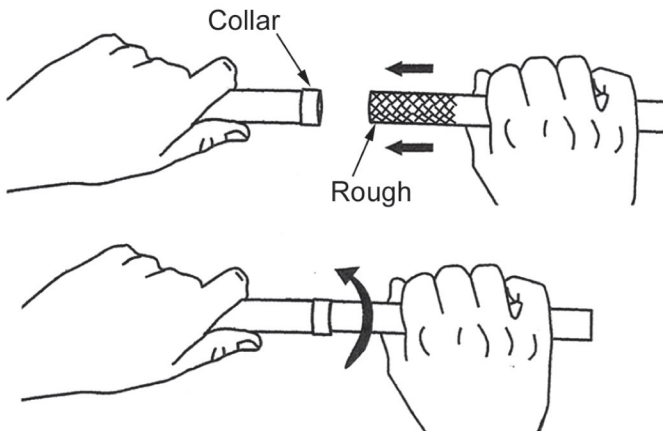

1. Remove rubber stoppers at each end of pole.

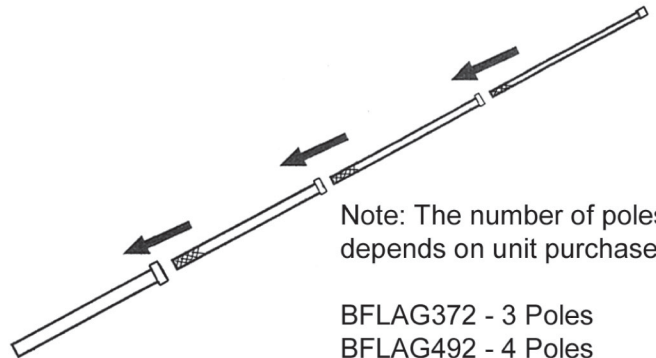

2. Remove all sections of pole from inside largest pole section. Poles taper and must be slid out from large end of section.

IMPORTANT! This is not a telescoping pole. Failure to remove pole sections and assemble according to these instructions could cause damage to the unit.

3. Assemble poles inserting rough end into collar. Push and twist to secure pole sections.

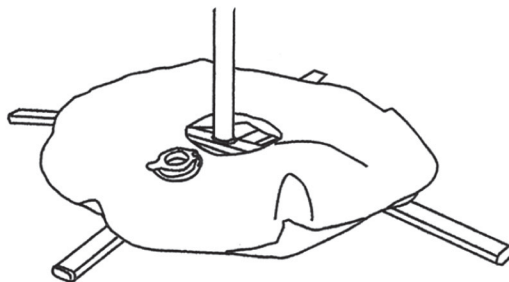

Note: The number of poles depends on unit purchased

BFLAG372 - 3 Poles

BFLAG492 - 4 Poles

BFLAG592 - 5 Poles

4. Insert pole sections together according to size.

Water bag with cross base is meant for low wind conditions.
