

# BSJ Banner Assembly Instructions

---

## **Special Concerns:**

As with any retractable banner stand, never release the banner from a raised position. Always hand raise and lower the banner. Damage to unit or banner may occur if the banner is released from a raised position.

Your banner stand comes with the graphics already installed. We do not recommend trying to replace your graphics.

Slide over the piece of black plastic that holds the pole inside of the base. Lift and raise the pole.

Raise the banner and attach it to the top of the pole.

Attach the light to the top of the pole.
