## 1.Poles assembly to base installation

Step 1

**Note:**

Make sure cables management windows are facing the rear of base.

Step 2

**Caution:**

Ensure screws are secured firmly.

Step 4

## 2. Telescopic mounting poles installation

Step 1. Unscrew safety cap screw on right lower poles assembly by using J (6mm Allen key) from hardware pouch. Put safety cap screws aside. As shown in Fig-1

Step 2. Use left hand thumb or index finger to depress spring ball located at the right lower pole (Near cable winder), at the same time use right hand twist and pull right upper pole (Clockwise or anti-clockwise either directions will do) upward until your desired height. Use height label indicator on pole as guide. Then twist upper pole toward plunger holes direction and engaged spring ball into the plunger hole and set. Secure safety cap screw firmly as shown in Fig-2 (You may need another person to help)

Step 3. Repeat step 2 on left poles assembly.

Step 4. To re-set height after TV installed, need 2 men. One man to hold up the TV while their man simple unscrew 2X safety screws on left and right poles by using J (6mm Allen key) from hardware pouch and put screws aside. Using both thumbs to depress the 2 spring balls, and TV man let goes TV downward or rise up to desire height and let plunger ball set into holes. Secure 2X safety screws firmly. As shown in fig-2.....
