# INSTALLATION INSTRUCTIONS
Flip Frame Tension Backwall

Notice

If the frame is set up in vertical orientation, customers will need to insert the extra piece ('10' on both sides) into the support leg.
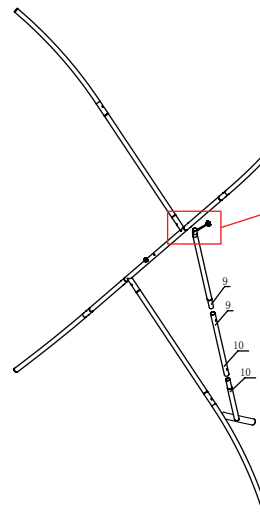

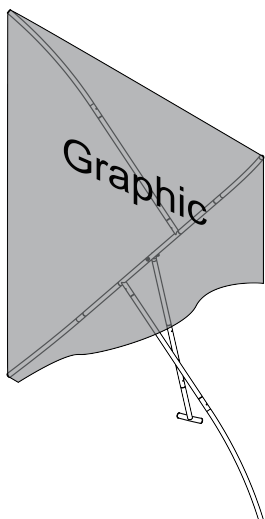

**1**
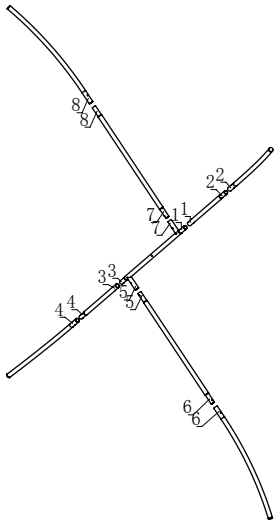

Connect pieces by matching up numbers.

2

Attach the support leg to the back of the frame using the provided screw.

3

Graphic

Attach the graphic by slipping the ends of the aluminum tubes into the corner pockets of the graphic.

4
