

10FT Football Hanging Light Box To Install

step 1:

There are some figures labeled on each tube, connecting the same figures together to assemble four circles.

Note: lamp hook must be installed away from the center of the circle

step 2:

Complete the frame assembly by connecting the rest supporting tubes as shown above. See detail views in last page.

Note: Set the lamp luminous face to the center of the circle to ensure uniform lighting

step 3:

Install the LED light on the assembled frame

step 4:

Place the graphic cover at the bottom of the frame. Carefully pull up the cover to the top.

10FT Football Hanging Light Box To Install

step 5:

Find the reinforced hole in the graphic, hang each reinforced hole on the corresponding plug to keep it stay outside the light box, close the zippers on the graphic.

step 6:

Connect the clips and power plugs to the frame.

step 7:

Hold the electric box on the center of frame then connect the locks and pulgs to the electric box.

step 8:

Hang it onto the ceiling. Turn the switch on to light it up.
