

# ASSEMBLY INSTRUCTIONS

SMSDLEDAB1 - LED Acrylic Barrier

V21.03

- 1** Place the base on a flat surface the unit will be set up. Peel off the protective films on the triangle feet and insert them into the cutouts on the base as shown.

Scan QR code to visit the product page:

- 2** Peel off the protective films on both sides of the Panel. Carefully lift the hygiene barrier panel up and fit into the base by matching the cutouts with the feet.

- 3** Connect the power adapter with the LED lights and plug into the nearest outlet. Turn the lights on and your hygiene barrier is ready to use.

- 4** Use the Control Box to change brightness and color of the LED lights.

## Control Box

Button	Function
On/Off	Turn the light on/off.
Color Changing	Press to cycle through 9 colors.
Music Mode/ Brightness Adjusting	Press to enter music mode. Press and hold to cycle through 6 brightness levels.

- 5** Connect the LED lights with Govee Home App.

This LED device is also compatible with the Govee Home App.

1. Download the Govee Home app from the App Store (iOS devices) or Google Play Store (Android devices);
2. Turn on Bluetooth in your phone and get close to the LED lights;
3. Open Govee Home App, tap "+" icon in the top right corner and select "H6125" from the list;
4. Follow on-screen instructions to complete connection.

NOTE: Displays2go does not offer technical support for the Govee Home App.
