

Convertible Table Cloth Setup Instructions

CVS6 Series
CVL8 Series

V20.11

The table throw is designed to drape over a 5', 6' or an 8' table, depending on which size you buy.

To convert your table throw to fit a smaller sized table, see the instructions below.

At the bottom front corner of the table throw you will find a piece of hook and loop fastener sewn onto the fabric.

Holding the hook and loop strip, fold the corners around towards the back. Stretch the fabric tightly around your table and attach the hook and loop strip to the back as shown above.

Next, find the hook and loop strip at the bottom backside corner of the throw, and lift the fabric to locate the corresponding strip underneath. Use the hook and loop strip to attach and hide the excess fabric under the table.

Your table throw will now look like a fitted table cover designed to fit smaller tables!
