ASSEMBLY INSTRUCTIONS

LEDDCP - Illuminated Metal Pedestal

STEP 1

Place Frame Module (A) on a flat surface. Insert the aluminum bars into the grooves on both sides of the Frame Module, then fix alu bars by fastening the screws with the wrench (N).

NOTE: DO NOT tighten completely at this point.

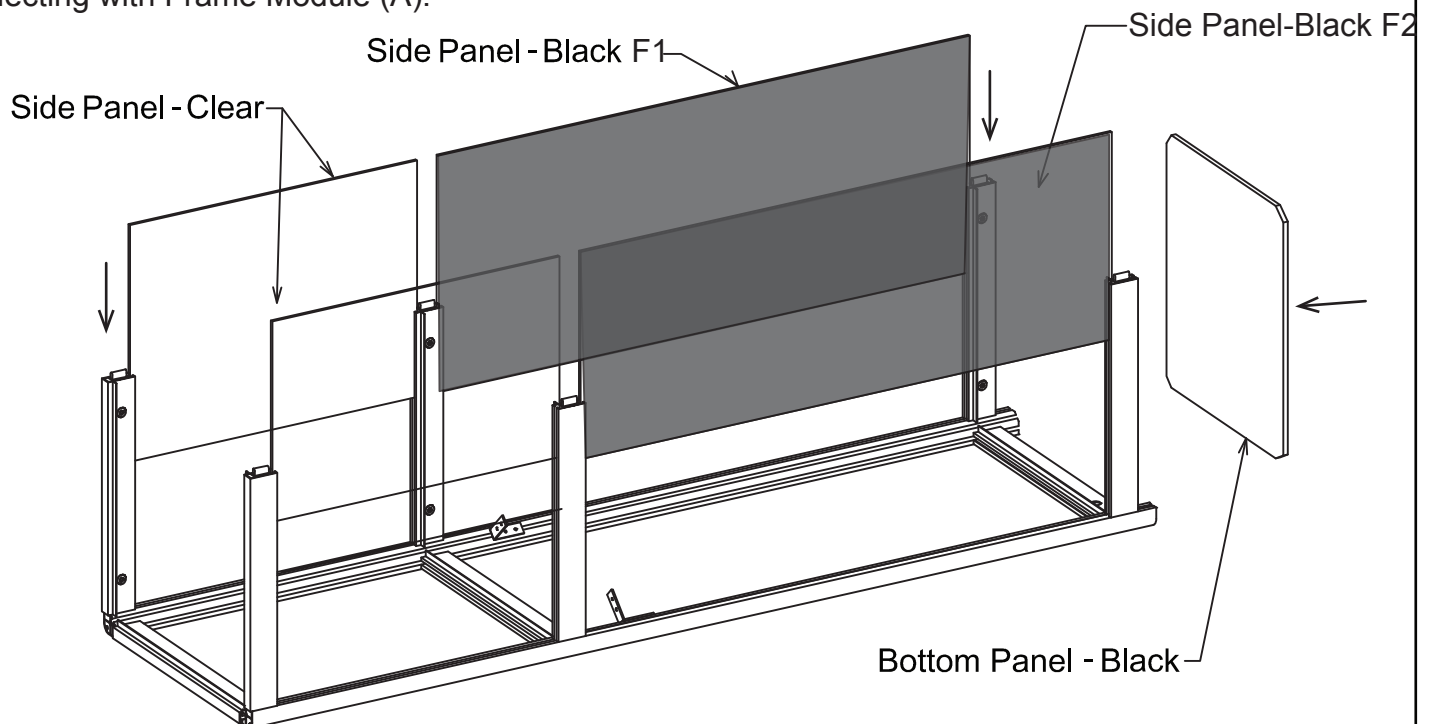

STEP 2

Insert the Clear Side Panels (E), Black Side Panels (F) to the sides.

Attach Black Bottom Panel (H) to the velcro on the fixed aluminum bars.

Make sure all the panels fit inside grooves and tighten the screws in the aluminum bars that connecting with Frame Module (A).

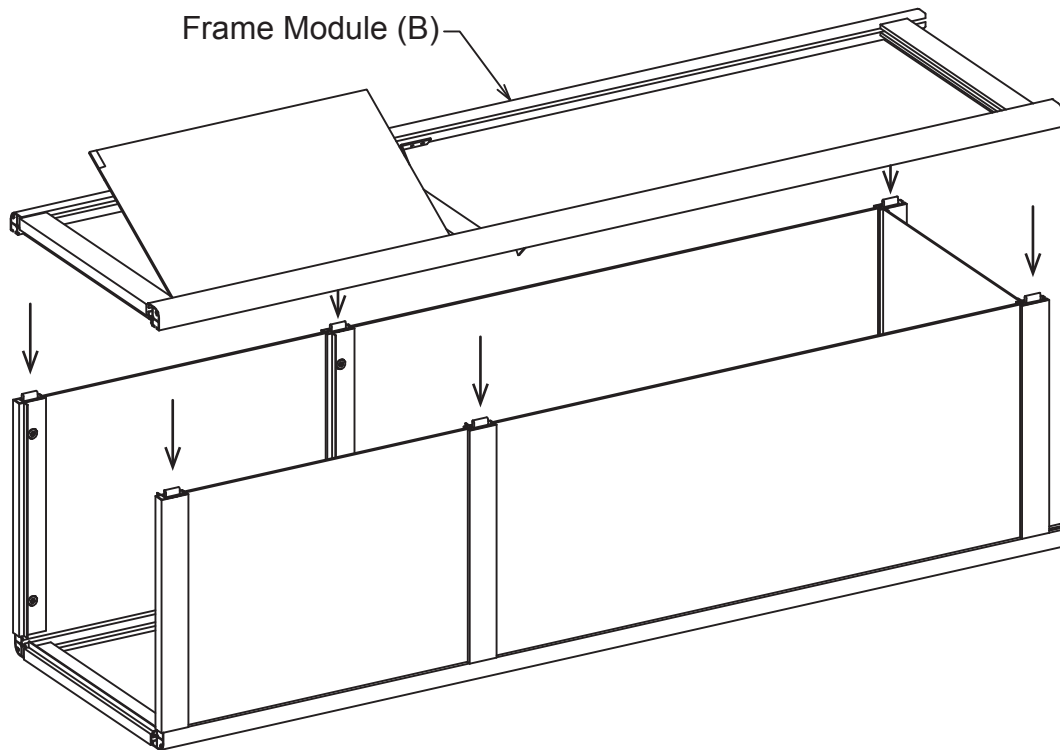

ASSEMBLY INSTRUCTIONS

LEDDCP - Illuminated Metal Pedestal

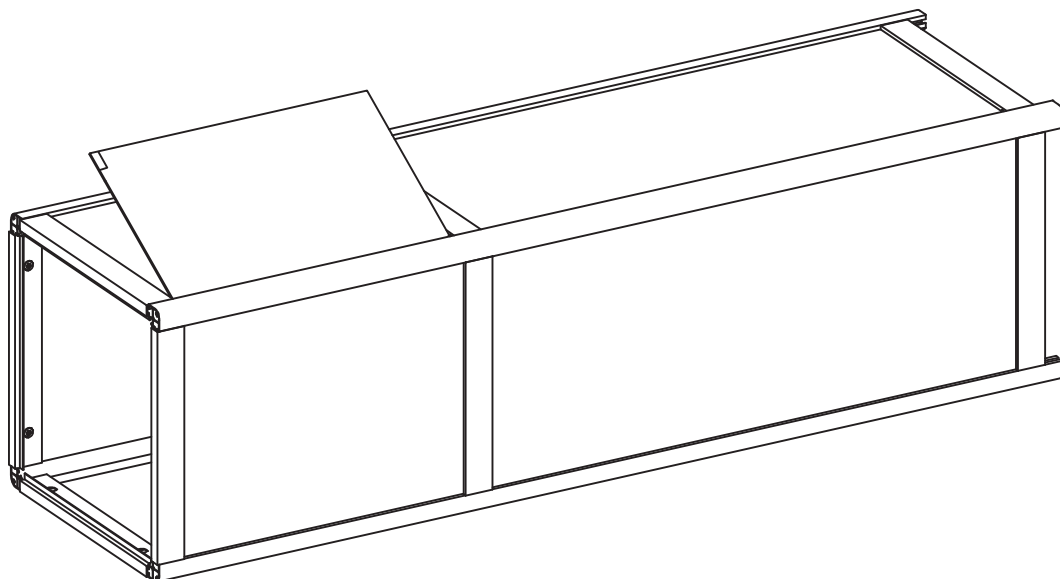

STEP 3

Connect the Frame Module with Door (B) with the assembled pedestal body. Be sure all the bar connectors and all panels inserted into the grooves on the Frame Module (B).

Secure the Frame by tightening all screws in the aluminum bars that connecting with Frame Module with Door (B).

Tips: Open the door with included keys and tighten the screws on the middle bar.

ASSEMBLY INSTRUCTIONS

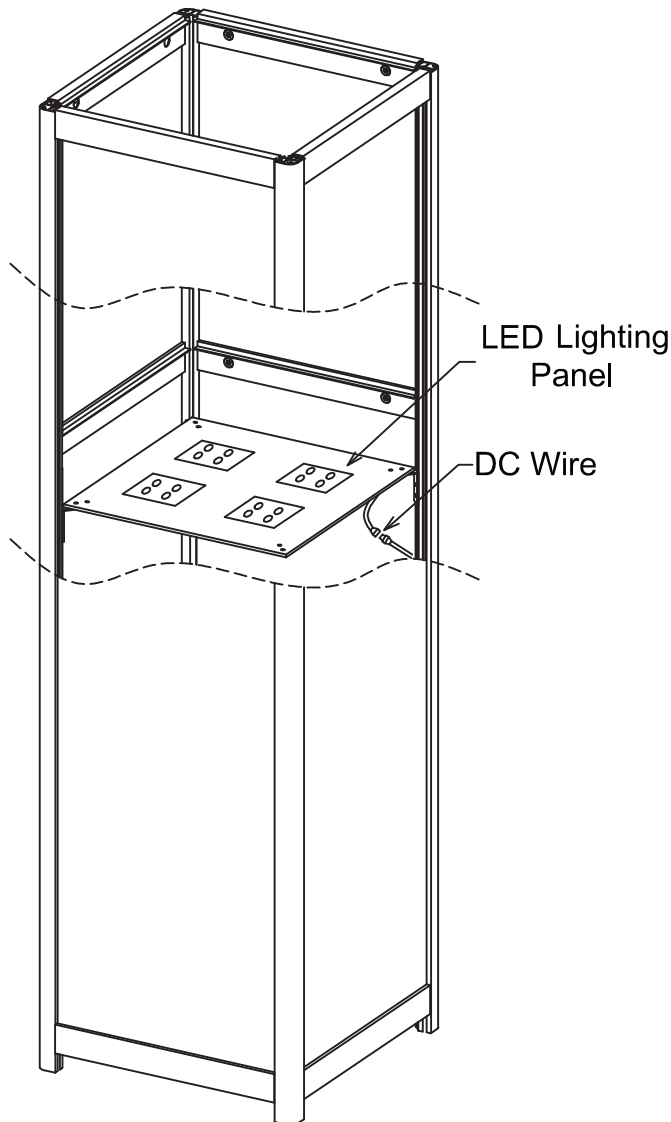

LEDDCP - Illuminated Metal Pedestal

STEP 4

Carefully lift the assembled pedestal to its standing position.

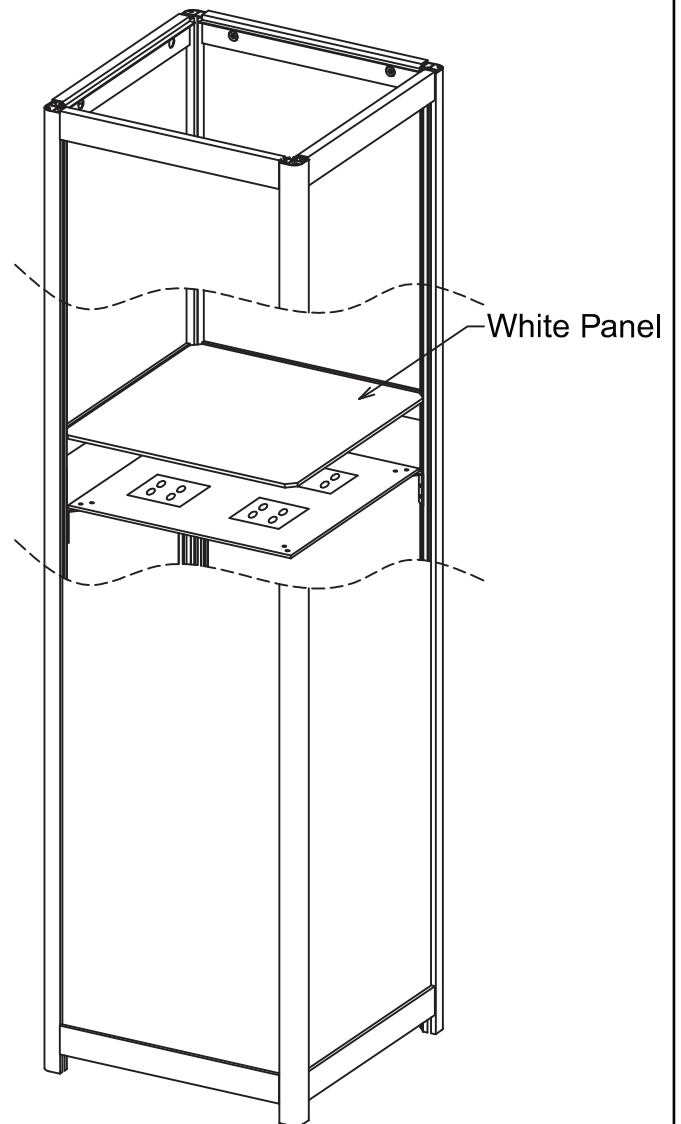

Open the door on the pedestal and connect the DC wire inside the pedestal with the wire at the bottom of the LED Lighting Panel (I). Place the LED panel on the brackets.

Fix the LED panel by tightening M4X8 Machine screws (M) at 4 corners.

STEP 5

Place the White Panel (J) above the LED lighting Panel as shown below:
