

SQRHB636 - 6'w x 36" h

Square Hanging Banner

Assembly Instructions

Parts list:

- A: (16) Long Bars
(8) Right Side + (8) Left Side
- B: (4) Short Bars
- C: (4) Long Screws
- D: (4) Short Screws
- E: (1) Wire rope
- + Extra / Replacement Pieces.

Connect (1) A-Left and (1)A-Right together to make a side of your square. Do this 4 times so you have the 4 sides of your square support.

Align the ends of the each side as show, making sure to align the grooves in each piece to properly align.

Please note: A 90 degree angle should be formed.
Please Note: Button Locks should be facing inwards away from outside edge.

Using the short screws (D) attach the Short Bar (B) to each corner as pictured.

Set the assembled base on the ground so that the Short Bars are facing upward.

Position your graphic so the center seam is centered with the bottom square frame and the corners are aligned.

With the help of another person raise the graphic up over the short polls.

Position the assembled top square side pieces(A Right + A Left) on top of the short bars. Make sure the holes and grooves are aligned.

Please Note: Align each of the re-enforced holes with the top of each middle short pole (4)

Align all holes then insert long screws and hand tighten

Once all long screws are in place, lift the inside of the graphic and zipper The sections together.

Hang your Banner by clipping the included wire to the eyelets on top of each long screw.
