Installation steps :

※ Before insert (2) into (3) , should press (E) first.

After press (E) and insert (2) into (3) ,
it is unable to draw (2) out.

1. Insert (2) into (3) .

Adjust the desired height and then turn (C) until tight.

2. Insert (1) into (2) .

Adjust the desired view angle and then turn (6) until tight.

Note : There is plastic bushing (B) inside tube (2) .

Check if (B) is still there before assembly.

Installation steps :

3. Insert A-C through (4) till end .
4. Clip (4) & (5) onto the desired tube and then turn A-B until tight.

Installation steps :

5. Enter (F) and combine with (5) .

※ Convex on (5) should match concave on (F) .

6. Adjust your desired view and then turn A-A until tight.

Use "B-B"+"B-C" tools to adjust the tightness of all screws on three knuckles.

※ Use B-A to turn (D) for adjusting the tightness of (1) vertical movement.
