

# PIPELINE CLOTHING RACK

## Table of Contents

Wall Mount Pole – PPLNOUTRIG .....	1
Straight Hanging Bar – 1PLNHNGRBK.....	3
Spoked Hanging Bar – 1PLNSPKBLK .....	5
Shelf – 1PLNSHVBRN/1PLNSHVNAT .....	6
Configurations – PPLN12NATL/PPLN12BRWN .....	7
Configurations – 2PPLN32NAT/2PPLN32BRN .....	8
Configurations – 2PPLN4HNGR .....	9
Configurations – 3PPLN52NAT/3PPLN52BRN .....	10
Configurations – PPLN4SHNAT/PPLN4SHBRN .....	11

To build configurations, see pages 7-11 for references on which parts to use.

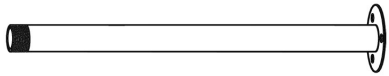

# PIPELINE CLOTHING RACKS

## Wall Mount Pole - PPLNOUTRIG

### PARTS LIST

A. Mounting Bar	X2
B. Top Upright	X1
C. Bottom Upright	X1
D. Stud Anchor	X6

**A**

**B**

**C**

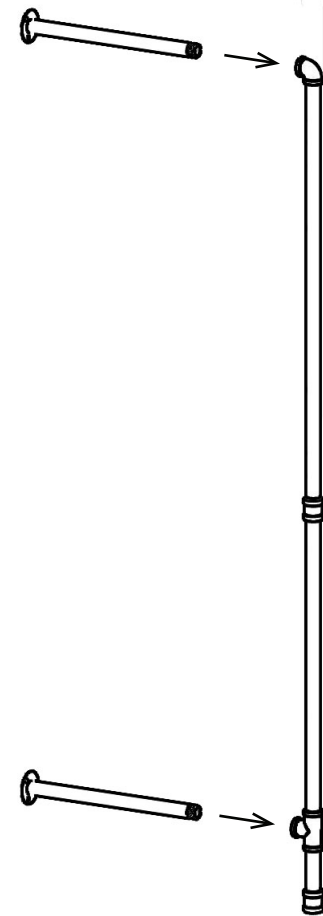

**D**

**Step 1.** Screw Part B with Part C as shown in the picture below. Be sure the openings on top and bottom face the same direction.

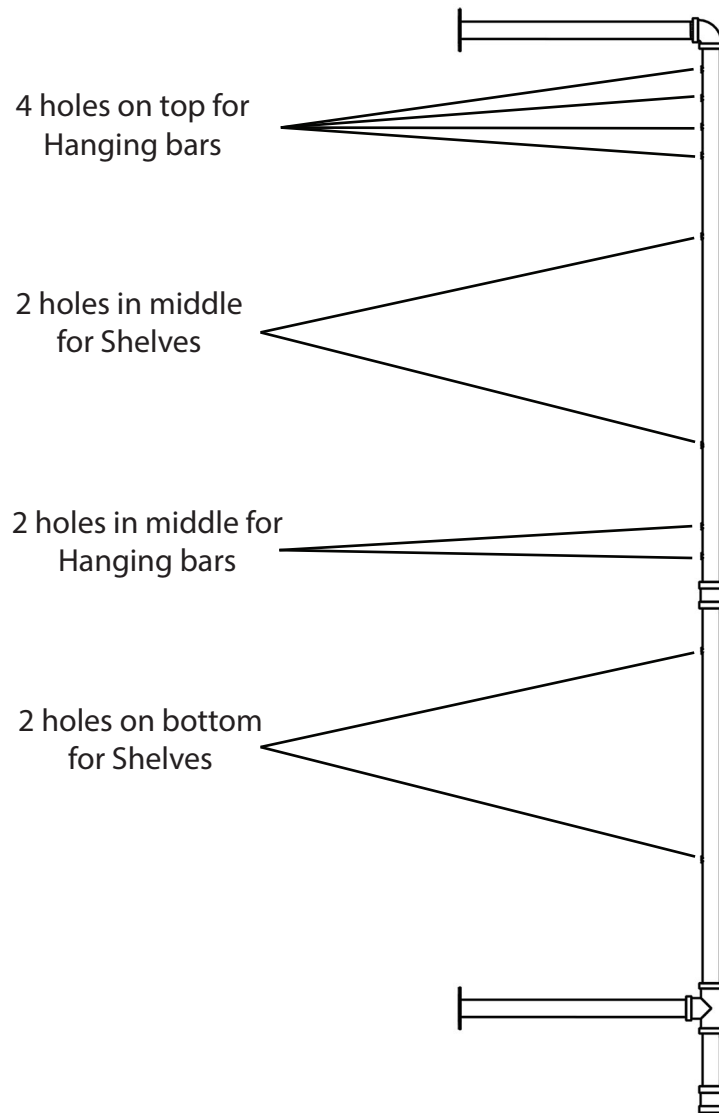

**Step 2.** Thread (2) Part A into the assembled upright. Be sure (2) Part A face the same direction. Twist to tighten all legs fully.

# PIPELINE CLOTHING RACKS

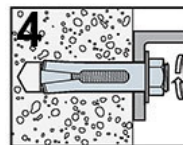

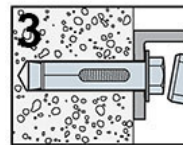

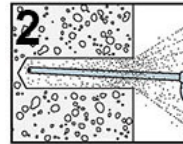

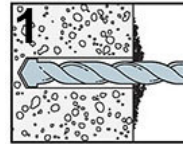

## Wall Mount Pole - PPLNOUTRIG (cont.)

**Step 3.** There are 10 holes on the backside of the Wall Mount Pole. See picture below. Choose desired hole locations to create your configurations.

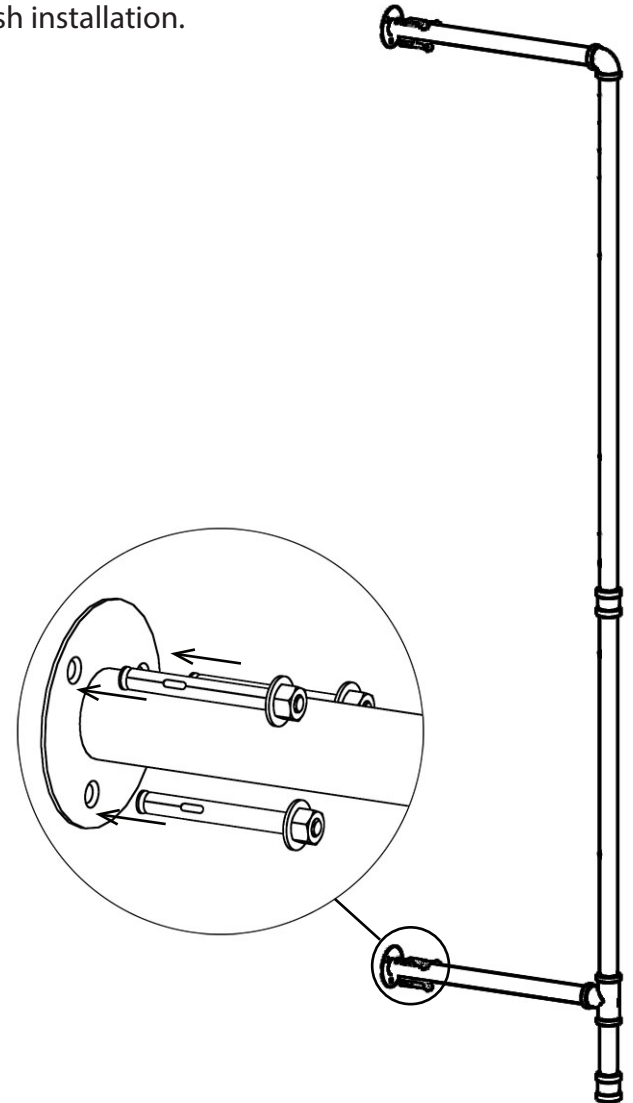

NOTE: Finish assembling all pipeline parts before proceeding to Step 4.

**Step 4.** Move the assembled configuration to the wall, with mounting plate on Part A attach to the wall. Mark all drill locations through the holes on mounting plates. Drill holes for Stud Anchor (Part D). Place the anchor in the mounting plate and drive into the corresponding hole until the washer and the nut are tight against mounting plate. Tighten all stud anchors to finish installation.

Stud Dia: 8mm  
Drill Size: 8mm

## Straight Hanging Bar - 1PLNHNGRBK

### PARTS LIST

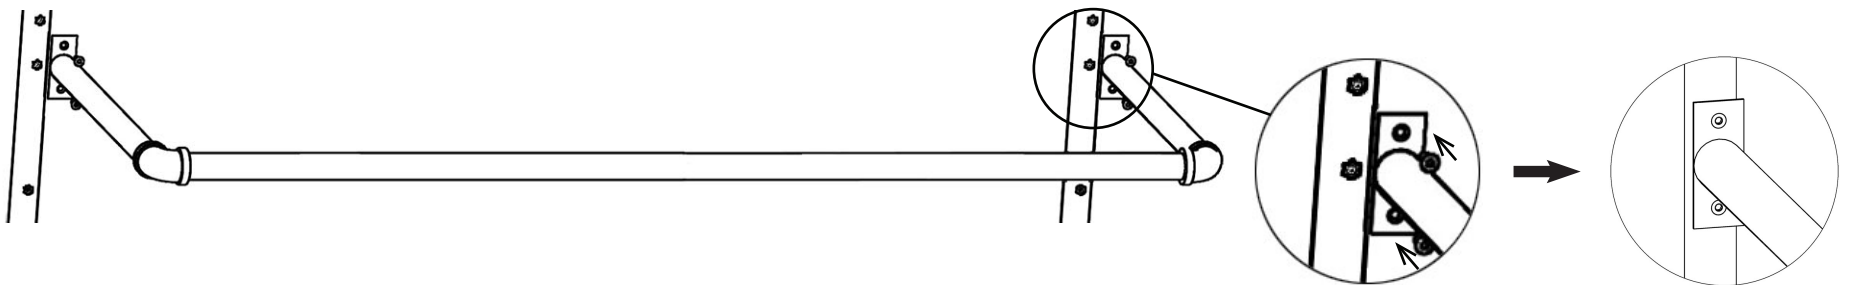

A. Hanging Bar	X1
B. Mounting Bar	X2
C. Elbow Fitting	X2
D. Tee Fitting	X1
E. Flat Head Socket Screw	X4
F. Hex Key	X1

**Step 1.** Connect Part A with (2) Part C at both ends as shown below. Then thread (2) Part B into Part C. Be sure (2) Part B facing the same direction. Twist to tighten all pipes fully.

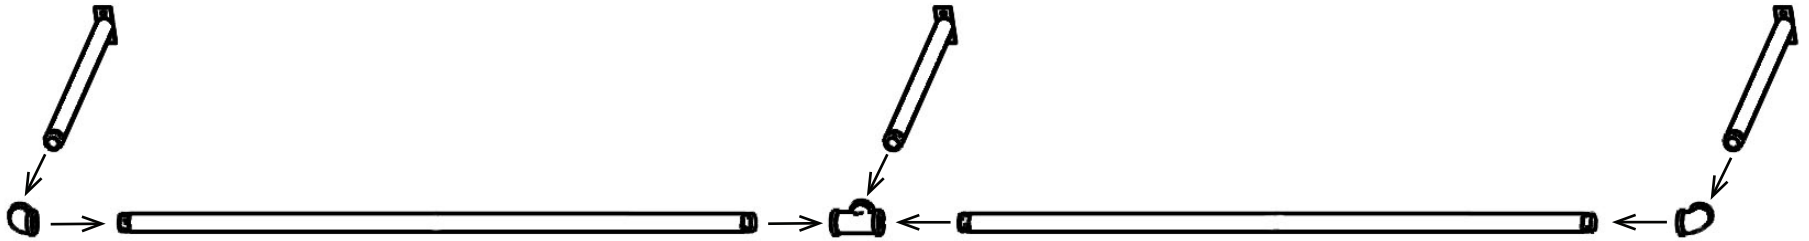

**Step 2.** Attach the assembled Hanging Bar in Step 1 to (2) Wall Mount Pole (PPLNOUTRIG) at desired height. Align holes on rectangle plates with holes on Wall Mount Pole. Screw in all provided screws (Part E) on both sides with Hex Key (Part F)

# PIPELINE CLOTHING RACKS

## Straight Hanging Bar - 1PLNHNGRBK (Cont.)

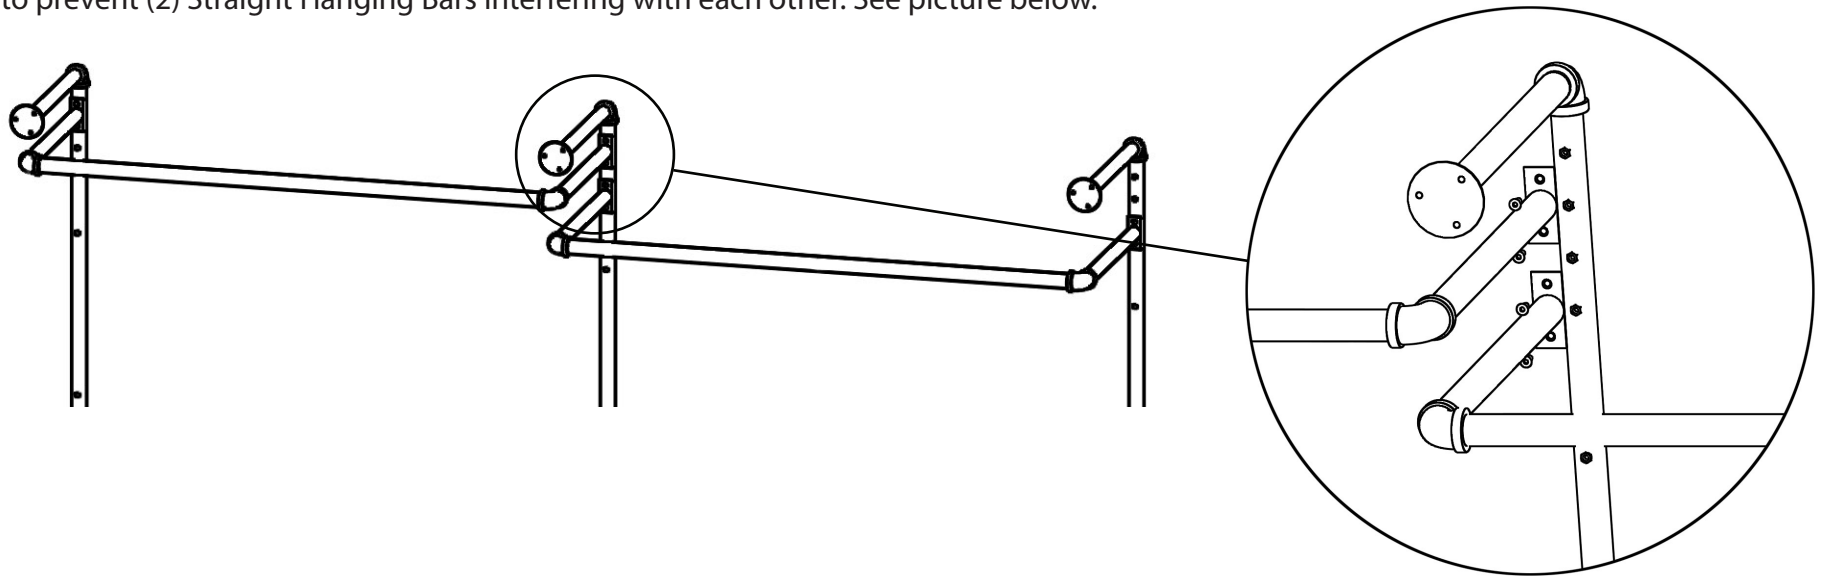

To build a long straight hanging bar for a configuration that has more than one section, simply connect the ends of (2) Hanging Bar (Part A) with Tee Fitting (Part D), and (1) Mounting Bar (Part B) at the other end of the Tee Fitting. See picture below. Follow Step 1 and 2 to finish the assembly.

NOTE: 1. Must have 2 or more 1PLNHNGRBK to build a long straight cross hanging bar.

2. Use similar method to build a long spoked hanging bar by assembling (2) Spoked Hanging Bar - 1PLNSPKBLK.

To build a configuration that has (2) Straight Hanging Bars that are not on the same level, use different holes (See Page 2) on top of the Wall Mount Pole to prevent (2) Straight Hanging Bars interfering with each other. See picture below.

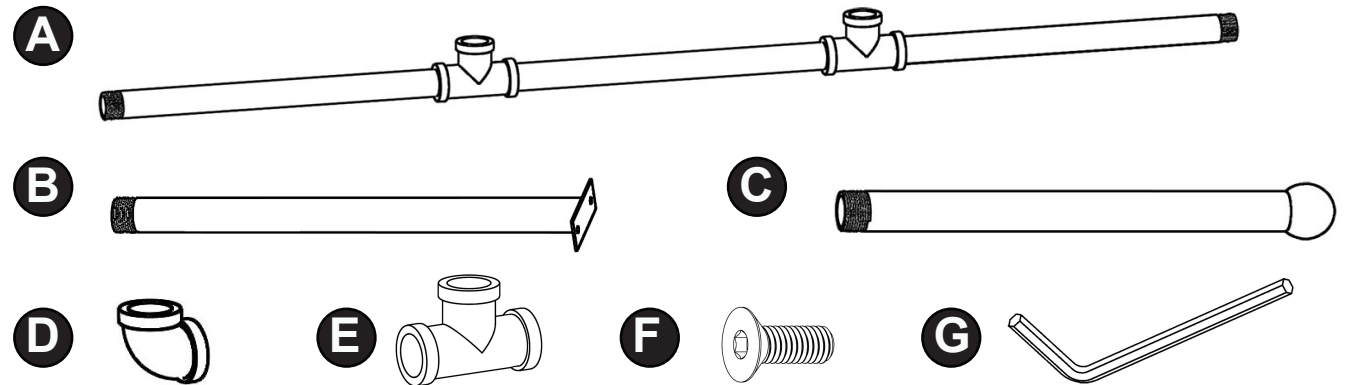

NOTE: The pipeline clothing rack configurations can be customized to create multiple styles by applying elements at different places. Customize your own clothing rack to fit your needs and make it unique.

# PIPELINE CLOTHING RACKS

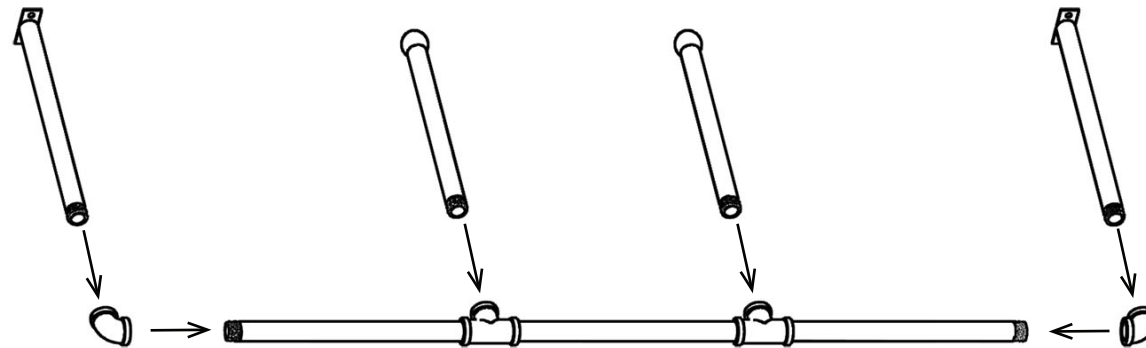

## Spoked Hanging Bar - 1PLNSPKBLK

### PARTS LIST

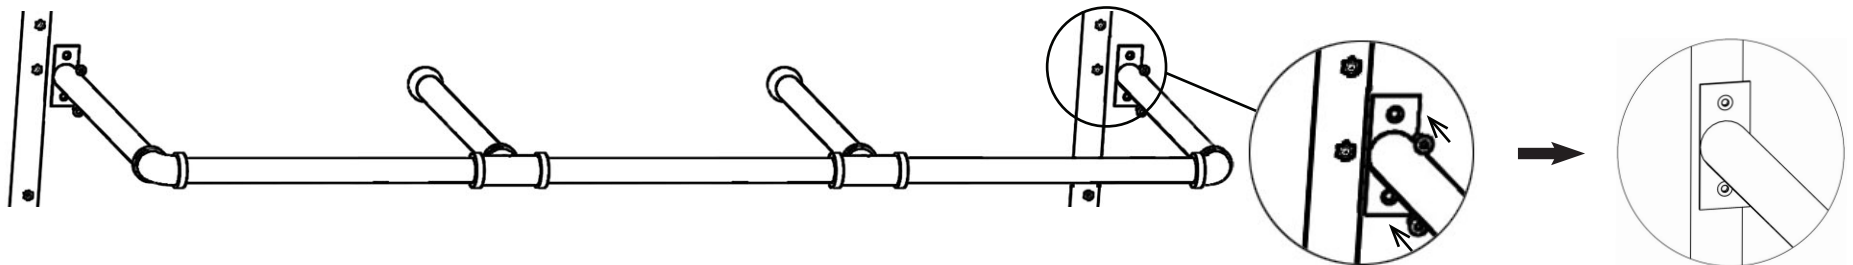

A. Hanging Bar	X1
B. Mounting Bar	X2
C. Spoke Bar	X2
D. Elbow Fitting	X2
E. Tee Fitting	X1
F. Flat Head Socket Screw	X4
G. Hex Key	X1

**Step 1.** Connect (2) Part D to Part A at both ends as shown below. Then thread (2) Part B into (2) Part D. Be sure (2) Part B facing the same direction. Connect (2) Part C to Part A at (2) Tee Fitting in the middle of Part A. Twist to tighten all pipes fully.

**Step 2.** Attach the assembled Hanging Bar in *Step 1* to (2) Wall Mount Pole (PPLNOUTRIG) at desired height. Align holes on rectangle plates with holes on Wall Mount Pole. Screw in all provided screws (Part F) on both sides with Hex Key (Part G).

NOTE: See Page 3 for how to build a long straight across spoked hanging bar

# PIPELINE CLOTHING RACKS

## Shelf - 1PLNSHVBRN, 1PLNSHVNAT

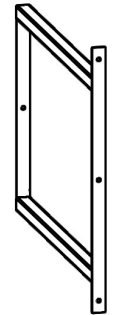

### PARTS LIST

A. Wooden Shelf	X2
B. Bracket	X2
C. Socket Screw	X4
D. Stud Anchor	X2
E. Hex Key	X1

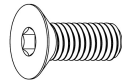

**A**

**B**

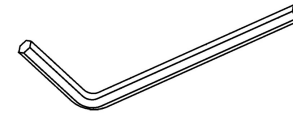

**C**

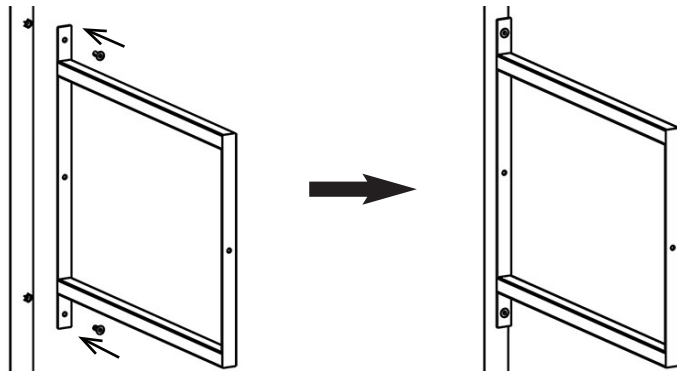

**D**

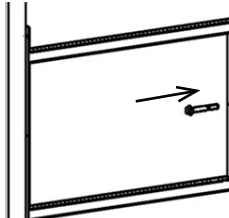

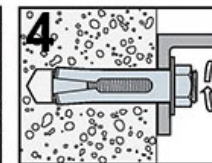

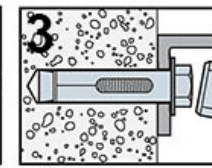

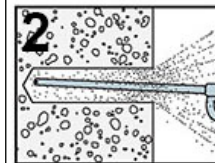

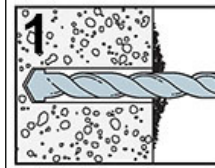

**E**

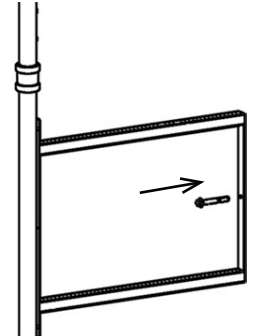

**Step 1.** Fix one bracket (Part B) to the wall mount pole (PPLNOUTRIG) using (2) socket screws (Part C). Do it for the other side, tighten all screws.

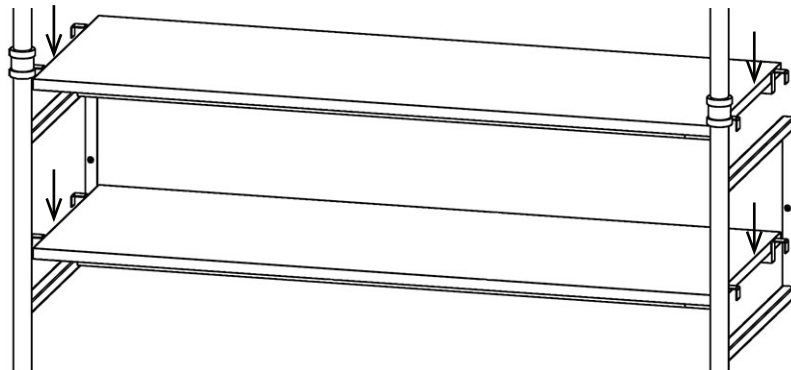

**Step 2.** Attach the whole clothing rack to wall with all other assembled parts necessary to build your configurations first. Mark (2) drill location Through pre-drilled holes on brackets for Part D, drill holes then fix (2) brackets onto the wall by tightening hex nuts.

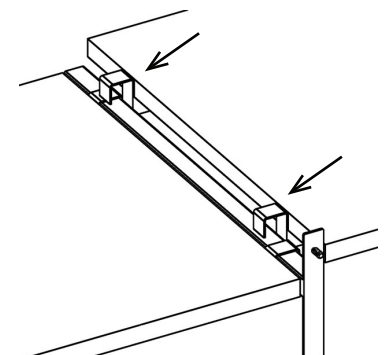

Stud Dia: 8mm  
Drill Size: 8mm

**Step 3.** Place one wooden shelf (Part A) at the bottom of the brackets with the hooks sitting on top of the support bars. Place the other wooden shelf at the top of the brackets.

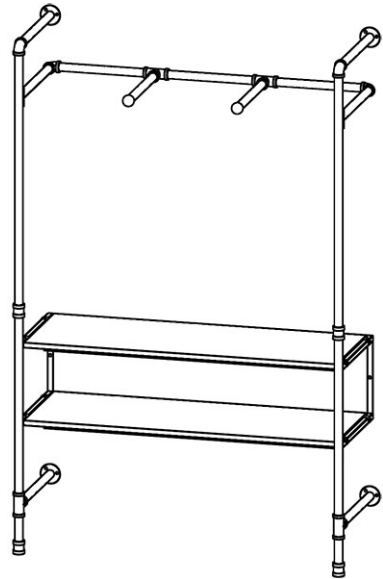

**NOTE:** The distance between the two hooks on one end is bigger than the other (see left below). In configurations that have 2 shelves side by side, hooks on different shelves can sit on the same support bar.

## Configurations - PPLN12NATL, PPLN12BRWN

### PPLN12NATL PPLN12BRWN

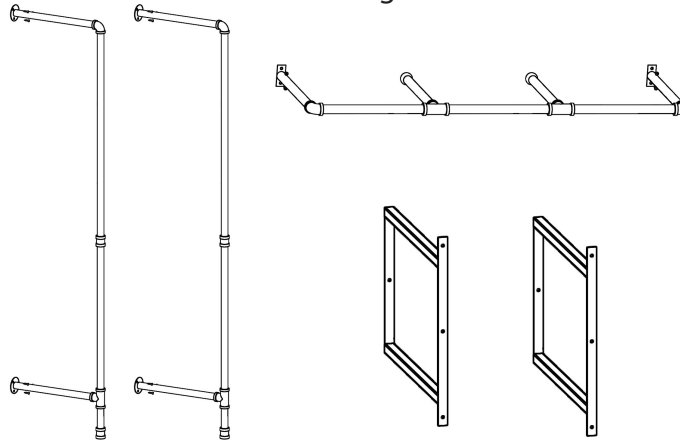

PPLN12NATL (Natural Stained shelves) includes:

- (1) 2PLNOUTRIG
- (1) 1PLNSHVNAT
- (1) 1PLNSPKBLK

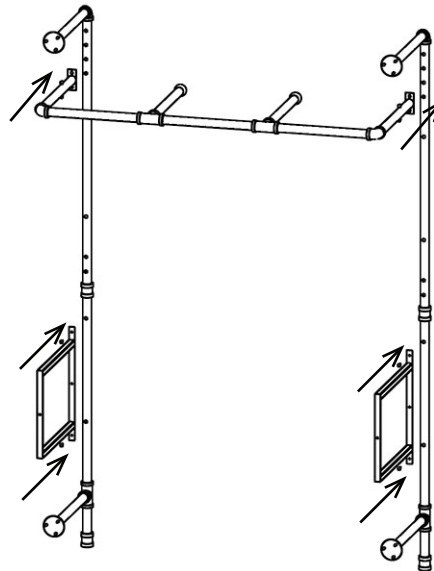

PPLN12BRWN (Dark brown stained shelves) includes:

- (1) 2PLNOUTRIG
- (1) 1PLNSHVBRN
- (1) 1PLNSPKBLK

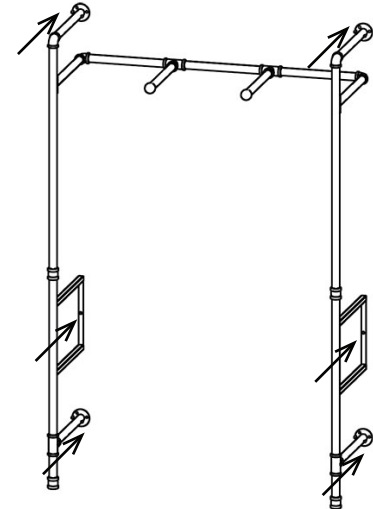

**Step 1.** Assemble Wall Mount Pole and Spoked Hanging Bar. See instructions of each single item for details.

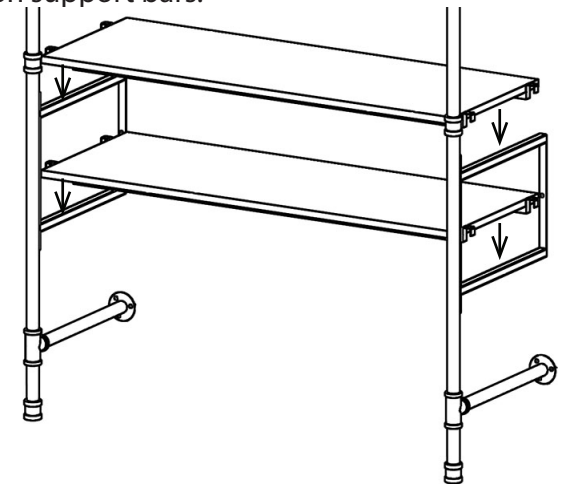

**Step 2.** Fix spoked hanging bar and shelf brackets on to two poles with provided screws. Tighten all screws.

**Step 3.** Attach the assembled rack to the wall. Mark drill locations through holes on mounting plates. Drill holes, then fix the rack with stud anchors. (See Page 2 for drill size)

**Step 4.** Place (2) wooden shelves onto brackets with hooks hanging on support bars.

NOTE: 1. Refer to Pages 1-6 to assemble each respective individual part.

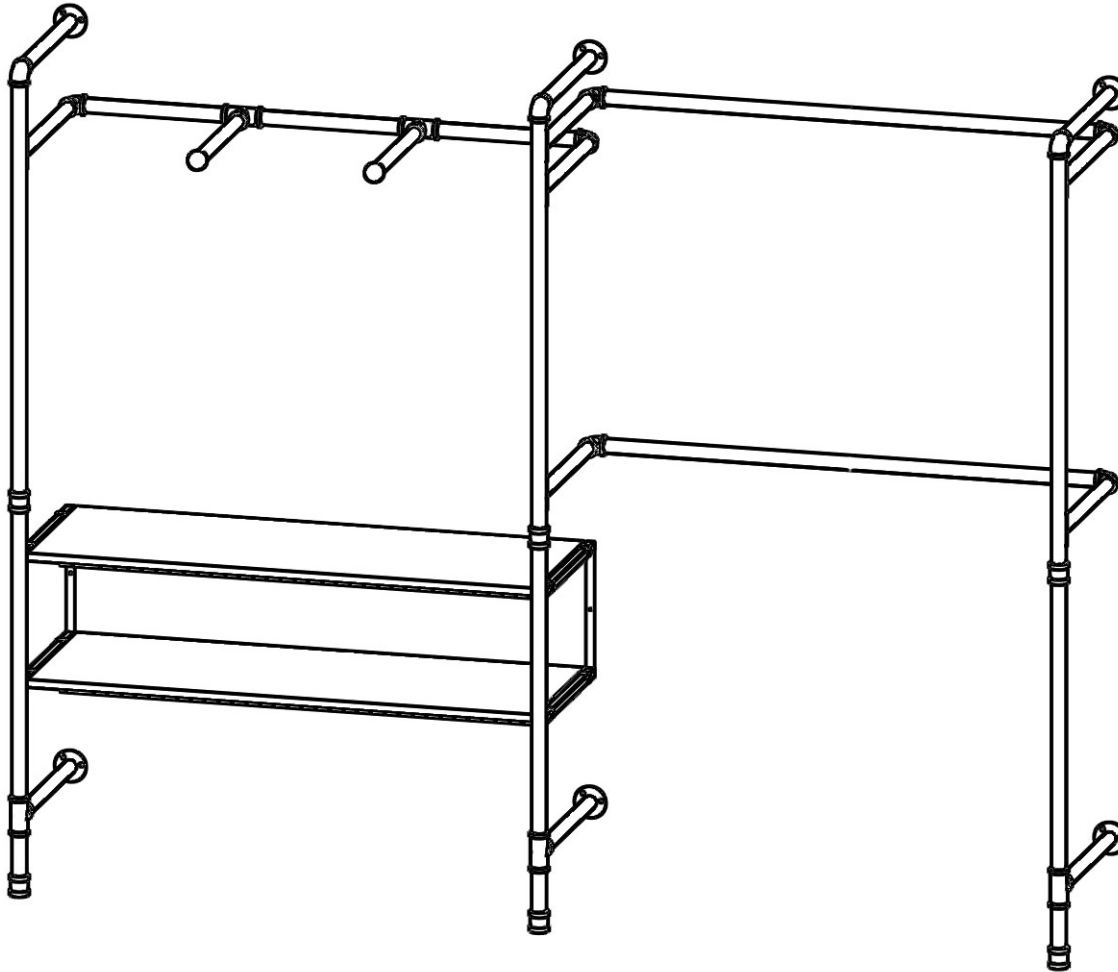

2. The pipeline clothing rack configurations can be customized to create multiple styles by applying elements at different places.

2 persons are recommended to safely assemble this product. Hardware may loosen overtime. Periodically check that all connections are tight. Clean with soft, dry cloth. To protect finishing, avoid using chemicals and household cleansers. Questions? Call 1-800-572-2194.

# PIPELINE CLOTHING RACKS

## Configurations - 2PPLN32NAT, 2PPLN32BRN

**2PPLN32NAT**  
**2PPLN32BRN**

2PPLN32NAT (Natural stained shelves) includes:

- (1) 2PLNOUTRIG
- (1) 1PLNSHVNAT
- (1) 1PLNSPKBLK
- (1) PPLNOUTRIG
- (2) 1PLNHNGRBK

2PPLN32BRN (Dark brown stained shelves) includes:

- (1) 2PLNOUTRIG
- (1) 1PLNSHVBRN
- (1) 1PLNSPKBLK
- (1) PPLNOUTRIG
- (2) 1PLNHNGRBK

NOTE: 1. Refer to Pages 1-6 to assemble each respective individual part.

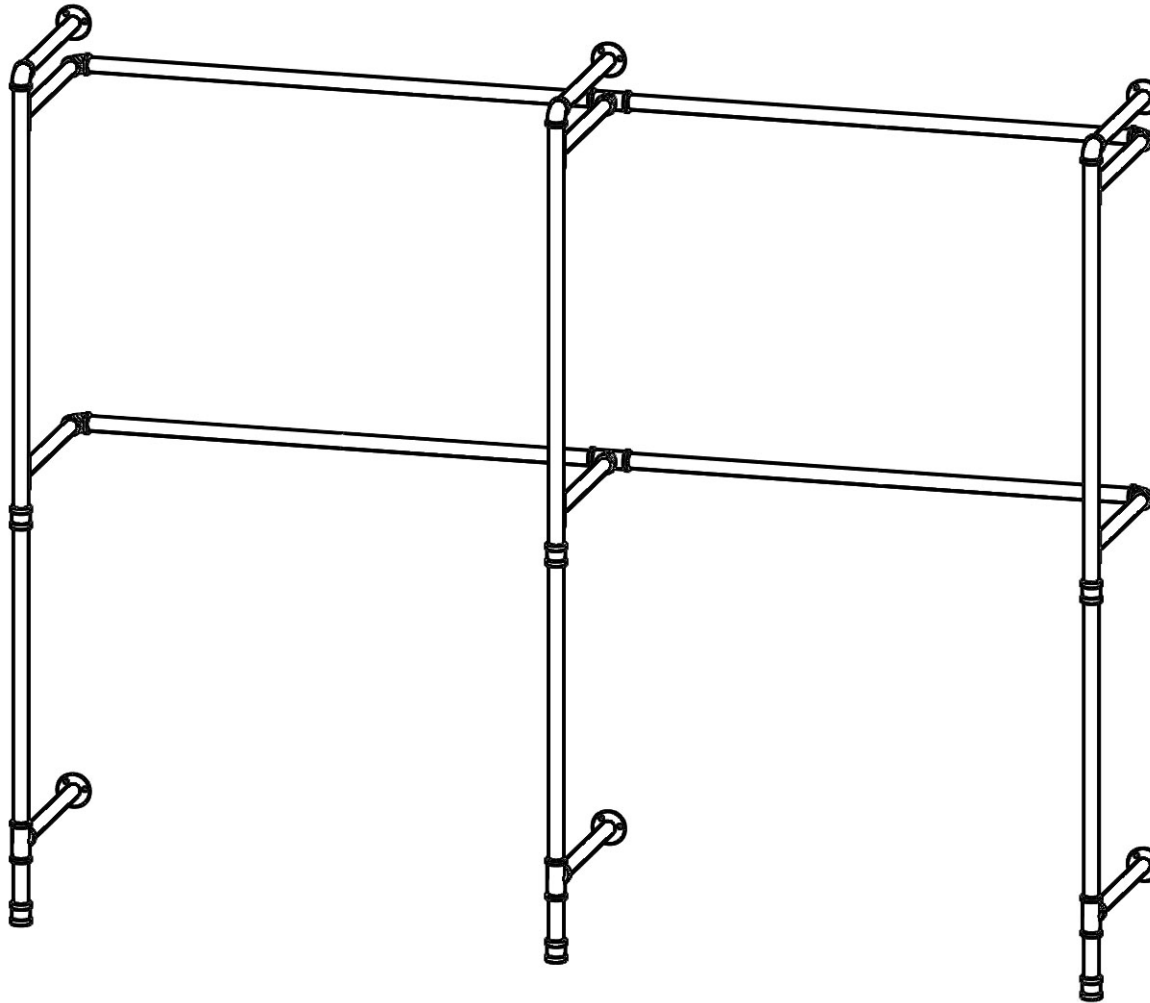

2. The pipeline clothing rack configurations can be customized to create multiple styles by applying elements at different places.

2 persons are recommended to safely assemble this product. Hardware may loosen overtime. Periodically check that all connections are tight. Clean with soft, dry cloth. To protect finishing, avoid using chemicals and household cleansers. Questions? Call 1-800-572-2194.

# PIPELINE CLOTHING RACKS

## Configurations - 2PPLN4HNGR

### 2PPLN4HNGR

2PPLN4HNGR includes:

- (1) PPLNOUTRIG
- (1) 2PLNOUTRIG
- (4) 1PLNHNGRKB

NOTE: 1. Refer to Pages 1-6 to assemble each respective individual part.

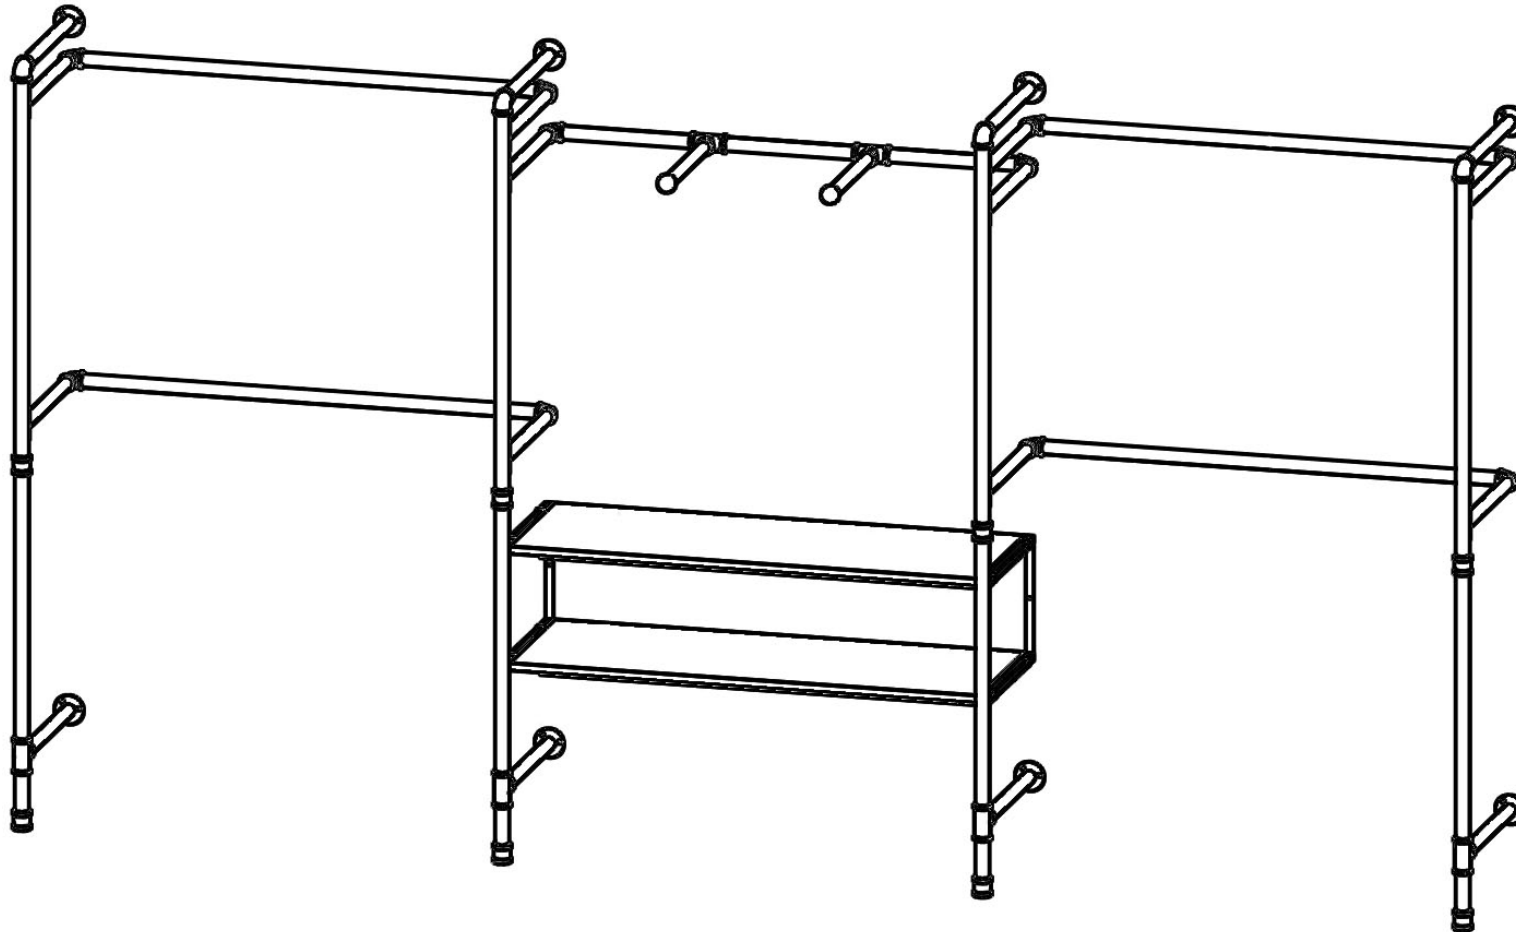

2. The pipeline clothing rack configurations can be customized to create multiple styles by applying elements at different places.

2 persons are recommended to safely assemble this product. Hardware may loosen overtime. Periodically check that all connections are tight. Clean with soft, dry cloth. To protect finishing, avoid using chemicals and household cleansers. Questions? Call 1-800-572-2194.

# PIPELINE CLOTHING RACKS

## Configurations - 3PPLN52NAT, 3PPLN52BRN

**3PPLN52NAT**  
**3PPLN52BRN**

3PPLN52NAT (Natural stained shelves) includes:

- (2) 2PLNOUTRIG
- (1) 1PLNSHVNAT
- (1) 1PLNSPKBLK
- (4) 1PLNHNGBK

3PPLN52BRN (Dark Brown stained shelves) includes:

- (2) 2PLNOUTRIG
- (1) 1PLNSHVBRN
- (1) 1PLNSPKBLK
- (4) 1PLNHNGBK

NOTE: 1. Refer to Pages 1-6 to assemble each respective individual part.

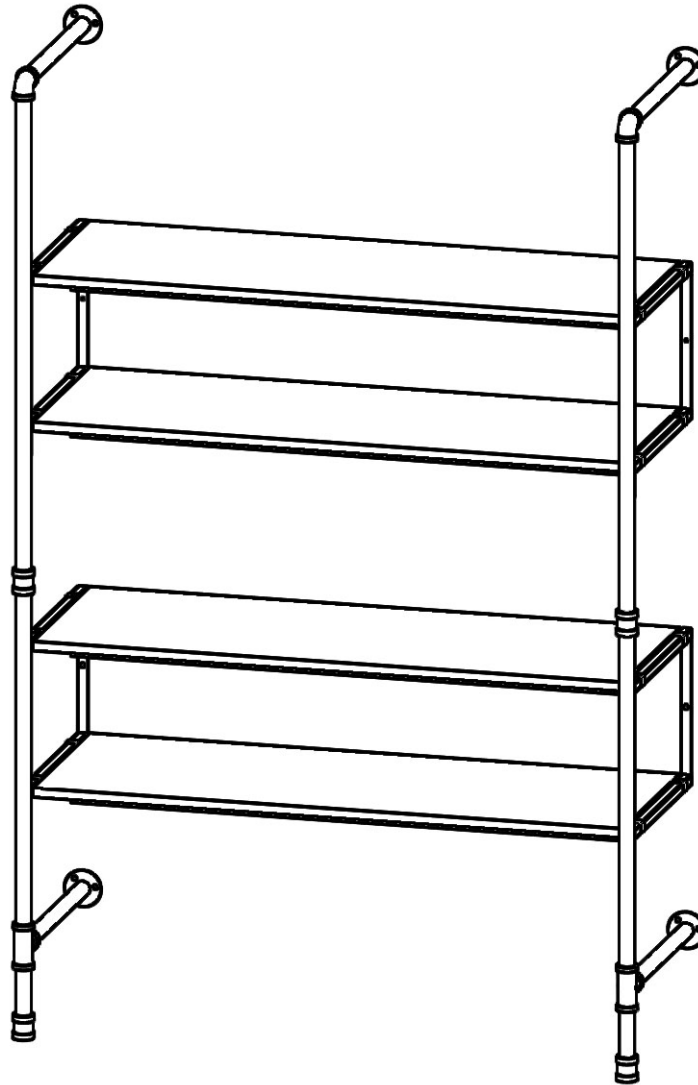

2. The pipeline clothing rack configurations can be customized to create multiple styles by applying elements at different places.

2 persons are recommended to safely assemble this product. Hardware may loosen overtime. Periodically check that all connections are tight. Clean with soft, dry cloth. To protect finishing, avoid using chemicals and household cleansers. Questions? Call 1-800-572-2194.

# PIPELINE CLOTHING RACKS

## Configurations - PPLN4SHNAT, PPLN4SHBRN

**PPLN4SHNAT**  
**PPLN4SHBRN**

PPLN4SHNAT (Natural stained shelves) includes:

- (1) 2PLNOUTRIG
- (2) 1PLNSHVNAT

PPLN4SHBRN (Dark brown stained shelves) includes:

- (1) 2PLNOUTRIG
- (2) 1PLNSHVBRN

NOTE: 1. Refer to Pages 1-6 to assemble each respective individual part.

2. The pipeline clothing rack configurations can be customized to create multiple styles by applying elements at different places.

2 persons are recommended to safely assemble this product. Hardware may loosen overtime. Periodically check that all connections are tight. Clean with soft, dry cloth. To protect finishing, avoid using chemicals and household cleansers. Questions? Call 1-800-572-2194.
