

# STORE & CHARGE

## PULSE™ 30S

Contemporary design with a small footprint for tablets and versatile enough to support Chromebooks and Ultrabooks.

### FEATURES

- Laser cut numbers for identification on every device slot.
- Polypropylene shelf dividers store 30 devices vertically and protect them from scratching.
- Includes a sophisticated power manager that continuously analyzes power requirements and efficiently charges devices in a round robin cycle, – all from one 15 Amp electrical circuit. The power manager allows for use of the auxiliary outlet on the exterior of the cart while the batteries are charging.
- Full-access double doors in the front for the user and optional full-access double door in the rear ( MDMTAB30) or removable back panel (MDMTAB30BP).
- Front cable management conveniently positions power cords to plug into devices. Cord management in the back of the cart features laser printed numbers and adapter storage bins.
- Dual-handle design for safe and easy mobility.
- Security is provided by the solid steel construction and all steel swing handle with programmable padlock.
- Perforated exterior to help keep devices cool.
- Side panel includes a cord winder to keep the power cord neat and out of the way when not in use.
- Easy rolling 5” all swivel locking casters for tight spaces that, when in fixed position, provide added directional control.
- Ships fully assembled and ready for use.
- Constructed using an average 30% post-consumer recycled steel content and finished in environmentally friendly powder paint. Steel components are 100% recyclable at the end of the product life cycle. The Pulse™ 30S has achieved GREENGUARD GOLD Certification and is UL 60950-1 Certified for Safety of Technology Equipment. For additional information on UL 60950-1 and GREENGUARD GOLD Certification, visit [bretford.com/certifications](http://bretford.com/certifications).
