SRAMRQ Banner Series

1. Base in bag.

2. Open bag.

3. Remove base & telescoping pole.

4. Set the pole to desired height by twisting sections in opposite directions.

5. Insert pole into base.

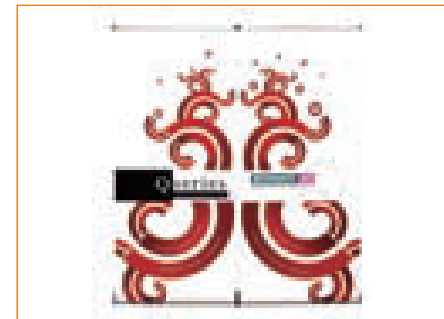

6. Tilt the unit toward yourself while raising the graphic to the top of the pole.

7. Insert top of pole into the top rail.

8. If using side-by-side with another banner, use the magnetic endcap, otherwise use the standard endcap.

9. If using side-by-side with another banner, the base is also magnetic to keep the banners lined up.
