

TTCHG10BK Assembly Instructions

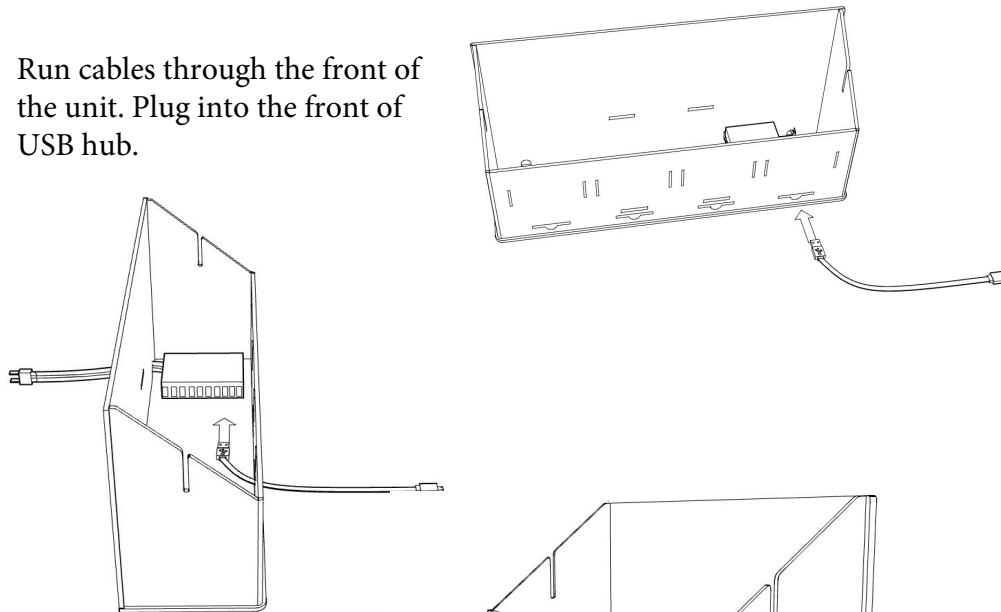

1.

Run Power Cable Through the back of the unit, and plug the power cable into the back of the USB hub.

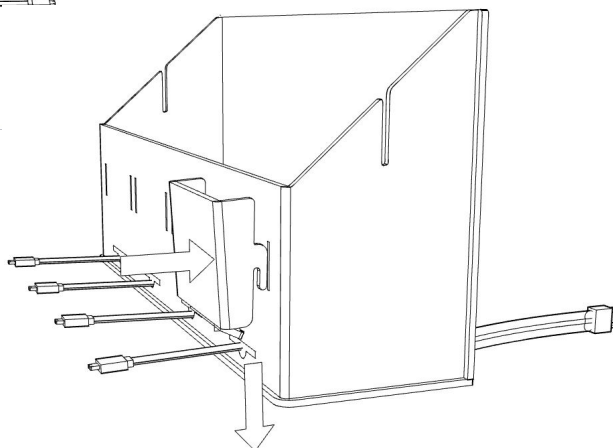

2.

Run cables through the front of the unit. Plug into the front of USB hub.

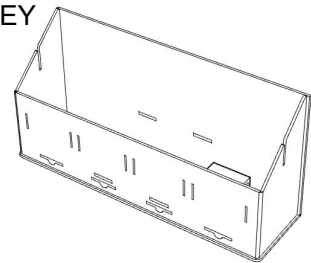

3.

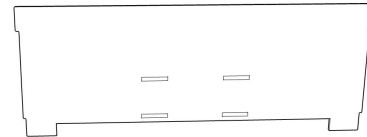

Attach the pockets by pushing the arms into the slots then snap the pocket down. It will "Snap into Place"

KEY

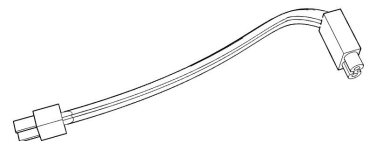

Body X1

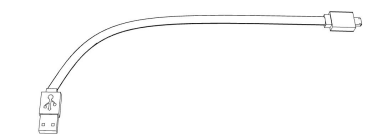

Divider X1

Shelves X2

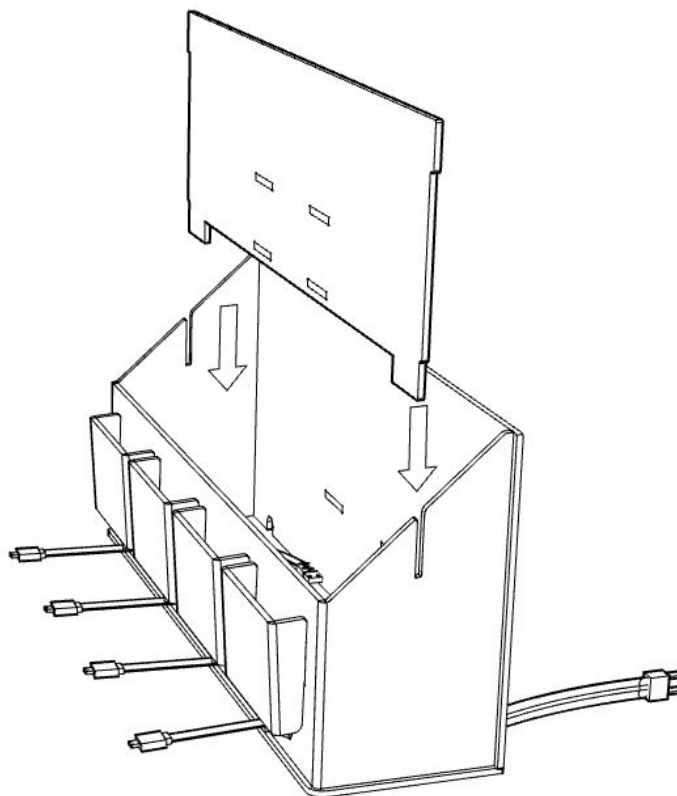

Power Cable X1

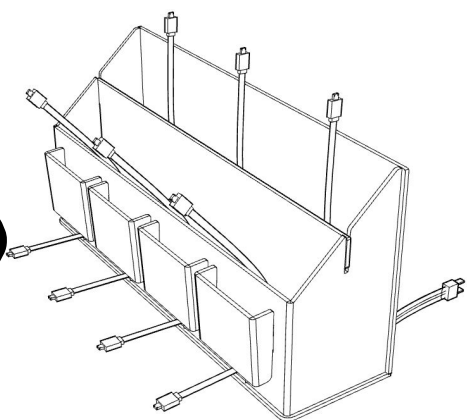

Power Cable X10

4. Drop the dividing panel down into the unit and align it in the units cutouts.

5.

Place three cables into each half of the back portion of the unit. Try and align the cables with the openings where the shelves will sit.

6. Snap each shelf into the unit. Place the front tabs in the front of the unit then snap the back down into the center divider. Repeat the process with the back shelf.
