**1**

Fold both triangular flaps inward, inserting small tabs into slots.

2

Fold both downward/side tabs upward 90 degrees.

3

Fold both side tabs inward 90 degrees.

4

Bring vertical folds inward, creating sides.

5

Fold up at horizontal line in picture, creating bottom of display.

6

Press the 2 back support flaps out while folding at the mid- horizontal fold line.

7

Here you see both back support tabs pressed out.

8

Finally fold at last horizontal line, tucking it inside, completing your display box.

9

Your display box is done.
